**Ancient Celtic Symbols and Their Meanings** D. Brewer, 2021-10-30 Celtic symbols were created by the Celts a race of tribes who lived in settlements across Europe from Ireland to Turkey notably during the Iron Age Evidence of their culture reaches back further than 1200 BC These people were thought to have a common language and shared systems of belief despite living far and wide and they are believed to have been both traders and warriors While they did not initially have a written language they did create metal and stone work with patterns that are recognisable today as Celtic symbols These shapes and patterns have been influenced by different religions beliefs and cultures ever since such as Druids and Christians As a result when we look at the symbols there are often more than one variation of the same symbol and similarly often more than one meaning attached to it This book is perfect for people new to the subject of Celtic symbology with illustrations relevant meanings and descriptions of the many myths and legends attached to them
