Contemporary Issues in Accounting Regulation Stuart McLeay, Angelo Riccaboni, 2012-12-06 Contemporary Issues in

Accounting Regulation looks at accounting regulation in a different way The opening chapters explore the tension between the power of the state and the forces of the market and other aspects of the political dimension to accounting regulation The book also examines the process of setting accounting standards highlighting the crucial role of standard setters in assessing the level of public support for an issue in the face of opposing positions taken by powerful interest groups In addition the book provides an introduction to the theoretical framework of accounting regulation looking at choices between controversial accounting methods and at markets that are characterized by asymmetry of information and beliefs The final chapters of the book are concerned with creative accounting deregulation of financial reporting by smaller companies and the link between price regulation and accounting policy choices

**Managerial Discretion and Performance in China** Hagen

Wülferth,2013-04-17 The theoretical and empirical literature to date has fallen short of reaching a consensus as to whether granting more managerial discretion to managers tends to enhance not alter or diminish organizational performance the discretion puzzle This book aims to build a bridge between these contradictory results by synthesising principal agent theory stewardship theory and managerial discretion theory into a new empirically validated model Using a representative sample of double blind interviews with managers of 467 firms in China and applying partial least squares path modelling PLS the study identifies a potential cause of the discretion puzzle the failure of the extant literature to account for granularity in the way that managers use their discretion This generates far reaching implications for theoretical and empirical research as well as practical recommendations for managing managers in multinationals and Chinese companies
