Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries     **John Betjeman** William S.

Peterson,2006 Sir John Betjeman 1906 1984 Poet Laureate was probably the most widely read English poet of the twentieth century Because of his frequent appearances on radio and television and his fervent devotion to the preservation of England s architectural heritage his face and voice became familiar to millions Few other poets of any century have had such a powerful influence on their contemporaries This bibliography lists and describes all of his known writings including his own books ephemera contributions to periodicals and to books by others lectures and radio and television programmes Other categories such as editorships music settings and dramatic adaptations of his poems recordings and interviews are also included as well as a section devoted to writings about him Manuscripts and drafts of all his works are described in detail This enormous body of material is thoroughly indexed cross referenced and in most cases annotated Now at last the activities of this remarkable man both a poet and a cultural phenomenon can be seen in their full breadth and complexity     Collected

Nature Stories Henry Williamson,1995 This volume brings together the author s short stories which were written in the period following World War I The stories are The Peregrine s Saga The Old Stag and Tales of Moorland and Estuary     *A Dictionary of Writers and their Works* Christopher Riches,Michael Cox,2015-01-29 Over 3 200 entries An essential guide to authors and their works that focuses on the general canon of British literature from the fifteenth century to the present There is also some coverage of non fiction such as biographies memoirs and science as well as inclusion of major American and Commonwealth writers This online exclusive new edition adds 60 000 new words including over 50 new entries dealing

with authors who have risen to prominence in the last five years as well as fully updating the entries that currently exist Each entry provides details of a writer s nationality and birth death dates followed by a listing of their titles arranged chronologically by date of publication

**The Rural Tradition** William J. Keith,1974-12-15 There is probably no single quality or characteristic besides love of the countryside that must inevitably distinguish a rural writer notes W J Keith However what distinguishes rural writing that belongs to literature from that belonging to natural history agricultural history etc is as Richard E Haymaker has observed the writer s means of revealing Nature as well as describing her In the final analysis the rural essayist paints neither landscapes nor self portraits instead he communicates the subtle relationship between himself and his environment offering for our inspection his own attitudes and his own vision We may be asked to look or to agree but more than anything else we are invited to share Ultimately then the best rural writing may be said to provide us in a phrase adapted from Robert Langbaum with a prose of experience Keith argues that non fiction rural prose should be recognized as a distinct literary tradition that merits serious critical attention In this book he tests the cogency of thinking in terms of a rural tradition examines the critical problems inherent in such writing and traces significant continuities between rural writers Eleven of the more important and influential writers from the seventeenth century to modern times come under individual scrutiny Izaak Walton Gilbert White William Cobbett Mary Russell Mitford George Borrow Richard Jefferies George Sturt George Bourne W H Hudson Edward Thomas Williamson and H J Massingham In examining these writers within the context of the rural tradition Keith rescues their works from the literary attic where they have too often been relegated as awkward misfits When studied together each throws fascinating light on the others and is seen to fit into a loose but nonetheless discernible line
