## Take The Big Picture:

**Take the Big Picture** James Reaney, 1986 Was there ever such a family Fired from his job at the University for letting all the mice free from their cages in the biology labs Mr Delahay went home to find that his house was falling into the river Moving into his mother s large old house proved no solution His equally large family two girls and four boys three of them triplets were too mischievous and troublesome for his mother to stand So she banished most of them to British Columbia where they had adventures with Sasquatches and a carwash owner named Buck whose life s dream it was to capture one of these Wild Men of the Woods Returning to their home town in Ontario the Delahays find that their having a home again depends on the oldest boy s skill at telling a story that will keep an eccentric old lady so interested she will let them stay with her yet one more night until she finds out how the story ends Well eventually the story does have to end but not before a great deal of hilarity and a great deal of wild adventures involving a motorbiker a confidence woman masquerading as a baby sitter and a leap through a Suicide Door This is a different kind of story filled with unexpected turns that even include a story within the story that you can try finishing yourself

Big Ideas Richard Farleigh, 2005 In this excerpt from his acclaimed book Taming The Lion highly successful trader investor and former hedge fund manager Richard Farleigh reveals some of the secret investment strategies that he developed to succeed in the markets Big ideas can make big money There is a host of examples The big falls in inflation technological innovation emerging economies and China s appetite for raw materials are just a few The big ideas cause big but slow changes in many markets These are often not expected by economists and analysts who often struggle to see the woods for the trees Investors should look for these big ideas and ignore anything which is too obscure For those small things it is normally too difficult to out analyse the analysts For investors in main stream markets the big idea that they are pursuing is often the state of the economy It s too hard say to make money on the broad stock market when the economy is going into a recession so at that time bonds are a better bet A useful way for those investors to keep an eye on the economy is by a simple checklist of the positives and negatives Praise for Farleigh s acclaimed book Taming the Lion Anyone who was able to retire at the age of 34 move to Monte Carlo and become a private investor must have made some smart investment decisions Richard Farleigh did just that and he s sharing his

secrets in this book Money Magazine Taming the Lion is a book about profiting from big themes From humble beginnings in Australia Farleigh made a fortune following powerful trends the most effective and least stressful route to investment success He knows how to write too Telegraph Overall I feel there is so much information in this book it is probably one I will keep re reading as I make investment decisions I especially like the way it has reminded me that there are other asset classes to invest in other than shares and property and yet the same strategies are applicable Investors Voice **Index of Army Motion Pictures for Public Non-profit Use** United States.
