Taking Education Really Seriously Four Years Hard Labour:

Educational Research: Material Culture and Its Representation Paul Smeyers, Marc Depaepe, 2014-02-10 This collection discusses and illustrates how educational research is affected by the economic institutional and physical contingencies of its time and in our time even increasingly is driven by them It is argued that the antidote to this is however not to aspire to thought itself but instead to do justice to its own rootedness in the material including textuality From an historical point of view such an innovative approach can itself revamp the material scholarly culture and the way it is represented The chapters address a variety of topics such as the cultural heritage of the school desk the significance of images for research into long term educational processes the way iconic signs function and how modes of enquiry relate to the materiality of education Attention is also given to standards for reporting on educational research studies and how these limit the scope and communication and moreover shape researchers to the forms of citation practices as substantially influencing methods and content and to the centrality of conversation not just as the means to an end but as what matters further to representational and to non representational theories for educational research Some examples are drawn from the area of arts based educational research from mathematics education and from the discourse on universities **SAGE Handbook of Mentoring and Coaching in Education** Sarah Fletcher, Carol A Mullen, 2012-02-14 This Handbook is a leading source of ideas and information on mentoring and coaching It covers national and international research on schools higher education and disciplines within and beyond education The editors draw together contributions and present evidence bases and alternative worldviews in which concepts are both untangled and substantiated Unique in its coverage it maps current knowledge and understanding and values and skills underpinning educational mentoring and coaching for learning Contributors set out practical applications of coaching and mentoring for practitioners and researchers and also address social justice issues such as those involving traditional and technical forms of mentoring and coaching democratic and accountability agendas and institutional and historical patterns of learning *The Routledge International Handbook of Educational Effectiveness and Improvement* Christopher Chapman, Daniel Muijs, David Reynolds, Pam Sammons, Charles Teddlie, 2015-08-14 The International Handbook of Educational Effectiveness and Improvement draws together leading academics and researchers in the field to reflect on the history traditions and the most recent developments in this dynamic and influential field This handbook provides a comprehensive overview of the foundations of the field the evolution of educational effectiveness theory and methodology the links with other research disciplines the links between policy and practice In conclusion the handbook sets out a new agenda for future educational effectiveness research This handbook is an essential resource for those interested in the effectiveness of educational systems organisations and classrooms It offers academics researchers students and policy makers new insights into the latest thinking and evidence about educational effectiveness *Teacher Agency, Professional Development and School Improvement* Judy Durrant, 2019-11-21 Highlighting

the role of teachers in school change Teacher Agency Professional Development and School Improvement explores the important related issues of professional identity teacher self efficacy leadership and autonomy in the context of contested improvement agendas Providing analytical frameworks and practical models this book Offers examples of projects programmes and narratives to illustrate the role of teachers in school change Invites readers to reconceptualise professional development and re imagine school improvement Focuses on enabling teacher agency as the foundation for improvement Emphasises the importance of human agency to influence environments lives and learning Provides strategies for improvement with integrity amidst powerful accountability requirements and external forces for change At the heart of this book is a fresh perspective on schooling in which teacher agency is considered a fundamental dimension of professional development and key to school improvement This raises necessary and challenging questions about purposes and processes in education With practical ideas and strategies that can be used to inform and evaluate practice and policy Teacher Agency Professional Development and School Improvement is essential reading for headteachers and teachers wishing to lead changes to improve their school and for teacher educators who support them

Educational Management In Managerialist Times Thrupp, Martin, Willmott, Robert, 2003-08-01 For academics and students Education Management in Managerialist Times offers a critical guide to existing educational management texts and makes a strong case for redefining educational management along more socially and politically informed lines

Using Shakespeare's Plays to Explore Education Policy Today Sophie Ward, 2016-10-26 Shakespeare is revered as the greatest writer in the English language yet education reform in the English speaking world is informed primarily by the market order rather than the kind of humanism we might associate with Shakespeare By considering Shakespeare's dramatisation of the principles that inform neoliberalism this book makes an important contribution to the debate on the moral failure of the market mechanism in schools and higher education systems that have adopted neoliberal policy The utility of Shakespeare's plays as a means to explore our present socio economic system has long been acknowledged As a Renaissance playwright located at the junction between feudalism and capitalism Shakespeare was uniquely positioned to reflect upon the nascent market order As a result this book utilises six of his plays to assess the impact of neoliberalism on education Drawing from examples of education policy from the UK and North America it demonstrates that the alleged innovation of the market order is premised upon ideas that are rejected by Shakespeare and it advocates Shakespeare's humanism as a corrective to the failings of neoliberal education policy Using Shakespeare's Plays to Explore Education Policy Today will be of key interest to researchers academics and students in the fields of education policy and politics educational reform social and economic theory English literature and Shakespeare

