Whitaker's Books in Print ,1998 Books in Print Supplement ,2002 *Synergy in conservation of biodiversity and climate change mitigation: Nordic peatlands and forests* Dinesen, Lars,Højgård Petersen, Anders,Rahbek, Carsten,2021-04-22 Available online <https://pub.norden.org/temanord2021/510> We are facing two global environmental crises the loss of biodiversity and climate change Both crises should be handled within the forthcoming decades Actions implemented to mitigate one challenge should not worsen the other The two crises are interlinked Biodiversity together with geophysical and climatic factors form and maintain ecosystems which contribute to climate change mitigation by capturing CO₂ and store carbon But the current climate change worsen the negative impact of the main drivers causing biodiversity loss This leads to further degradation of ecosystems which in turn may weaken the functionality of ecosystems that reduce the ability of nature to capture and store carbon The project identified eight cases related to nature based solutions enacted in the Nordic countries and identifies synergies between biodiversity conservation and climate change mitigation Baha'i and Globalisation Annika Hvithamar,Margit Warburg,Morten Warmind,2005-12-01 Globalisation has become a buzzword that typically refers to the intensifying integration of the world economy especially as midwifed by technological advances It also implies a growing political and cultural sense that all humanity is globally interdependent There have always been individuals of course who have advocated such awareness one of them being the founder of the Baha i faith who formulated a spiritual equivalent as the religion s central doctrine in the late 19th century Ye are the fruits of one tree and the leaves of one branch Its emphasis on global unification made Baha i an obvious candidate for a case study on new religions and globalisation The chapters in this volume fall into two sections diachronic and synchronic The first part is organised chronologically beginning with the emergence of the globalist tendency in the messianic vision of Babism the precursor to Baha i and concluding with an analytic history of its leaders changing attitudes to international politics The second part considers a variety of global themes in contemporary Baha i practice including global thought in Baha i writings the impact of the internet and the triumphalist and secular strains in Baha i identity Though five million members make it one of the world s most successful new religions Baha i has attracted little scholarly attention Most of the academics concentrating on Baha i have contributed to this volume which will appeal not only to students of modern religious movements but to anyone interested in the ways religions can adapt to and embrace the modern world Annual Reports on NMR Spectroscopy ,1993-06-29 Annual Reports on NMR Spectroscopy *Synergy Matters* Adrian M. Castell,Amanda J. Gregory,Giles A. Hindle,Mathew E. James,Gillian Ragsdell,2006-02-27 The 21st century is now almost upon us and whilst this represents a somewhat artificial boundary it provides an opportunity for reflection upon the changes and the accelerating pace of change in our social economic and natural environments These changes and their effects are profound not least in terms of access to information and communication technologies at once global in effect and manifest locally These changes and their consequent demands are

reflected in the theme of this volume Synergy Matters proceedings from the 6th UK Systems Society International Conference *Ford Administration Stifles Juvenile Justice Program* United States. Hoberman,2025-05-27 Like Paris in the 1920s New York City in the 1960s was a cauldron of avant garde ferment and artistic innovation Boundaries were transgressed and new forms created Drawing on interviews memoirs and the alternative press Everything Is Now chronicles this collective drama as it was played out in coffeehouses bars lofts storefront theaters and ultimately the streets The principals here are penniless filmmakers jazz musicians and performing poets as well as less classifiable artists Most were outsiders at the time They include Amiri Baraka Bob Dylan Allen Ginsberg Yayoi Kusama Yoko Ono Nam June Paik Carolee Schneemann Jack Smith Andy Warhol and many more Some were associated with specific movements Avant Rock Destruction Art Fluxus Free Jazz Guerrilla Theater Happenings Mimeographed Zines Pop Art Protest Folk Ridiculous Theater Stand Up Poetry Underground Comix and Underground Movies But there were also movements of one Their art rooted in the detritus and excitement of urban life was taboo breaking and confrontational As J Hoberman shows in this riveting history these subcultures coalesced into a counterculture that changed the city the country and the world *Applied and Environmental Microbiology* ,2007 *Food-Drug Synergy and Safety* Lilian U. Thompson,Wendy E.
