characteristically ignored the tribulations of Prometheus and depicted him as the animator of a naive Arcadian mankind who when awakened from their spiritual dormancy expressed astonishment at the wonders of nature and paid homage to the Titan as a new god Paul Bertagnolli charts the progress of the myth during the nineteenth century as it articulates an extraordinary variety of issues pertaining to culture society aesthetics and philosophy Drawing on archival research dance history sketch studies literary theory linear analysis topos theory and reception history individual chapters demonstrate that the legend served as a vehicle to express opinions on subjects as diverse as aristocratic patronage movements of the body on the public stage rebellion against political and religious authority outright atheism humanitarianism of the German Enlightenment interest in the music of Greek antiquity industrialization nationalism inflamed by war populism and the aesthetics of musical form Composers often resorted to varied and unorthodox musical techniques in order to reflect such remarkable subjects Beethoven outraged critics by implying a key other than the tonic at the outset of the overture to
