Ebersole,1992-08-17 This examination of death rituals in early Japan finds in the practice of double burial a key to understanding the Taika Era 645 710 A D Drawing on narratives and poems from the earliest Japanese texts the Kojiki the Nihonshoki and the Man yoshu an anthology of poetry it argues that double burial was the center of a manipulation of myth and ritual for specific ideological and factional purposes This volume has significantly raised the standard of scholarship on early Japanese and Man yoshu studies Joseph Kitagawa So convincing is the historical and religious thought displayed here it is impossible to imagine how anyone can ever again read these documents in the old way Alan L Miller The Journal of Religion A central resource for historians of early Japan David L Barnhill History of Religions *Mary I* S. Duncan,2012-06-04 This book explores the gender politics of the reign of Mary I of England from her coronation to her funeral and examines the ways in which the queen and her supporters used language royal ceremonies and images to bolster her right to rule and define her image as queen *On Kings* Marshall Sahlins,David Graeber,2017-12-15 In anthropology as much as in popular imagination kings are figures of fascination and intrigue heroes or tyrants in ways presidents and prime ministers can never be This collection of essays by two of the world s most distinguished anthropologists David Graeber and Marshall Sahlins explores what kingship actually is historically and anthropologically As they show kings are symbols for more than just sovereignty indeed the study of kingship offers a unique window into fundamental dilemmas concerning the very nature of power meaning and the human condition Reflecting on issues such as temporality alterity and utopia not to mention the divine the strange the numinous and the bestial Graeber and Sahlins explore the role of kings as they have existed around the world from the BaKongo to the Aztec to the Shilluk and beyond Richly delivered with the wit and sharp analysis characteristic of Graeber and Sahlins this book opens up new avenues for the anthropological study of this fascinating and ubiquitous political figure **Purity and Auspiciousness in Indian Society** John Braisted Carman,Frédérique Apffel Marglin,1985 Rara! Elizabeth McAlister,2002-05-01 Rara is a vibrant annual street festival in Haiti when followers of the Afro Creole religion called Vodou march loudly into public space to take an active role in politics Working deftly with highly original ethnographic material Elizabeth McAlister shows how Rara bands harness the power of Vodou spirits and the recently dead to broadcast coded points of view with historical gendered and transnational dimensions **Senses** Regina Bendix,Donald Brenneis,2005 The essays in this volume present deeply contextualized cases of sensory

experience They link senses to each other and to event sentiment emplacement identity and the ongoing shaping of social life In doing so they make a strong Joint case for the importance of taking the senses seriously not in isolation but as integral elements of culture and interaction *Contested Identities* Peter Loizos, Evthymios Papataxiarchis, 2016-09-29 In this collection leading anthropologists provide a comprehensive yet highly nuanced view of what it means to be a Greek man or woman married or unmarried functioning within a complex society based on kinship ties Exploring the ways in which sexual identity is constructed these authors discuss for example how going out for coffee embodies dominant ideas about female sexuality moral virtue and autonomy why men in a Lesbos village maintain elaborate friendships with nonfamily members while the women do not why young housewives often participate in conflict resolution rituals and how the dominant role of mature married householders is challenged by unmarried persons who emphasize spontaneity and personal autonomy This collection demonstrates that kinship and gender identities in Greece are not unitary and fixed kinship is organized in several highly specific forms and gender identities are plural competing antagonistic and are continually being redefined by contexts and social change *Mythography* William G. Doty, 2000-03-21 Presenting major myth theorists from antiquity to the present this work offers a cross disciplinary approach to the study of myth Rewritten and restructured it reflects the increased interest in myth among both scholars and general readers since the publication of the first edition A

Thomas Wolsey and Henrician satire Henry Howard Earl of Surrey and elegy Sir Philip Sidney and Elizabethan pageantry and Robert Devereux Earl of Essex and factional literature It demonstrates how the dynamics of disgust envy rejection and dread as they are understood in the modern affective sciences can be seen to guide literary production in the early modern court By combining Renaissance concepts of emotion with modern research in the social and natural sciences Emotion in the Tudor Court takes a transdisciplinary approach to yield fascinating and robust ways to illuminate both literary studies and cultural history

Women Letter-Writers in Tudor England James Daybell, 2018-09-26 This book represents the most comprehensive study of women's letters and letter writing during the early modern period so far undertaken and acts as an important corrective to traditional ways of reading and discussing letters as private elite male and non political Based on over 3 000 manuscript letters it shows that letter writing was a larger and more socially diversified area of female activity than has been hitherto assumed In that letters constitute the largest body of extant sixteenth century women's writing the book initiates a reassessment of women's education and literacy in the period As indicators of literacy letters yield physical evidence of rudimentary writing activity and abilities document higher forms of female literacy and highlight women's mastery of formal rhetorical and epistolary conventions The book also stresses that letters are unparalleled as intimate and immediate records of family relationships and as media for personal and self reflective forms of female expression Read as documents that inscribe social and gender relations letters shed light on the complex range of women's personal relationships as female power and authority fluctuated negotiated on an individual basis Furthermore correspondence highlights the important political roles played by early modern women Female letter writers were integral in cultivating and maintaining patronage and kinship networks they were active as suitors for crown favour and operated as political intermediaries and patrons in their own right using letters to elicit influence Letters thus help to locate differing forms of female power within the family locality and occasionally on the wider political stage and offer invaluable primary evidence from which to reconstruct the lives of early modern women

No Space Hidden Grey Gundaker, Judith McWillie, 2005 Focusing primarily though not exclusively on the southeastern United States the book examines works ranging from James Hampton's well known Throne of the Third Heaven of the Nations Millennium General Assembly now part of the Smithsonian collection to several elaborately decorated yards and gardens to smaller scale acts of commemoration protection and witness The authors show how the artful arrangement and adornment of everyday objects and plants express both the makers own experiences and concerns and a number of rich and sustaining cultural traditions They identify a lexicon of material signs that are frequently and consistently used in African American culture and art and then show how such elements have been used in various individual works and what they mean to the practitioners themselves

Thinking with Demons Stuart Clark, 1999 This is a work of fundamental importance for our understanding of the intellectual and cultural history of early modern Europe Stuart Clark offers a new interpretation of the witchcraft beliefs of European intellectuals based on their publications in the field of demonology and shows how these beliefs fitted rationally with many other views current in Europe between the fifteenth and eighteenth centuries Professor Clark is the first to explore the appeal of demonology to early modern intellectuals by looking at the books they published on the subject during this period After examining the linguistic foundations of their writings the author shows how the writers ideas about witchcraft and about magic complemented their other intellectual commitments in particular their conceptions of nature history religion and politics The result is much more than a history of demonology It is a survey of wider intellectual and ideological purposes and underlines just how far the nature of rationality is dependent on its historical context
