

1909 Taiwan Air Force Takeoff

Takeoff For Taiwan

Robert G Sutter, William Oscar Johnson

Takeoff For Taiwan:

The Political Economy of Taiwan's Development into the 21st Century Gustav Ranis, Sheng-Cheng Hu, Yun-Peng Chu, 1999-02-24 a welcome book of particular use to graduate schools A J H Latham Asia Pacific Business Review Over the past four decades Taiwan has achieved remarkable economic growth In this important book a distinguished group of contributors employs a comparative perspective to explore the reasons behind and the lessons to be learned from Taiwan's success

From Development to Democracy Dan Slater, Joseph Wong, 2024-08-20 Why some of Asia's authoritarian regimes have democratized as they have grown richer and why others haven't Over the past century Asia has been transformed by rapid economic growth industrialization and urbanization a spectacular record of development that has turned one of the world's poorest regions into one of its richest Yet Asia's record of democratization has been much more uneven despite the global correlation between development and democracy Why have some Asian countries become more democratic as they have grown richer while others most notably China haven't In *From Development to Democracy* Dan Slater and Joseph Wong offer a sweeping and original answer to this crucial question Slater and Wong demonstrate that Asia defies the conventional expectation that authoritarian regimes concede democratization only as a last resort during times of weakness Instead Asian dictators have pursued democratic reforms as a proactive strategy to revitalize their power from a position of strength Of central importance is whether authoritarians are confident of victory and stability In Japan South Korea and Taiwan these factors fostered democracy through strength while democratic experiments in Indonesia Thailand and Myanmar were less successful and more reversible At the same time resistance to democratic reforms has proven intractable in Singapore Malaysia Hong Kong China Vietnam and Cambodia Reconsidering China's 1989 crackdown Slater and Wong argue that it was the action of a regime too weak to concede not too strong to fail and they explain why China can allow democracy without inviting instability The result is a comprehensive regional history that offers important new insights about when and how democratic transitions happen and what the future of Asia might be

The Other Taiwan, 1945-92 Murray A. Rubinstein, 2016-09-16 Examines the effects of the socio-economic post-war transformation on Taiwan's political system environment religious structures the relationships between the sexes and the different ethnic populations A complex revisionist portrait of the country emerges

Development Digest, 1968 *Development Research Digest*, 1968 **The Rise and Fall of the East Asian Growth System, 1951-2000** Huang Xiaoming, 2004-11-10 Huang examines a recurring pattern of rapid economic growth in East Asia from 1951 to the present and explores how far a single East Asian Growth model can be said to exist Assessing the various theories put forward to explain the phenomenon and supported by the most comprehensive data the book finds that methods of institutional enhancement were at the core of the growth This institutional enhancement affected state structure and functions economic policy corporate arrangements social structure and relations individual behaviour and domestic and international interaction Each of these elements was a critical aspect of

the growth system that defined and propelled the rapid growth

Taiwan In World Affairs Robert G Sutter, William Oscar Johnson, 2019-07-11 Traditionally Taiwan has been viewed as the passive pawn of more aggressive powers yet now it has begun to assert its voice in world affairs especially through economic influence This volume brings together leading scholars to examine the origins and implications of Taiwan s global role and the ramifications of its growing strength for such crucial policy issues as China s reunification and U S policy in East Asia

Consequences of Small-farm Mechanization International Rice Research Institute, 1983

Contemporary China in the Post-Cold War Era Bih-jaw Lin, James T. Myers, 1996 Consists of 17 papers delivered at the 23rd Sino American Conference on Contemporary China held in Taipei in June 1994 Contributors from the fields of economics political science international relations sociology and Asian studies analyze recent changes in politics economics foreign relation

Historical Dictionary of Taiwan (Republic of China) John F. Copper, 2014-12-19 Taiwan is an island located off the east coast of southern China It is the largest piece of territory under the jurisdiction of the nation known officially as the Republic of China Taiwan is a place of contradictions Its successful economic and political modernization have stimulated the imaginations of most observers Still its nation state status has been constricted and weakened It covets and pursues peace yet it is a vortex actor in global strategic military competition It is small yet its importance far exceeds its size It has long occupied a critical place in history even though it has not sought this it appears inevitable that it will continue to be so This fourth edition of Historical Dictionary of the Taiwan Republic of China covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about the Taiwan

Governance and Foreign Investment in China, India, and Taiwan Yu Zheng, 2014-01-28 Yu Zheng challenges the idea that democracy is the prerequisite for developing countries to attract foreign direct investment FDI and promote economic growth He examines the relationship between political institutions and FDI through the use of cross national analysis and case studies of three rapidly growing Asian economies with a focus on the role of microinstitutional special economic zones SEZ China s authoritarian system allows for bold radical economic reform but China has attracted FDI largely because of its increasingly credible investment environment as well as its central and local governments efforts to overcome constraints on investment India s democratic institutions provide more political assurance to foreign investors but its market became conducive to FDI only when the government adopted more flexible investment policies Taiwan s democratic transition shifted its balance of policy credibility and flexibility which was essential for the nation s economic takeoff and sustained growth Zheng concludes that a more accurate understanding of the relationship between political institutions and FDI comes from careful analysis of institutional arrangements that entail a trade off between credibility and flexibility of governance

