Takemi,2016-10-21 *Governing Health Systems* For Nations and Communities Around the World examines the complex
relationships between governance and performance in community and national health systems Each chapter provides an in
depth case study using both qualitative and quantitative methods on health systems in many countries including Uganda
Ghana India Zambia Japan Nigeria Indonesia Brazil Palestine and South Korea The chapters were written by former Takemi
Fellows who were mid career research fellows at the Harvard T H Chan School of Public Health and their colleagues This
case study approach yields important findings as well as contextual insights about the challenges and accomplishments in
addressing governance issues in national and community health systems around the world Health policymakers around the
world are struggling to address the multiple challenges of governing health systems These challenges also represent
important themes for the research mission of the Takemi Program in International Health at the Harvard T H Chan School of

Public Health This book is based on the program's thirtieth anniversary symposium held in October 2013 at Harvard The studies presented in this book deep examinations of illustrative examples of health system governance for communities and nations contribute to our knowledge about global health and assist policymakers in dealing with the complex practical problems of health systems In short this book addresses central questions about governing health systems and why governance matters
