Allen Lott, 2003-02-06 It is difficult to imagine Franz Liszt performing in Peoria but his contemporary and foremost rival Sigismund Thalberg did just that During the mid nineteenth century Americans in more than a hundred cities from Portland Maine to Dubuque Iowa to Mobile Alabama were treated to performances by some of Europe's most celebrated pianists From Paris to Peoria deftly chronicles the visits of five of these pianists to the America of Mark Twain Whether performing in small railroad towns throughout the Midwest or in gold rush era California these five charismatic pianists Leopold de Meyer Henri Herz Sigismund Thalberg Anton Rubinstein and Hans von Bülow introduced many Americans to the delights of the concert hall With humor and insight R Allen Lott describes the glamour and the drudgery of the touring life the transformation of American audiences from boisterous to reverent and the establishment of the piano recital as a viable artistic and financial enterprise Lott also explores the creative and sometimes outlandish publicity techniques of managers seeking to capitalize on prosperous but uncharted American markets The result of extensive archival research From Paris to Peoria is richly illustrated with concert programs handbills caricatures and maps A companion website www.rallenlott.info includes a comprehensive list of repertoires and itineraries audio music examples and transcriptions of selected primary sources Certain to delight pianists musicologists and historians From Paris to Peoria is an engaging thoroughly researched and often funny account of music and culture in nineteenth century America *Music of the Gilded Age* N. Dwight Ora Frishberg Saloman, 1995 John Sullivan Dwight 1813 1893 the first American critic of art music and the founder of Dwight s Journal of Music set a new standard for musical criticism in the 1840s by fostering the American reception of Ludwig van Beethoven s then unfamiliar symphonies Drawing upon extraordinary and painstaking research Ora Frishberg Saloman details the progressive and influential musical vision of the young Dwight offering a dramatic and long overdue corrective to the conservative image of the critic that has prevailed for most of this century **Symphony no. 2 in D Minor, op. 24 ("Jullien")** George Frederick Bristow, 2011-01-01 URL <https://www.areditions.com/rr/rra/a072.html> George Frederick Bristow 1825 98 American composer conductor teacher and performer was a pillar of the New York musical community for the second half of the nineteenth century His participation in an important mid century battle of words between William Henry Fry and the journalist Richard Storrs Willis and concerning a lack of support for American composers by the Philharmonic Society has unfortunately overshadowed his accomplishments as a composer which were significant Bristow is remembered today primarily for his opera Rip van Winkle 1855 and oratorio Daniel 1866 but he was also a skillful and productive composer of orchestral music one of only a handful of American orchestral composers active at mid century Bristow wrote his Symphony no 2 Jullien in 1853 It is a substantial work in four movements scored for the standard orchestra of the early nineteenth century and strongly influenced by the personal styles of Beethoven and Mendelssohn whose works were performed regularly by the Philharmonic Society The symphony is skillfully crafted melodious and an intrinsically worthy work of musical artistry It was named to honor the French conductor Louis Jullien who visited the United States in 1853 54 with an unparalleled orchestra While in the United States Jullien both commissioned and performed American works including this symphony his support served as the catalyst for the Fry Willis battle The introductory essay to this symphony examines Bristow s career the composition of orchestral music in America at mid century and Jullien s role in the musical battle the edition makes available for the first time an important work that has been undeservedly forgotten for over 150

