Taking Liberties Aids And Cultural Politics:

Representations of HIV and AIDS Gabriele Griffin, 2000 Gabriele Griffin argues that the explosion of HIV AIDS into highly visible cultural forms from movies theatre activist interventions and art from the late 1980s to the mid 1990s has been replaced by a retreat to artistic invisibility *Culture, Society and Sexuality* Richard Parker, Peter Aggleton, 2007-01-24 Clearly structured and presented this new and revised edition brings together a broad and international selection of readings to provide insights into the social cultural political and economic dimensions of sexuality and relationships **The Circuit of Mass Communication** David Miller, 1998-01-28 This book moves beyond the narrow focus of much of the work on media and cultural studies to examine the whole process of interaction between the media and the social world Rejecting approaches which focus only on ownership or discourse or audience reception this new book from the Glasgow Media Group examines promotional strategies media production representation and audience responses as well as broader impacts on policy culture and society Using a detailed analysis of the struggle over representation during the AIDS crisis as point of departure *The Circuit of Mass Communication* reveals the power of the media to influence public opinion and the complex interaction between media coverage audience response *AIDS in the UK* Virginia Berridge, 1996 Fifteen years ago the AIDS epidemic did not exist on the public agenda In just over a decade the public and official response to the disease has resulted in the development of a whole network of organizations devoted to the study containment and practical treatment of AIDS In this important and original analysis of AIDS policy Virginia Berridge examines the speed and nature of the official and unofficial response to this new and critical historical event The policy reaction in Britain passed through three stages From 1981 1986 the outbreak of a new contagious disease led to public alarm and social stigmatization with a lack of scientific certainty about the nature of the disorder AIDS was a new and open policy area there were no established departmental local or health authority mechanisms for dealing with the problem This was a period of policy development from below with relatively little official action and many voluntary initiatives behind the scenes This phase was succeeded in 1986 1987 by a brief stage of quasi wartime emergency in which national politicians and senior civil servants intervened and a high level political response emerged That response was a liberal one of safe sex and harm minimization rather than draconian notification or isolation of carriers The author demonstrates that despite the Thatcher revolution in government in the 1980s crisis could still stimulate a consensual response The current period of normalization of the disease sees panic levels subsiding as the rate of growth slows and the fear of the unknown recedes Official institutions have been established and formal procedures adopted and reviewed paid professionals have replaced the earlier volunteers The 1990s have seen change in the liberal consensus towards a harsher response and the partial repoliticization of AIDS In this fascinating and scholarly account Virginia Berridge analyses a remarkable period in contemporary British history and exposes the reaction of the British political and medical elites and of the British public to one of the most challenging issues of this century

AIDS Doesn't Show Its Face Daniel Jordan Smith, 2022-12-22 AIDS and Africa are indelibly linked in popular consciousness but despite widespread awareness of the epidemic much of the story remains hidden beneath a superficial focus on condoms sex workers and antiretrovirals Africa gets lost in this equation Daniel Jordan Smith argues transformed into a mere vehicle to explain AIDS and in *AIDS Doesn't Show Its Face* he offers a powerful reversal using AIDS as a lens through which to view Africa Drawing on twenty years of fieldwork in Nigeria Smith tells a story of dramatic social changes ones implicated in the same inequalities that also factor into local perceptions about AIDS inequalities of gender generation and social class Nigerians he shows view both social inequality and the presence of AIDS in moral terms as kinds of ethical failure Mixing ethnographies that describe everyday life with pointed analyses of public health interventions he demonstrates just how powerful these paired anxieties medical and social are and how the world might better alleviate them through a more sensitive understanding of their relationship

Sex, Gay Men and AIDS Peter Davies, 2020-09-29 This book reports on the largest empirical study of male homosexual behaviour in the UK for thirty years Important new theories about sexuality are developed which expose unhelpful stereotypes and challenge outdated assumptions about AIDS

Social Work in Health Settings Toba Schwaber Kerson, 1997 As the most comprehensive text of its kind *Social Work in Health Settings* introduces social work students to a range of clients and provides an overview of many social work settings and services in the health arena If you're a practitioner you'll find the book useful for examining and evaluating your practice This second edition features 18 new chapters and chapter subjects and rewritten and updated versions of the 14 chapters which were part of the first edition