Culture and Customs of Taiwan Gary M. Davison, Barbara Reed, 1998-09-24 Taiwanese society is in the midst of an immense exciting effort to define itself seeking to erect a contemporary identity upon the foundation of a highly distinctive history This book provides a thorough overview of Taiwanese cultural life The introduction familiarizes students and interested readers with the island's key geographical and demographic features and provides a chronological summary of Taiwanese history In the following chapters Davison and Reed reveal the uniqueness of Taiwan and do not present it simply as the laboratory of traditional Chinese culture that some anthropologists of the 1950s through the 1970s sought when mainland China was not accessible The authors examine how religious devotion in Taiwan is different from China in that the selected deities are those most relevant to the needs of the Taiwanese people Literature and art particularly of the 20th century reflect the Taiwanese quest for identity more than the grand Chinese tradition The Taiwanese architecture festivals and leisure activities music and dance cuisine and fashion are also highlighted topics The final chapter presents the most recent information regarding children and education and explores the importance of the Taiwanese family in the context of meaningful relationships amongst acquaintances friends and institutions that make up the social universe of the Taiwanese This text is a lively treatment of one of the world's most dynamic societies

Taiwan John F Copper, 2018-05-04 In this newly revised and updated edition of *Taiwan Nation State or Province* John F Copper examines Taiwan's geography and history society and culture economy political system and foreign and security policies in the context of Taiwan's uncertain political status as either a sovereign nation or a province of the People's Republic of China Copper argues that Taiwan's very rapid and successful democratization suggests Taiwan should be independent and separate from China while economic links between Taiwan and China indicate the opposite New to the sixth edition is enhanced coverage of the issues of immigration the impact of having the world's lowest birthrate China's economic and military rise and America's decline Taiwan's relations with China the United States and Japan and the KMT's Nationalist Party return to power The new edition will also examine the implications of the 2012 presidential election A selected bibliography guides students in further research

Urbanization And Development Paul K C Liu, 2019-06-18 The growth and expansion of cities and the transition from a rural to an urban society are among the most critical links between population change and economic development On the one hand migration is one of the fundamental demographic processes associated with changes in the population of urban places the changing distribution of population be

One Step Ahead in China Ezra F. Vogel, 1989 *One Step Ahead in China* is a groundbreaking book unique in its detailed coverage of Guangdong the first socialist dragon to follow in the path of South Korea and Taiwan 6 maps 7 tables

Cooperation Or Conflict in the Taiwan Strait? Ralph N. Clough, 1999 The 1996 deployment of two U S carrier battle groups to the waters off Taiwan in response to the firing of Chinese missiles close to

Taiwan's shores brought home suddenly the genuine danger of a military clash between the United States and China over the Taiwan issue. In this timely book distinguished analyst Ralph N. Clough assesses the intractable differences between Beijing and Taipei over the status of Taiwan, the rise and growing strength of an opposition party advocating Taiwan independence, and Beijing's threat to use military force to prevent independence. At the same time he weighs the moderating influence of investment and trade across the Taiwan Strait and the reopening of cross-strait dialogue. The author warns against a U.S. commitment to intervene militarily against any Chinese use of force which could encourage Taiwan to expect U.S. backing if it declared independence, nor should Washington renounce military intervention which would give the PRC a free hand. Instead Clough argues for a policy of ambiguity providing the United States the flexibility to intervene militarily or not as circumstances dictate and at the same time giving more active approval and support to cooperation between the people and governments on both sides of the strait.

Asia's Educational Edge Yugui Guo, 2005-01-01 *Asia's Educational Edge* warns that the United States relies heavily on the talent of foreign born scientists and engineers—skilled workers who face increasing and increasingly favorable options for employment elsewhere. East Asia's and India's emerging economies are expanding their own higher education capacity in the sciences and their own research and development infrastructure. Accordingly the United States faces great and growing competition in attracting talented students and professionals from the international community.

Economic Development in East and Southeast Asia Seiji Naya, Akira Takayama, 1990 This volume reflects the wide range of development issues and problems of the economies of East and Southeast Asia whose dynamic performances have caught the attention of many around the world. It also serves to honour Professor Shinichi Ichimura for his dedication and many contributions to creating a better understanding of the development issues faced by the countries in the region. Both the editors and all of the contributors in this book have worked with Professor Ichimura at one time or another.
