# Tales By Japanese Soldiers

**Jon Diamond**

## **Tales By Japanese Soldiers:**

*Tales by Japanese Soldiers of the Burma Campaign, 1942-1945* Kazuo Tamayama, John Nunneley, 2001 consists of recollections by Japanese survivors of this terrible campaign who describe instances of poignant sacrifice heroism and occasional compassion shown toward the enemy on both sides full of imagery and information on the Burma Theater and is recommended especially for the military historian Library Journal

**Railwaymen in the War** K. Tamayama, 2004-11-30 The Japanese railway soldiers who built the notorious Burma Thailand railway in 1942-43 earned an unenviable reputation for brutality but they have not hitherto told their own story This is the first book to bring to light the testimonies of the soldiers of the Emperor who worked with 55 200 British Australian and Dutch prisoners of war in the construction of the 415 kilometre railway

**Tales by Japanese Soldiers of the Burma Campaign, 1942-1945** Kazuo Tamayama, John Nunneley, 2000 The Japanese are notoriously reticent about their involvement in the Second World War and no similar volume has ever before been published either in Japanese or English Now for the first time the ordinary Japanese soldier tells his story

BOOK JACKET

**Railwaymen in the War** Kazuo Tamayama, 2005-03-02 The first Japanese army unit was established in 1896 The Japanese railway engineers was a unique branch of the army which specialized in the operation and construction of railways and the employees of the Japanese National Railways conscripted into the army This book tells the stories of the railway soldiers and JNR men during their training their working experience in Burma their engagements with the allied armies and their life after the surrender through the memoirs and testaments of those soldiers

*Japanese Army Stragglers and Memories of the War in Japan, 1950-75* Beatrice Trefalt, 2013-01-11 This book charts comprehensively the various discoveries in Southeast Asia and the Pacific of Japanese soldiers still fighting the Second World War many years after it had ended It explores their return to Japan and their impact on the Japanese people revealing changing attitudes to war veterans and war casualties families as well as the ambivalence of memories of the war

**Soldiers of Empire** Tarak Barkawi, 2017-05-27 How are soldiers made Why do they fight Re imagining the study of armed forces and society Barkawi examines the imperial and multinational armies that fought in Asia in the Second World War especially the British Indian army in the Burma campaign Going beyond conventional narratives Barkawi studies soldiers in transnational context from recruitment and training to combat and memory Drawing on history sociology and anthropology the book critiques the Western way of war from a postcolonial perspective Barkawi reconceives soldiers as cosmopolitan their battles irreducible to the national histories that monopolise them This book will appeal to those interested in the Second World War armed forces and the British Empire and students and scholars of military sociology and history South Asian studies and international relations

**Historical Tales: Japanese and Chinese** Charles Morris, 1908

**Soldiers** John A Haymond, 2023-06-14 A global study of how soldiers lived worked and fought and how many died spanning from the Napoleonic War to World War II No matter the war no matter the army no matter the nationality common threads run through the experiences of men at war

Soldiers highlights these shared experiences across 150 years of warfare from the Napoleonic Wars through World War II and everything in between such as the Mexican and Crimean Wars the American Civil War the U S Indian Wars and Britain's imperial bush wars the Boxer Rebellion the Boer War the First World War and more Haymond explores the experiences that connect soldiers across time and space and draws heavily from firsthand accounts to craft a narrative with flesh and blood immediacy Soldiers is entertaining and informative history at its best Praise for Soldiers What makes Soldiers an interesting read is Haymond's writing style and technique of comparing the common experiences of fighting men regardless of uniform and time served during the period Highly recommended for both scholars and students alike It is a must for readers interested in the experience and psychology of being a warrior during this period Military Review The Professional Journal of the United States Army

**The Late Colonial Indian Army** Pradeep Barua, 2021-11-04 The Indian Army was one of the most important colonial institutions that the British created From its humble origins as a mercantile police force to a modern contemporary army in the Second World War this institution underwent many transitions This book examines the Indian Army during the later colonial era from the First Afghan War in 1839 to Indian independence in 1947 During this period the Indian Army developed from an internal policing force to a frontier army and then to a conventional western style fighting force capable of deployment to overseas theaters These transitions resulted in significant structural and doctrinal changes in the army The doctrines and tactics honed during this period would have a dramatic impact upon the post colonial armies of India and Pakistan From civil military relations to fighting and structural doctrines the Indian and Pakistani armies closely reflect the deep seated impact of decades of evolution during the late colonial era