Practices of Freedom Simon Watney, 1994 Since the mid 1980s Britain's Simon Watney has been one of the leading voices in the international field of HIV AIDS education *Practices of Freedom* demonstrates the failure of national institutions from the government to the press to understand and effectively fight this epidemic Watney directs attention of the most urgent needs in American and international AIDS work

Beyond Sexuality Tim Dean, 2000-09 *Beyond Sexuality* points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men's own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners *Beyond Sexuality* offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality

Rollins, 2004-01-02 AIDS and the Sexuality of Law investigates the role that HIV AIDS has played in the legal construction of sexuality AIDS and its metaphors have been judicially enlisted to patrol the boundaries of heterosexuality producing flawed understandings of HIV AIDS and sexuality The proliferation of this flawed knowledge through judicial discourse has had a profound impact on the way sexuality is understood Even more fundamentally closer analysis exposes the ironic processes of the law whereby material reality ignorance and belief interact to replace unknowns with social facts The book concludes optimistically arguing that there is political value in uncertainty **Global Responses to AIDS** Cristiana Bastos, 1999-11-22

book to analyse the prolific writing of queer icon Derek Jarman Although he is well known for his avant garde filmmaking his garden and his AIDS activism he is also the author of over a dozen books many of which are autobiographical Much of Jarman s exploration of post war queer identity and imaginative response to HIV AIDS can be found in his books such as the lyrical AIDS diaries Modern Nature and Smiling in Slow Motion This book fully explores for the first time the remarkable range and depth of Jarman s writing Spanning his career Alexandra Parsons argues that Jarman s self reflexive response to the HIV AIDS crisis was critical in changing the cultural terms of queer representation from the 1980s onwards Luminous presence is of great interest to students scholars and readers of queer histories in literature art and film *Inside/Out* Diana Fuss, 2013-04-15 Lesbians and gays have gone from coming out to acting up to outing meanwhile radically redefining society s views on sexuality and gender The essays in Inside Out employ a variety of approaches psychoanalysis deconstruction semiotics and discourse theory to investigate representations of sex and sexual difference in literature film video music and

Women Take Care Katie Hogan, 2018-08-06 Self sacrificing mothers and forgiving wives caretaking lesbians and vigilant maternal surrogates these good women are all familiar figures in the visual and print culture relating to AIDS In a probing critique of that culture Katie Hogan demonstrates ways in which literary and popular works use the classic image of the nurturing female to render queer AIDS more acceptable while consigning women to conventional roles and reinforcing the idea that everyone with this disease is somehow suspect In times of crisis the figure of the idealized woman who is modest and selfless has repeatedly surfaced in Western culture as a balm and a source of comfort and as a means of mediating controversial issues Drawing on examples from journalism medical discourse fiction drama film television and documentaries Hogan describes how texts on AIDS reproduce this historically entrenched paradigm of sacrifice and care a paradigm that reinforces biases about race and sexuality Hogan believes that the growing nostalgia for women s traditional roles has deflected attention away from women s own health needs Throughout her book she depicts caretaking as a fundamental human obligation but one that currently falls primarily to those members of society with the least power Only by rejecting the stereotype of the good woman she says can Americans begin to view caretaking as the responsibility of the entire society

The Construction of Sexual and Cultural Identities Constantinos N. Phellas, 2018-05-08 This title was first published in 2002 Ethnicity culture and sexual orientation are salient aspects of human identity While diversity adds richness to the threads of our human tapestry minorities often feel vulnerable with open disclosure and retreat from exposures they fear could leave them in jeopardy This is especially so with gay men of colour Xenophobia homophobia and fear of HIV AIDS combine to make our society a difficult one for gay men of colour This book explores a broad range of culture related topics specific to the experience of Anglo Cypriot men resident in Britain who have sex with men Along with empirical clinical and theoretical discussions the inclusion of personal accounts offers poignant insight into additional complexities pressures and losses that gay men of colour must cope with in a world that often handles diversity with the closed fist of bigotry
