Anthony Mellors, 2024-06-04 This book explores the uncanny afterlife of modernist ideals in the second half of the twentieth century Rejecting the familiar notion that modernism dissolved during the 1930s it argues that the fusion of rationalism and mysticism which characterises modernist poetics was sustained long after its politics had been discredited by the events of World War Two The book's central concern is why the aesthetic mysticism that Walter Benjamin called the faith of those who made common cause with Fascism continued to be a guiding principle for literary elites and countercultural movements alike New light is shed on the relationship between occultism and the Pound tradition especially in terms of Pound's influence on post 1945 Anglo American poetry and a critical theory of late modernism is offered which shows how belated notions of cultural redemption have survived in contemporary poetry This wide ranging contextual study focuses on the poetry of Ezra Pound Charles Olson Paul Celan and J H Prynne and explores the development of modernist culture through its theories of phenomenology psychoanalysis science ethnography and ancient history **Margaret Atwood** Kathryn VanSpanckeren, Jan Garden Castro, 1988 A prolific writer and versatile social critic Canadian novelist and poet Margaret Atwood has recently published Bluebeard's Egg short stories Interlunar poetry and The Handmaid's Tale a critically acclaimed best selling novel This international collection of essays evaluates the complete body of her work both the acclaimed fiction and the innovative poetry The critics represented here American Australian and Canadian address Atwood's handling of such themes as feminism ecology the gothic novel and the political relationship between Canada and the United States The essays on Atwood's novels introduce the general reader to her development as a writer as she matures from a basically subjective poetic vision seen in Surfacing and The Edible Woman to an increasingly engaged political stance exemplified by The Handmaid's Tale Other essays examine Atwood's poetry from her transformation of the Homeric model to her criticisms of the United States relationship with Canada The last two critical essays offer a unique view of Atwood through an investigation of her use of the concept of shamanism and through a presentation of eight of her vivid watercolors The volume ends with Atwood presenting her own views in an interview with Jan Garden Castro and in a conversation between Atwood and students at the University of Tampa Florida **Mesoamerican Manuscripts**, 2019-01-28 Mesoamerican Manuscripts New Scientific Approaches and Interpretations brings together a wide range of modern approaches to the study of pre colonial and early colonial Mesoamerican manuscripts This includes innovative studies of materiality through the application of non invasive spectroscopy and imaging techniques as well as new insights into the meaning of these manuscripts and related visual art stemming from a post colonial indigenous perspective This cross and interdisciplinary work shows on the one hand the value

of collaboration of specialists in different field but also the multiple viewpoints that are possible when these types of complex cultural expressions are approached from varied cultural and scientific backgrounds Contributors are Omar Aguilar S nchez Paul van den Akker Maria Isabel lvarez Icaza Longoria Frances F Berdan David Buti Laura Cartechini Davide Domenici Laura Filloy Nadal Alessia Frassani Francesca Gabrieli Maarten E R G N Jansen Rosemary A Joyce Jorge G mez Tejada Chiara Grazia David Howell Virginia M Llad Buis n Leonardo L pez Luj n Raul Macuil Mart nez Manuel May Castillo Costanza Miliani Mar a Olvido Moreno Guzm n Gabina Aurora P rez Jim nez Araceli Rojas Aldo Romani Francesca Rosi Antonio Sgamellotti Ludo Snijders and Tim Zaman See inside the book *Contemporary Poetry* Nerys Williams,2011-04-06

