History and Identity Stefan Berger, 2022-01-20 This introduction to contemporary historical theory and practice shows how issues of identity have shaped how we write history Stefan Berger charts how a new self reflexivity about what is involved in the process of writing history entered the historical profession and the part that historians have played in debates about the past and its meaningfulness for the present He introduces key trends in the theory of history such as postmodernism poststructuralism constructivism narrativism and the linguistic turn and reveals in turn the ways in which they have transformed how historians have written history over the last four decades The book ranges widely from more traditional forms of history writing such as political social economic labour and cultural history to the emergence of more recent fields including gender history historical anthropology the history of memory visual history the history of material culture and comparative transnational and global history

The Encyclopedia of Strikes in American History Aaron Brenner, Benjamin Day, Immanuel Ness, 2015-01-28 Strikes have been part of American labor relations from colonial days to the present reflecting the widespread class conflict that has run throughout the nation s history Against employers and their goons against the police the National Guard local state and national officials against racist vigilantes against their union leaders and against each other American workers have walked off the job for higher wages better benefits bargaining rights legislation job control and just plain dignity At times their actions have motivated groundbreaking legislation defining new rights for all citizens at other times they have led to loss of workers lives This comprehensive encyclopedia is the first

detailed collection of historical research on strikes in America To provide the analytical tools for understanding strikes the volume includes two types of essays those focused on an industry or economic sector and those focused on a theme Each industry essay introduces a group of workers and their employers and places them in their economic political and community contexts The essay then describes the industry s various strikes including the main issues involved and outcomes achieved and assesses the impact of the strikes on the industry over time Thematic essays address questions that can only be answered by looking at a variety of strikes across industries groups of workers and time such as why the number of strikes has declined since the 1970s or why there was a strike wave in 1946 The contributors include historians sociologists anthropologists and philosophers as well as current and past activists from unions and other social movement organizations Photos a Topic Finder a bibliography and name and subject indexes add to the works appeal **Corporate Wasteland** Steven High, David K. Little,2023-07-18 Diachronic connects the past to the present to understand how power worked in the past and works now Transformational influences power now by disrupting the stability of the violence triad Action refers to collaborative work to diagnose power relations and transform toward social justice Using this framework Little confronts the country s founding and myth of liberty and justice for all as well as the American Dream She also examines whiteness antiracism privilege and intergenerational trauma and offers white archaeologists concepts to grapple with their own racialized identities and to consider how to relinquish white supremacy Archaeological case studies examine cultural violence and violent direct actions against women Indigenous peoples African Americans and Japanese Americans while archaeologies of poverty precarity and labor are used to show how archaeologists have helped expose the roots of these injustices

Encyclopedia of U.S. Labor and Working-class History Eric Arnesen,2007 Publisher Description The Histories of Raphael Samuel Sophie Scott-Brown,2017-05-12 In the first integrated biographical study of his work this book situates British historian Raphael Samuel 1934 1996 in relation to his distinctive form of activist politics as they developed from youthful Cold War communism to the first British New Left 1960s radicalism to the 1980s history wars As the catalyst behind the History Workshop movement Samuel championed the democratisation of history making and practised an eclectic form of people s history in his own work His unique approach was controversial drawing impassioned responses from across the ideological spectrum the most sustained critique often coming from his left wing contemporaries It is argued here that this compelling figure has been unjustly neglected and that he continues to offer important insights into the politics of history making in a post Marxist world

Dispossession and Resistance in India Alf Gunvald Nilsen,2010-04-05 This book deals with the controversies on developmental aspects of large dams with a particular focus on the Narmada Valley projects in India Based on extensive ethnographic fieldwork and

research the author draws on Marxist theory to craft a detailed analysis of how local demands for resettlement and rehabilitation were transformed into a radical anti dam campaign linked to national and transnational movement networks The book explains the Narmada conflict and addresses how the building of the anti dam campaign was animated by processes of collective learning how activists extended the spatial scope of their struggle by building networks of solidarity with transnational advocacy groups and how it is embedded in and shaped by a wider field of force of capitalist development at national and transnational scales The analysis emphasizes how the Narmada dam project is related to national and global processes of capitalist development and relates the Narmada Valley movement to contemporary popular struggles against dispossession in India and beyond Conclusions drawn from the resistance to the Narmada dams can be applied to social movements in other parts of the Global South where people are struggling against dispossession in a context of neoliberal restructuring As such this book will have relevance for people with an interest in South Asian studies Indian politics and Development Studies

The Blind Heart as I See It Marian Olivia Heath Griffin, 2020-05-27 Our nation can hardly realize the severity of the African American and Latinx people's plight as they are marginalized and subjected to harsh treatment despite the end of slavery over a century ago Yet we are fighters and have played a definitive role in shaping America's economics traditions culture values and beliefs We must move forward to witness a new era even in the midst of a Coronavirus Pandemic racial prejudicial and gender disparities and a lack of respect for humanity I see a glimmer of hope as we barely realize that we need each other in society and we will need to utilize every strategy available to the human mind to survive together There will be no more gloom for those who were in distress for the people walking in darkness have seen a great light Is 9 1 2

The Engaged Historian Stefan Berger, 2019-04-01 On the surface historical scholarship might seem thoroughly incompatible with political engagement the ideal historian many imagine is a disinterested observer focused exclusively on the past In truth however political action and historical research have been deeply intertwined for as long as the historical profession has existed In this insightful collection practicing historians analyze reflect on and share their experiences of this complex relationship From the influence of historical scholarship on world political leaders to the present day participation of researchers in post conflict societies and the Occupy movement these studies afford distinctive humane and stimulating views on historical practice and practitioners
