Korean Folk Tales Pang Im,1913 **Classic Korean Tales with commentaries** Choe Key-sook,2018-02-20 11 Classic Korean Narratives including Myths Folktales Sino Korean Novels and Poetry Readers can come to know not only the pleasure of reading stories but also delight in learning about Korea through this book like Korean culture Korean history and Koreans ways of thinking in the old days Even though this book consists of only Korean classic narratives this doesn t mean that only Koreans can understand it Everyone can understand and enjoy a Classic What Brings Classics Alive is the Readers Empathy A lonely boy becomes a hero who establishes a nation a daughter who is abandoned becomes a goddess who manages death a wife and husband both ordinary people become a queen and king in a foreign country or gods of a country These stories show that if people take advantage of their merits and use their power in support of others they can accomplish wonderful things and gain happiness even when they possess nothing special The reason that these stories survive for such a long time without being forgotten and move the people who read them is that people consider the thoughts and feelings in these stories to be precious A Way of Communicating with Time The World of Classical Imagination Reading the classics is similar to the experience of communicating across time The world of classics which appears interesting and mysterious also contains the dreams and hopes of contemporary people Even though the past has disappeared we are encountering the dreams and hopes of people from olden times as you read the classics and fall into the world of these stories

Korean Tales: Being a Collection of Stories Translated from the Korean Folk Lore Horace Newton Allen,1889-01-01 As Paris is France so Seoul may be said to be Korea for it is the centre from which nearly every thing for the country either originates or is disseminated Officers ruling over country districts usually have their house in town and expect to spend a portion at least of their time within the walls of the capital While some of the provincial capitals are said to contain more people and to be more celebrated for certain reasons Seoul is the home of the King and the Mecca of his faithful subjects A description of this city may therefore answer for all The capital is a city of some 300 000 inhabitants

half of whom perhaps live in the extensive suburbs without the walls It lies in a basin of granite sand surrounded by high mountains and their projecting ridges over which climbs the high thick encircling wall of masonry pierced at convenient points by massive pagoda roofed gates amply strong enough for defense against the weapons of war in use at the time of building this great relic of seclusion The city is traversed by broad avenues from which runs a perfect labyrinth of narrow streets Originally none of these streets were less than twenty feet wide and some of the avenues leading up to the imposing gates of the palaces are even now a good two hundred feet in width But the streets have all been encroached upon by the little temporary thatched booths of the petty retail dealers so that with the exception of the approaches to the palaces the line is broken the streets made tortuous and only here and there a broad open spot indicates the original width of the thoroughfare Originally every street was furnished with its sewer open in the smaller streets while the avenues were drained by great covered sewers of stonework Occasionally the proprietor of one of the little temporary booths would put a foundation under his structure bridging over the sewer until now the streets have in many cases become mere crooked alleys and but for the bountiful rains the excellent natural drainage and the character of the soil the mortality would be very great instead of being less than in ordinary American cities No attempt is made towards street decoration as that would attract the attention of thieves The magnificent grounds of a nobleman with their artificial lakes flower gardens water worn pillars of ancient rock and quaintly twisted trees may be enclosed by a row of tumble down smoke begrimed servant quarters that would never indicate the beauty to be found hidden within its forbidding exterior