Education Studies: Issues & Critical Perspectives Kassem, Derek, Mufti, Emmanuel, Robinson, John, 2006-08-01 Education Studies is an essential text for Education Studies students It provides a critical account of key issues in education today Themed sections with introductions link the issues discussed in each chapter

Political and Social Influences on

the Education of Children Gwyneth Owen-Jackson,2015-11-06 This book investigates the effects of social and political change on the provision of primary education in post communist and post war contexts Focusing on Bosnia and Herzegovina the author considers educational developments in post communist countries of central and Eastern Europe the effects of the civil conflict that occurred 1992-95 and the consequences of the peace settlement In order to present a picture of the development of primary education in Bosnia and Herzegovina and the importance of political ideology on education provision chapters discuss instances of the impact of external political influences educational provision being drawn from neighbouring countries and illustrate how the political war is continuing Political and Social Influences on the Education of Children provides insights into lessons learned for education in countries with a changing political state and considers what the future might hold for primary education provision in Bosnia and Herzegovina Political and Social Influences on the Education of Children is key reading for researchers scholars and postgraduate students interested in educational developments in post communist countries and education in areas of conflict This book will also appeal to those interested in the political and social history of the region

Education, Professionalism and the Quest for Accountability Jane Green,2011-05-20 Today workers based in institutions designed to serve the public teachers nurses social workers community officers librarians civil servants etc are expected to reorganize their thoughts and practice in accordance with a performance management model of accountability which encourages a rigid bureaucracy one which translates regulation and monitoring procedures into inflexible and obligatory compliance This book shows how and why this performance model may be expected paradoxically to make practices less accountable and in the case of education less educative

Professional Issues for Primary Teachers Ann Browne,Derek Haylock,2004-05-26 This book deals with the key professional issues faced by students on teacher training courses and practicing primary teachers

Learning, Work and Practice: New Understandings Paul Gibbs,2012-08-14 This book's original contribution to a crowded literature on work and learning will attract strong international interest Its focus on the philosophy of learning at work brings a fresh perspective on a topic normally viewed through psychological anthropological and sociological eyes It assembles a host of internationally recognized scholars who reflect on the various philosophies of work based learning Full of distinctive and original contributions that provide perceptive insights into the subject the work will be a practical support to teachers trainers and researchers at the same time as it gives readers a clear philosophical grounding in learning at work It is however not simply a book about philosophy but a gazetteer of approaches to education in work that will sustain and inspire those who provide engage in and support the learning of new knowledge and skills in the workplace With adaptability to new employment opportunities so vital to existing workers the authors stand behind continued provision of work based learning in the face of tightening economic constraints

Critical Pedagogy for Social Justice John Smyth,2011-10-20

Teachers Matter Christopher Day,Pam Sammons,Gordon Stobart,Alison Kington,Qing Gu,2007-03-16 Teachers Matter offers the most definitive portrait of teachers

lives and work to date At a time when teaching standards are high on the political and social agenda the quality and commitment of teaching staff is seen as paramount and they are viewed as pivotal to the economic and social well being of society But What are the influences that help or hinder teachers commitment Is there an association between commitment and pupil attainment Why are teachers identities important What are teachers needs and concerns in different professional life phases Does school context count Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England the authors identify different patterns of influence and effect between groups of teachers which provide powerful evidence of the complexities of teachers work lives identity and commitment in relation to their sense of agency well being resilience and pupil attitudes and attainment This in turn provides a clear message for teachers teachers associations school leaders and policy makers in understanding and supporting the need to build and sustain school and classroom effectiveness The book addresses issues such as the importance of career development the relationships between school leadership culture and teachers lives maintaining a work life balance identity and well being and the connection between commitment resilience and effectiveness in the classroom Original and highly relevant Teachers Matter is invaluable reading for teachers head teachers researchers and teacher educators

The New Lives of Teachers Christopher Day, Qing Gu, 2010-06-10 The New Lives of Teachers examines the varied often demanding commitments on teachers lives today as they attempt to pursue careers in primary and secondary education Building upon Huberman s classic study it probes not only teachers everyday lives but also the ways in which they negotiate the pitfalls of professional development and the different life and work scenarios that challenge their sense of identity well being and effectiveness The authors provide a new evidence based framework to investigate and understand teachers lives Using a range of contemporary examples of teaching they demonstrate that it is the relative success with which teachers manage various personal work and external policy challenges that is a key factor in the satisfaction commitment well being and effectiveness of teachers in different contexts and at different times in their work and lives The positive and negative influences upon career and professional development and the influences of school leadership culture colleagues and conditions are also shown to be profound and relate directly to teacher retention and the work life balance agenda The implications of these insights for teaching quality and teacher retention are discussed This book will be of special interest to teachers teachers associations policy makers school leaders and teacher educators and should also be of interest to students on postgraduate courses