years **Brass Music of Black Composers** Aaron Horne, 1996-05-16 Aaron Horne provides the most comprehensive guide to brass music written by black composers. He covers composers from around the world in the 19th and 20th centuries. Included in the book is biographical information, commission duration, instrumentation, date of publication, premiere, publisher, discography for each piece, bibliographical sources, and an index which groups the music by numbers, medium, and ensemble. This is the fourth volume in Aaron Horne's monumental effort to provide the most comprehensive guide to music composed by black composers. In this volume, he covers composers from around the world in the 19th and 20th centuries, including William Grant Still, Ulysses Kay, Anthony Davis, John Coltrane, and other major figures from the world of classical jazz and popular music. The main body of the book is divided into sections devoted to African, African American, Afro-European, and Afro-Latino composers. Within each section, composers are arranged alphabetically; each entry provides biographical information as well as commission duration, instrumentation, date of publication, premiere, publisher, discography for each composition. Backmatter includes a Brass Music Index which groups the music by numbers, medium, and ensembles, a title index, discography, and bibliography. As with the earlier volumes, this is an essential reference tool for anyone with an interest in researching and/or performing the music of black composers.

Virgil Thomson: The State of Music & Other Writings (LOA #277) Virgil Thomson, 2016-10-04 A Pulitzer Prize-winning music critic presents an unprecedented collection of the writings of the great composer, critic, and father of American classical music, Virgil Thomson. Following on the critically acclaimed edition of Virgil Thomson's collected newspaper music criticism, The Library of America and Pulitzer Prize-winning music critic Tim Page now present Thomson's other literary and critical works: a body of writing that constitutes America's musical declaration of independence from the European past. This volume opens with *The State of Music* (1939), the book that made Thomson's name as a critic and won him his 14-year stint at the New York Herald Tribune. This no-holds-barred polemic, here presented in its revised edition of 1962, discusses the commissions, jobs, and other opportunities available to the American composer: a worker in a world of performance and broadcast institutions that today, as much as in Thomson's time, are dominated by tin-eared non-musical patrons of the arts who are shocked by the new and suspicious of native talent. Thomson's autobiography, *Virgil Thomson* (1966), is more than just the story of the struggle of one such American composer; it is an intellectual, aesthetic, and personal chronicle of the twentieth century from World War I era Kansas City to Harvard in the age of straw boaters, from Paris in the Twenties and Thirties to Manhattan in the Forties and after. A classic American memoir, it is marked by a buoyant wit, a true gift for verbal portrait making, and a cast of characters including Aaron Copland, Gertrude Stein, James Joyce, Paul Bowles, John Houseman, and Orson Welles. *American Music* (since 1910-1971) is a series of incisive essays on the lives and works of Ives, Ruggles, Varèse, Copland, Cage, and others who helped define a national musical idiom. *Music with Words* (1989), Thomson's final book, is a distillation of a subject he knew better than perhaps any other American composer: how to set English, especially American English, to music in opera and art song. The

volume is rounded out by a judicious selection of Thomson's magazine journalism from 1957 to 1984 thirty seven pieces most of them previously uncollected including many long form review essays written for The New York Review of Books LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing and keeping permanently in print America's best and most significant writing The Library of America series includes more than 300 volumes to date authoritative editions that average 1 000 pages in length feature cloth covers sewn bindings and ribbon markers and are printed on premium acid free paper that will last for centuries *Catalog of Copyright Entries* Library of Congress. Copyright Office,1966 Frontier Figures Beth E. Levy,2012-04-18 Frontier Figures is a tour de force exploration of how the American West both as physical space and inspiration animated American music Examining the work of such composers as Aaron Copland Roy Harris Virgil Thomson Charles Wakefield Cadman and Arthur Farwell Beth E Levy addresses questions of regionalism race and representation as well as changing relationships to the natural world to highlight the intersections between classical music and the diverse worlds of Indians pioneers and cowboys Levy draws from an array of genres to show how different brands of western Americana were absorbed into American culture by way of sheet music radio lecture recitals the concert hall and film Frontier Figures is a comprehensive illumination of what the West meant and still means to composers living and writing long after the close of the frontier **George Whitefield Chadwick** Bill F. Faucett,1996-03-19 Investigates Chadwick's symphonic compositions based on their historical background Detailed musical analysis provides an understanding of the stylistic and structural tendencies An exhaustive review of the critical reception of Chadwick's symphonic oeuvre places the works in a cultural context
