(Tales of the Wars of the Gempei)** James Seguin De Benneville, 1910 **Boonton**, 2001 In 1830 Isaac S Lyon wrote Boonton was one of the wildest rockiest briariest and most romantic places that the mind of man could imagine More than a century later a visitor told his wife May you should see that town of Boonton The whole Main Street is on a hill I never saw a town with a Main Street on a hill These were the first impressions of a town built upon the foundation of its ironworks and iron town populated by hardy self reliant men and women Among the earliest immigrants were the English recruited by the New Jersey Iron Company in 1830 and numbering about thirty families Within the next two decades Irish laborers came to work in the mills followed by Slovaks in the 1890s and Italians Poles and Germans around the beginning of the 1900s Two smaller groups were African Americans some of whose ancestors had come to Boonton 150 years earlier and Jews who arrived c 1900 and later In Boonton the descendants of these early families and newcomers reveal the Boonton of yesterday and today and anticipate the Boonton of tomorrow Among them is a retired kindergarten teacher who was greeted by the local fellas when she got off the bus in Boonton for the first time at age twenty one A ninety four yearold recalls his experiences eighty years ago as a truck driver running molasses for the local gin mills An eighty one year old tells of the activities of the Ku Klux Klan in the 1920s and a woman remembers the horror of the 1918 flu epidemic **The Erie Canal Sings** Bill Hullfish, Dave Ruch, 2019-06-17 Life working along the banks of the Erie Canal is preserved in the songs of America s rich musical history Thomas Allen s Low Bridge Everybody Down has achieved iconic status in the American songbook but its true story has never been told until now Erie songs such as The E ri e Is a Risin would transform into The C O Is a Risin as the song culture spread among a network of other canals including the Chesapeake and Ohio and the Pennsylvania Main Line As motors replaced mules and railroads emerged the canal song tradition continued on Broadway stages and in folk music recordings Author Bill Hullfish takes readers on a musical journey along New York s historic Erie Canal **Black Hawk and Other Tales of the Amazon** Arthur O. New Jersey Folklore ,1978 **Delaware Diary** Frank Dale,1996 Frank Dale who has lived near the Delaware all of his life has burrowed into old newspaper files and archives and traced down eyewitnesses of the life of the Delaware Rivers were the highways of choice in early America and the Delaware presented much greater challenges than the nearby Hudson Filled with rapid falls and inconvenient rocks the river refused to accommodate itself easily to the needs of commerce The rivermen who ventured down the Delaware on massive timber rafts or Durham boats filled with iron ore earned a deserved reputation for pure ornery courage *Port Travis* Shirley B. Carvatt,2008-06-12 Following the success of the Erie Canal many towpath canals were constructed throughout the United States This colorful era became an important link in America s evolving transportation network The Morris Canal the canal that climbed the mountains of northern New Jersey was part of that network The author parallels its history with that of a family representing the canal workers their joys sorrows and aspirations It also is a story that bridges the past and the present hopefully providing lessons for the future *The Nile and Its Banks a Journal of Travels in Egypt and Nubia Showing Their Attractions to the Archeologist the Naturalist and General Tourist* by Rev. backbone and lifeblood of the Garden State **The Texas Magazine** Frank Eberle, Harry Van Denmark, 1912 The Delaware Canal: From Stone Coal Highway to Historic Landmark Marie Murphy Duess, 2008-08-29 Vault aboard a hinge boat with Marie Duess as she nimbly navigates the historic waters of the Delaware Canal Any ramble along the now serene Pennsylvania waterway will show you why its beauty inspired so many famous brushstrokes But only on a voyage with Duess will you dock at hidden places that doubled as underground railroad stops and Prohibition era speakeasies and witness the inventive genius of Josiah White and the instinct and muscles of the endearing mules that hauled the nation into the Industrial Revolution By journey s end you will be reluctant to part with your newfound boatmates after looking into the hopeless eyes of five year old mine laborers and listening to the rousing choruses of boat captains who poured a hearty lifetime into steering coal from Easton to Bristol *Historic Tales, The Romance of Reality: American, Spanish American, English, German, French, Spanish, Russian, Scandinavian, Greek, Roman, Japanese and Chinese, King Arthur (Complete)* Charles Morris, The year 1000 A D was one of strange history Its advent threw the people of Europe into a state of mortal terror Ten centuries had passed since the birth of Christ The world was about to come to an end Such was the general belief How it was to reach its end whether by fire water or some other agent of ruin the prophets of disaster did not say nor did people trouble themselves to learn Destruction was coming upon them that was enough to know how to provide against it was the one thing to be considered Some hastened to the churches others to the taverns Here prayers went up there wine went down The petitions of the pious were matched by the ribaldry of the profligate Some made their wills others wasted their wealth in revelry eager to get all the pleasure out of life that remained for them Many freely gave away their property hoping by ridding themselves of the goods of this earth to establish a claim to the goods of Heaven with little regard to the fate of those whom they loaded with their discarded wealth It was an era of ignorance and superstition Christendom went insane over an idea When the year ended and the world rolled on none the worse for conflagration or deluge green with the spring leafage and ripe with the works of man dismay gave way to hope mirth took the place of prayer man regained their flown wits and those who had so recklessly given away their wealth bethought themselves of taking legal measures for its recovery Such was one of the events that made that year memorable There was another of a highly different character Instead of a world being lost a world was found The Old World not only remained unharmed but a New World was added to it a world beyond the seas for this was the year in which the foot of the European was first set upon the shores of the trans Atlantic continent It is the story of this first discovery of America that we have now to tell In the autumn of the year 1000 in a region far away from fear haunted Europe a scene was being enacted of a very different character from that just described Over the waters of unknown seas a small strange craft boldly made its way manned by a crew of the hardiest and most vigorous men driven by a single square sail whose coarse woollen texture bellied deeply before the fierce ocean winds which seemed at times as if they would drive that deckless vessel bodily beneath the waves This crew was of men to whom fear was

almost unknown the stalwart Vikings of the North whose oar and sail driven barks now set out from the coasts of Norway and Denmark to ravage the shores of southern Europe now turned their prows boldly to the west in search of unknown lands afar Shall we describe this craft It was a tiny one in which to venture upon an untravelled ocean in search of an unknown continent a vessel shaped somewhat like a strung bow scarcely fifty feet in length low amidships and curving upwards to high peaks at stem and stern both of which converged to sharp edges It resembled an enormous canoe rather than aught else to which we can compare it On the stem was a carved and gilt dragon the figurehead of the ship which glittered in the bright rays of the sun Along the bulwarks of the ship fore and aft hung rows of large painted wooden shields which gave an Argus eyed aspect to the craft Between them was a double row of thole pins for the great oars which now lay at rest in the bottom of the boat but by which in calm weather this walker of the seas could be forced swiftly through the yielding element The Parliamentary Debates Great Britain.
