Taking Statements:

Analysing Witness Testimony Anthony Heaton-Armstrong, Eric Shepherd, David Wolchover, 1999 The consideration of witness testimony had traditionally been a task left to fact finders with scant guidance from legal professionals As a result various practices have developed during the investigative and trial process which can obscure or even eradicate critical material Miscarriages of justice will continue to occur so long as those working within the justice system continue to accept witnesses and their testimony at face value This book aims to make practitioners as well as the fact finders and those who guide them aware of a wide range of perspectives on witness testimony Each contributor identifies bad practice and puts forward ideas for improvement or removal of previously acceptable investigative and forensic methods *The IBA Rules on the Taking of Evidence in International Arbitration* Peter Ashford, 2013-01-17 The IBA Rules are the most common feature of international arbitration around the world yet so far little work has been done exploring the Rules themselves In this practical guide Peter Ashford combines a detailed discussion of the Rules and the commentary from the Drafting Committee with a tabular view of the interaction between the Rules and those of the main arbitration institutions Written by a respected and experienced arbitration practitioner the guide conveniently brings into one place materials that will assist in the practical application of the IBA Rules This contribution to an under covered area of international arbitration provides an invaluable handbook for arbitration practitioners in law firms chambers and general or in house counsel in large corporations
