Handbook of Development Policy Studies Gedeon M. Mudacumura, M. Shamsul Haque, 2004-04-23 Considering the current challenges to human progress, this reference book examines recent theories, policies, and sectoral priorities, as well as various social, economic, and administrative factors that impact worldwide modernization and development. The book emphasizes the fact that communities must evaluate continuously and adjust their program activities in order to achieve a genuine mode of development. Buxton, 2009-08-16 *Patronizing the Public: American Philanthropy's Transformation of Culture, Communication, and the Humanities* is the first detailed and comprehensive examination of how American philanthropic foundations have shaped numerous fields, including dance, drama, education, film, music, folklore, journalism, local history, museums, radio, television, as well as the performing arts and the humanities in general. Drawing on an impressive range of archival and secondary sources, the chapters in the volume give particular attention to the period from the late 1920s to the late 1970s, a crucial time for the development of philanthropic practice. To this end, it examines how patterns and directions of funding have been based on complex negotiations involving philanthropic family members, elite networks, foundation trustees, and officers, cultural workers, academics, state officials, corporate interests, and the general public. By addressing both the contours of philanthropic power as well as the processes through which that power has been enacted, it is hoped that this collection will reinforce and amplify the critical study of philanthropy's history. **The Contours of America's Cold War** Matthew Farish, 2010

Everybody Belongs Arthur Shapiro, 2003-09 The evil prosthesis of Captain Hook, the comical speech of Porky Pig, and the bumbling antics of Mr. Magoo are all examples of images in our culture which can become the basis of negative attitudes and subliminal prejudice towards persons with disabilities. These attitudes influence and underlie discriminatory acts resulting in negative treatment and segregation. A teacher's ability to recognize and counter such images may well determine the success of inclusion and mainstreaming programs in our schools and society. Well researched and well written, this book offers practical guidance as grounded in solid research to schools that are wrestling with how to mainstream children with

disabilities
