*Hampton on Hampton* Christopher Hampton, Alistair Owen, 2017-10-19 A lot of my plays begin as comedies and mutate in the course of the evening because my instinct is that you have to welcome the audience in and make sure they re sitting comfortably before you can give them an adequate punch on the jaw Since the acclaimed London premi re of his first play in 1966 Christopher Hampton has established himself as one of Britain s most prominent and least predictable dramatists From his best known play *Les Liaisons Dangereuses* and its Oscar winning film version *Dangerous Liaisons* to personal and critical favourites like *Total Eclipse* and *Tales from Hollywood* from his films as writer director *Carrington* *Imagining Argentina* to his work as screenwriter for hire *Mary Reilly* *The Quiet American* from translations *Art* to musicals *Sunset Boulevard* Hampton eloquently and entertainingly explores his varied career with interviewer Alistair Owen and discusses its recurring theme the clash of liberal and radical thought exemplified by his most recent play *The Talking Cure* about the fathers of psychoanalysis Jung and Freud

Mortimer, 2018-10-24 The captivity narrative the earliest genre of American popular literature continues to be of cultural significance in late 20th century Hollywood Many popular films of the last four decades incorporate the most common elements of the captivity narrative tradition including a politically contested frontier setting and a plot involving innocent family oriented white Americans held captive by hostile culturally alien natives At the same time these films offer something new to the narrative tradition they focus on the captive who resists rescue and the challenge this resistance poses to American cultural self confidence By focusing on the lost captive these films beginning with *The Searchers* 1956 deal with questions about American identity raised by a white American s cultural and potentially political transformation Films as diverse as *Little Big Man* *Taxi Driver* and *The Deer Hunter* adapted the captivity narrative s conventions to criticize aspects of contemporary American society and reject outworn models of male heroism at the same time however they retained the genre s traditional assumption of white superiority and its fear of female sexuality Bibliography Index      *Sleepless in Hollywood* Lynda Obst, 2013 With a new epilogue by the author Cover      *Hollywood's America* Stephen P Powers, 2018-02-19 American motion pictures still dominate the world market with an impact that is difficult to measure Their role in American culture has been a powerful one since the 1930s and is a hallmark of our culture today Though much has been written about the film industry there has been very little systematic attention paid to the ideology of its creative elite How does the outlook of that elite impact on the portrayals of America that appear on the screen How do their views interact with the demands of the market and the structure of the industry to determine the product that is seen by mass

audiences Hollywood's America is a marvellously rich and careful discussion of these questions It combines a meticulous systematic content analysis of fifty years of top grossing films with a history of the changing structure of the industry To that mixture it adds an in depth survey of Hollywood's creative elite comparing them to other leadership groups The result is a balanced discussion of unique breadth and depth on a subject of national importance Placing the film industry in the context of American society as a whole the authors point out that Hollywood's creative leadership impacts the larger society even as it is influenced by that society The creators of films cannot remove themselves too far from the values of the audiences that they serve However the fact that films are made by a relatively small number of people who as the authors demonstrate tend to share a common outlook means that over time motion pictures have had an undeniable impact on the beliefs lifestyles and action of Americans This study contributes to the debate over the role and influence of those who create and distribute the products of mass culture in the United States The book also contains a devastating critique of the poststructuralist theories that currently dominate academic film criticism demonstrating how they fail in their attempt to explain the political significance of motion pictures
