time sequence by an international group of scientists most of them fluid dynamicists The first meeting was held in Hong Kong
the second one in Berlin and the third and latest one in Zurich SCART meetings include a scientific conference and a number
of art events The intention is to restart a dialogue between scientists and artists which was so productive in the past To
achieve this goal several lectures given by scientists at the conference are intended for a broader public In the proceedings
they are denoted as SCART lectures The artists in turn address the main theme of the conference with their contributions The
lectures at SCART 2000 covered the entire field of fluid dynamics from laminar flows in biological systems to astrophysical
events such as the explosion of a neutron star The main exhibition by Dutch and Swiss artists showed video and related art