The University in Translation Suzy Harris, 2011-01-13 In recent years interest in schools outreach and academic enrichment has increased dramatically reflecting a greater social conscience and awareness of the impact that universities can have on the wider community The transferable skills that academics bring to schools need to be honed for this new learning environment as delivery methods and success benchmarks are radically different in a schools context This collection addresses the numerous issues raised when arts and humanities academics become involved with schools bringing together practitioners from a

broad range of fields within the arts and humanities to share experiences and insights

Equitable Education and Ghettoized Voices June A. Douglas, 2024-09-25 This book centres the voices of a group of marginalized residents in Grenada's ghetto to examine questions of poverty and survival and how within this context residents are able to focus on improvement and equity for their children through education. As a developing nation in the Caribbean influenced by both its British colonial past and its proximity to the United States, Grenada is still rife with poverty and access to quality education is limited. The author examines this tradition of the ghetto as the centre of community and a force for positivity among youth and develops a theory of education and deficit poverty through examples of citizens living in a developing state. Using functionalism, life course and other systems theories, the book examines how institutions can support communities and in contrast how families in poverty support themselves in the wake of system failure to the extent that some children become successful university graduates, entrepreneurs and world travellers. A cutting analysis of the development of equity through education in states left behind by colonialism and globalisation, this book offers new understandings of survival and criminality caused by deficit poverty. It will appeal to scholars, faculty and researchers with interests in international education, education and globalisation, small island states, life course theory, systems theory and anthropology.

Blair's Educational Legacy? Geoffrey Walford, 2013-10-18 The United Kingdom General Election on 1st May 1997 gave a landslide victory to a re-vitalised Labour Party. Tony Blair became Prime Minister with a huge Commons majority of 179 over all other parties. Such a majority meant that extensive changes of policy could be implemented with little effective opposition. During the election campaign, Tony Blair had repeatedly claimed that the top three priorities of a New Labour government would be education, education and on page two of the Labour Party's election manifesto a smiling Blair is seen with Nelson Mandela, the unacknowledged originator of the oratorical education triplet. Following a third Election victory in 2005 and after over ten years as Prime Minister, Blair finally stepped down to Gordon Brown in mid 2007 but only after a promotional final tour that lasted several months. Towards the end, Blair devoted considerable efforts to try to ensure that his legacy would be positive and that he would be remembered for more than his role in the Iraq war. But what is his legacy in the field of education? This book brings together the assessments of key educational researchers who have been centrally involved with both the critique and implementation of various policy developments. It is now time to make a solid academic evaluation of his influence on education. This book is timely and relates directly to the central policy themes of the last decade. It considers the relationships between theory and practice and examines the nature of policy and politics. Each contribution will review empirical data and policy changes relating to Blair's period as Prime Minister and will make an assessment of the enduring effects of changes in policy. Each will assess the long term and lasting effects as well as the shorter term responses. This book was published as a special issue of the *Oxford Review of Education*.

Government, Policy, and Ideology Keiko Yokoyama, 2010 *Government Policy and Ideology* analyzes the transformation of the university systems of England and Japan from the early 1980s with

particular reference to the changing modalities of university autonomy and the power relationship between central authorities the universities and the market The analysis compares the various policy positions of the relevant stakeholders in the two countries highlighting the ideologies of neoliberalism university autonomy and the new managerialism These ideologies coexist in both the English and the Japanese university systems However the interpretations of these ideologies made by stakeholders the patterns of the interrelations between them and their contextualization as elements in the policy and stance of each stakeholder differ between England and Japan This book argues that convergence between the English and Japanese university systems is to a large extent explained in the transformation of the university system in England during the 1980s and the continuity of the Ministerial jurisdictional mechanism in Japan Book jacket

Teachers Under Pressure Maurice Galton, John MacBeath, 2008-08-15 This is a well written and thoroughly researched book on an issue of vital importance It places the experiences of individual teachers under pressure into the larger UK and worldwide context Policy makers need to wake up to its messages Sara Bubb Institute of Education University of London What is it really like to be a teacher in today s demanding classrooms Maurice Galton and John MacBeath spoke to teachers parents and students in England and compared their responses to similar inquiries in Asia America Australia and New Zealand Their findings were disturbing Teacher stress and workload were persistent themes in the four studies with teachers frequently stretched to breaking point as they endeavour to make a difference to their pupils learning and welfare Issues examined in the book include frustrations facing those trying to make inclusive education work in practice effects of constantly changing policies on the staff required to implement them loss of status within the teaching profession reasons for teachers choosing to leave the profession the consequences of staying on and fighting for what one believes in This fascinating read will be of interest to anyone involved in teaching school leadership and educational policy

Teaching and Learning and the Curriculum Emmanuel Mufti, Mark Peace, 2012-03-29 A critical examination of learning and teaching theories together with debate on the sociological construct of the curriculum