Discussing the work of more than 60 poets from the US UK Ireland Australia New Zealand and the Caribbean Nerys Williams guides students through the key ideas and movements in the study of poetry today **The Classical Tibetan Language** Stephan V. Beyer,1992-01-01 Among Asian languages Tibetan is second only to Chinese in the depth of its historical record with texts dating back as far as the eighth and ninth centuries written in an alphabetic script that preserves the contemporaneous phonological features of the language The Classical Tibetan Language is the first comprehensive description of the Tibetan language and is distinctive in that it treats the classical Tibetan language on its own terms rather than by means of descriptive categories appropriate to other languages as has traditionally been the case Beyer presents the language as a medium of literary expression with great range power subtlety and humor not as an abstract object He also deals comprehensively with a wide variety of linguistic phenomena as they are actually encountered in the classical texts with numerous examples of idioms common locutions translation devices neologisms and dialectal variations *Green Man, Earth Angel* Tom Cheetham,2012-02-01 Green Man Earth Angel explores the central role of imagination for understanding the place of humans in the cosmos Tom Cheetham suggests that lives can only be completely whole if human beings come to recognize that the human and natural worlds are part of a vast living network and that the material and spiritual worlds are deeply interconnected Central to this reimagining is an examination of the place of language in human life and art and in the worldview that the prophetic religions Judaism Christianity and Islam presuppose If human language is experienced only as a subset of a vastly more than human whole then it is not only humans who speak but also God and the world with all its creatures If humans internal poetry and creative imaginations are part of a greater conversation then language can have the vital power to transform the human soul and the soul of the world itself **Reading Duncan Reading** Stephen Collis,Graham Lyons,2012-12-01 In Reading Duncan Reading thirteen scholars and poets examine first what and how the American poet Robert Duncan read and perforce what and how he wrote Harold Bloom wrote of the searing anxiety of influence writers experience as they grapple with the burden of being original but for Duncan this was another matter altogether Indeed according to Stephen Collis No other poet has so openly expressed his admiration for and gratitude toward his predecessors Part one emphasizes Duncan s acts of reading tracing a variety of his derivations including Sarah Ehlers s

demonstration of how Milton shaped Duncan's early poetic aspirations Siobh n Scarry's unveiling of the many sources including translation and correspondence drawn into a single Duncan poem and Clement Oudart's exploration of Duncan's use of foreign words to fashion a language to which no one is native In part two the volume turns to examinations of poets who can be seen to in some way derive from Duncan and so in turn reveals another angle of Duncan's derivative poetics J P Craig traces Nathaniel Mackey's use of Duncan's would be shaman Catherine Martin sees Duncan's influence in Susan Howe's development of a poetics where the twin concepts of trespass and permission hold comparable sway and Ross Hair explores poet Ronald Johnson's reading to steal These and other essays collected here trace paths of poetic affiliation and affinity and hold them up as provocative possibilities in Duncan's own inexhaustible work Contextual Practice Stephen Fredman, 2010 Fredman makes the original argument that some of the most innovative works of poetry and art in the postwar period 1945-1970 engaged in a contextual practice a term that refers both to a way of making art characterized by assemblage and to a new relationship between art and life an erotic poetics

American Poetry as Transactional Art Stephen Fredman, 2020-06-02 Explores the ways American poetry engages with visual art music fiction spirituality and performance art Many people think of poetry as a hermetic art as though poets wrote only about themselves or as if the subject of poetry were finally only poetry its forms and traditions Indeed much of what constitutes poetry in the lyric tradition depends on a stringently controlled point of view and aims for a timeless intransitive

utterance Stephen Fredman's study proposes a different perspective American Poetry as Transactional Art explores a salient quality of much avant garde American poetry that has so far lacked sustained treatment namely its role as a transactional art Specifically Fredman describes this role as the ways it consistently engages in conversation talk correspondence going beyond the scope of its own subjects and forms its existential interactions with the outside world Poetry operating in this vein draws together images ideas practices rituals and verbal techniques from around the globe and across time not to equate them but to establish dialogue to invite as many guests as possible to the World Party which Robert Duncan has called the symposium of the whole Fredman invites new readers into contemporary poetry by providing lucid and nuanced analyses of specific poems and specific interchanges between poets and their surroundings He explores such topics as poetry's transactions with spiritual traditions and practices over the course of the twentieth century the impact of World War II on the poetry of Charles Olson and George Oppen exchanges between poetry and other art forms including sculpture performance art and ambient music the battle between poetry and prose in the early work of Paul Auster and in Lyn Hejinian's *My Life* The epilogue looks briefly at another crucial transactional occasion teaching American poetry in the classroom in a way that demonstrates that it is at the center of the arts and at the heart of American culture
