**Fuel Oil Journal**, 1914

**Measuring Ego Development** Le Xuan Hy, Jane Loevinger, 2014-03-05 The topic of ego development developed when psychoanalysis did not fulfill all the initial hopes during its early period of prominence Clinicians psychiatrists psychologists social workers and counselors realized that they needed to know more than their patients or clients psychopathology or normalcy and their psychosexual behavior and drives The method for scoring sentence completions presented in this manual was originally developed for a study of women and adolescent girls By the time it was first published in 1970 however the method had already come into use in studies of men and boys Since then it has been used with widely varying samples and the test has been translated into several other languages This wide adoption testifies to the need for such a test The present version of the manual incorporates three major improvements it is based on data from and is intended for use with both males and females its format is easier to use and the examples cited reflect current public attitudes The format of the scoring manual for the Sentence Completion Test SCT is radically changed from the original making it easier to find the correct rating for a response The rating scale itself is kept simple and the basic concept of ego development is the same A tutorial is included to assist in calculating the Total Protocol Ratings TPRs

**ALTERNATIVE BLURB** The Washington University Sentence Completion Test which was developed by Jane Loevinger is a free response semi projective instrument for the assessment of ego development The first manual for administering and scoring the test was published in 1970 In addition to its widespread use in the United States it has also been adopted for use in Canada the United Kingdom France Germany Italy the Netherlands Japan India and South Africa The WUSCT has been used for research in the fields of adolescent personality development moral development infancy and parenting family and gender studies multiculturalism religion psychopathology and psychotherapy vocational studies and social and organizational psychology It is most frequently used by researchers and practitioners in psychology counseling social work and education This book represents a revised edition of the WUSCT scoring manual including all items in the 1981 forms which were revised for use with both men and women The content reflects current social attitudes which have changed on some topics since the publication of the original 1970 manual Although there have been minor changes in terminology the conception of ego development is unchanged and the stages of the construct are essentially the same The format of the scoring manual however has been radically changed for ease of use in rating responses The rating scale itself which is the same for all items is kept simple A tutorial is included to assist in calculating the Total Protocol Ratings

**Gregg College Keyboarding and Document Processing for Microcomputers, Complete Course** Scot Ober, 1993
