Spenser's famous Flight Patrick Cheney challenges the received wisdom about the shape and goal of Spenser's literary career. He contends that Spenser's idea of a literary career is not strictly the conventional Virgilian pattern of pastoral to epic but a Christian revision of that pattern in light of Petrarch and the Reformation. Cheney demonstrates that far from changing his mind about his career as a result of disillusionment, Spenser embarks upon and completes a daring progress that secures his status as an Orphic poet. In "October" Spenser calls his idea of a literary career the famous flight. Both classical and Christian culture has authorized the myth of the winged poet as a primary myth of fame and glory. Cheney shows that throughout his poetry Spenser relies on an image of flight to accomplish his highest goal.
