Directions: Read the following passage and answer the questions that follow. Refer to the text to check your answers when appropriate.

Some call it the "Hermit Kingdom." It is a place where the outside world has been walled off. American pop music is illegal here and you can get executed for watching soap operas. This is not a make-believe world in a science fiction novel. It's a 46,000 square mile nation hanging off the east coast of China. It is one of the poorest nations in the world and it is armed with nuclear weapons. It is North Korea.

Immediately to the south lies a nation with one of the world's richest economies. About one-third of all phones and TVs are made here. The people of this nation are among the world's most educated. Unemployment is low, job security is high, and workers in this nation enjoy the highest salaries in Asia. It is South Korea. The people of this nation share origins with their northern neighbor, but they have since grown far apart.

The Democratic People's Republic of Korea (known to Westerners as North Korea) was founded in 1945 after World War II. Their neighbor at the end of the Korean Peninsula, South Korea or the Republic of Korea, was established at the same time. These two nations have an unusual history. For one thing, they have technically been at war since 1950.

Though they were born at the same time, these two countries had different parents. The United States supported South Korea in its infancy. China and the Soviet Union supported North Korea. The U.S. and the Soviet Union may have ended World War II as allies, but they had different ways of organizing their societies.

The U.S. is a capitalist country. That means that some people are rich and some people are poor. Resources are distributed unevenly. Business are owned by private entities. The Soviet Union claimed to have a communist system. That means that everybody supposedly gets the same. Resources are distributed more evenly. Business are owned in "common" by the government. These two superpower nations raised North and South Korea in their own images.

The two Koreas went to war in 1950. The North attacked and took over much of South Korea. But the United States jumped in and pushed the North Koreans back to the Chinese border. Then China got involved and pushed the Americans and South Koreans back. The nations agreed to a ceasefire. Millions of people were dead and the living returned to their original boundaries. The war never officially ended, though combat has ceased for the most part.

After the war, South Korea was one of the poorest nations in the world. In 1960 the average citizen made \$79 a year. The country did not have a lot of natural resources to sell, but they did have many hardworking people. During the 1960s, the country began manufacturing labor-intensive products. Selling these products to people in other nations made South Korea rich. They now have one of the largest and most thriving economies in the world. As of 2012, the average South Korean citizen makes around \$32,020 a year.

The economy of North Korea is dramatically different. Since it's birth in the 1940s, North Korea has been one of the most secluded countries in the world. They promote an idea of self-reliance that they call Juche. Under this idea, they do little to no trading with other nations. Up until the 1980s, they received large cash infusions from China and the Soviet Union. But the Soviet Union fell apart in the 80s and became separate capitalist countries, of which Russia is largest. Without the Soviet contributions, North Korea entered a long period of *famine* that lasted through the 90s. Food was hard to come by and some estimate that millions of people starved to death. Still, the country persisted when much of the world thought that it would fall apart. Not only did they survive, they managed to build a nuclear arsenal during this time.

medical providers lawyers legislators and family members **A Tale of Two Eagles** Craig A. Deare, 2017-03-13 The United States and Mexico share a history shaped in the 19th century by numerous US forces interventions into Mexican territory and US expropriation of considerable swaths of Mexican territory However in spite of structural impediments and a history of resentment by Mexico of US intervention into its affairs and territory the levels of cooperation and understanding slowly began to improve following a series of international and domestic factors The decline of the former Soviet Union and the fall of the Berlin Wall at a global level coupled with major political and economic challenges and reforms within Mexico are a starting point from which to assess the evolution of the bilateral defense relationship between the United States and Mexico The American and Mexican militaries have evolved differently over the past 100 years and they each have very different responsibilities mission sets orientations and capabilities Yet in recent years the Mexican armed forces have cooperated more closely with their US counterparts This may be due to explicit direction coming from senior levels of the Mexican government and to operational requirements of the armed forces themselves as they seek to increase their capability and capacity to confront the growing levels in drug trafficking related violence Today both countries are dealing with the effects of this increased violence and insecurity in Mexico Relying primarily on one on one interviews with senior practitioners and analysts on both sides of the border the text examines the evolution of the U S Mexican bilateral defense relationship to better understand how and why this unique relationship has improved in fits and starts over the past 25 years It offers a new understanding of how defense policymakers from each respective country perceive the other as well as how the lack of trust and understanding between the two neighbors has delayed greater cooperation **Tales Of Two Cities** Kuldeep Nayar, Asif Noorani, 2008-01-01 In Tales of Two Cities two eminent journalists Kuldeep Nayar and Asif Noorani give their personal accounts of the Partition of India the killings and massive migrations which it provoked and their subsequent impact on Indo Pakistan relations As a young law graduate Kuldeep Nayar witnessed at first hand the collapse of trust between communities in Sialkot and was forced to migrate with his family to Delhi across the blood stained plains of Punjab He vividly describes his own perilous journey and his first job as a young journalist in an Urdu newspaper reporting on Gandhi s assassination Asif Noorani while still a schoolboy in Bombay set off with his family by steamer across the Arabian Sea for the promised land of Pakistan ultimately settling in Karachi He gives his own compelling account of the difficulties faced by the new arrivals and the slow emergence of today s megacity with its dominant Mohajir culture Both authors write with authority about their ancestral homes and their adopted cities which have played so large a role in bilateral relations This is a book about a trauma which transformed the subcontinent and still exerts a powerful influence today These are personal narratives bringing to life a lost world of harmonious relations which each author in his own way is still to recreate **A Tale of Two Cities in Arabic Translation** Fatima Muhammad Muhaidat, 2009-09 This study investigates the problems translators encounter when rendering features of Dickens s style in A Tale of Two Cities into Arabic Examples of these features are singled out and

analyzed Then they are compared with their counterparts in published translations of the novel in Arabic The comparisons depend on back translation to give non readers of Arabic a clear idea about the similarities and differences between the source text and target one s The features under focus are sound effects figurative language humor repetition and the French element The discussion dedicated to onomatopoeia alliteration and rhyme shows that there is no one to one correspondence between English and Arabic in reflecting these linguistic phenomena Translators may resort to techniques like rewording or paraphrasing to convey their propositional content at the expense of their sound effects Problems also arise when rendering figurative language into Arabic Various images in the novel are substituted by different ones that convey similar meanings in Arabic Some of them are deleted or reduced to their propositional content In addition footnotes are used to convey cultural aspects Translating humor shows the role context plays in facilitating the translator s task Techniques of translating humor conveyed via substandard English are noted The researcher also discusses translating humor that depends on background knowledge that the target text readers may not be familiar with Further translation issues are noticed when rendering repetition Some linguistic asymmetries between English and Arabic make translators dispense with repetition and resort to synonymy collocations and constructions that fit in Arabic More problems arise when rendering the French element in various names titles and what might be considered as literal translations of French speech Throughout the discussion suggestions are made to bring about more adequate renderings This study also discusses the novel as a metaphor of translating Many aspects of the novel are comparable to the translation process Relationships among various characters provide a perspective from which the relationship between authors translators readers and text can be seen Finally the significance of some examples of inter language communication in the novel is pointed out