**Taste of War** Lizzie Collingham, 2012-03-29 A New York Times Notable Book of 2012 Food and in particular the lack of it was central to the experience of World War II In this richly detailed and engaging history Lizzie Collingham establishes how control of food and its production is crucial to total war How were the imperial ambitions of Germany and Japan ambitions which sowed the seeds of war informed by a desire for self sufficiency in food production How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed Tracing the interaction between food and strategy on both the military and home fronts this gripping original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of useless eaters in Europe Focusing on both the winners and losers in the battle for food The Taste of War brings to light the striking fact that war related hunger and famine was not only caused by Nazi Germany and Imperial Japan but was also the result of Allied mismanagement and neglect particularly in India Africa and China American dominance both during and after the war was not only a result of the United States immense industrial production but also of its abundance of food This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the

pervasive influence of American food habits and tastes in the post war world A work of great scope The Taste of War connects the broad sweep of history to its intimate impact upon the lives of individuals **Chindit vs Japanese**

**Infantryman** Jon Diamond,2015-02-20 In order to keep China in the war against the Japanese the Western Allies believed they had to return to Northern Burma Colonel Orde Wingate a military maverick and proponent of guerrilla warfare knew that a different type of British infantryman was required for this role the Chindit indoctrinated with special training to re enter the jungles and mountains of Northern Burma in order to combat the victorious Japanese forces there The Chindits opponents would include the 18th Division one of Imperial Japan s most seasoned formations which by 1941 had already accumulated as much operational experience as most Anglo American divisions would acquire in the entire 1939 45 war In a host of encounters the two sides clashed repeatedly in the harsh conditions of the Burmese jungle the intended role and subsequent operational performance of the Chindits remains fraught with controversy today Featuring full colour artwork specially drawn maps and archive photographs this gripping study offers key insights into the tactics leadership combat performance and subsequent reputations of six representative Chindit and Japanese infantry units involved in three pivotal actions that hastened Japan s defeat in Burma during World War II The Taste of War Lizzie Collingham,2011-12-21 Food and in particular the lack of it was central to the experience of the Second World War In this richly detailed and engaging history Lizzie Collingham establishes how control of food and its production is crucial to total war How were the imperial ambitions of Germany and Japan ambitions which sowed the seeds of war informed by a desire for self sufficiency in food production How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed Tracing the interaction between food and strategy on both the military and home fronts this wide ranging gripping and dazzlingly original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of useless eaters in Europe Focusing on both the winners and losers in the battle for food this book brings to light the striking fact that war related hunger and famine was not only caused by Nazi Germany and Imperial Japan but was also the result of Allied mismanagement and neglect particularly in India Africa and China American dominance both during and after the war was not only a result of the United States immense industrial production but also of its abundance of food This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the pervasive influence of American food habits and tastes in the post war world A work of great scope The Taste of War connects the broad sweep of history to its intimate impact upon the lives of individuals **Forgotten Armies** Christopher Alan Bayly,Timothy Norman Harper,2005 In the early stages of the Second World War the vast crescent of British ruled territories stretching from India to Singapore appeared as a massive Allied asset It provided scores of soldiers and great quantities of raw materials and helped present a

seemingly impregnable global defense against the Axis Yet within a few weeks in 1941-42 a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today's Asian world More than a military history this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare nationalist insurgency disease and famine It breathes life into the armies of soldiers civilians laborers businessmen comfort women doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles from tropical plantations to the Himalayas Drawing upon a vast range of Indian Burmese Chinese and Malay as well as British American and Japanese voices the authors make vivid one of the central dramas of the twentieth century the birth of modern south and southeast Asia and the death of British rule

**Captive Fathers, Captive Children** Terry Smyth, 2022-10-06 Why are the daughters and sons of Far East prisoners of war still captivated by the stories of their fathers What is it that compels so many of the children after so many years to search for the details of their fathers captivity And how over the decades have they come to terms with their childhood memories In his book Terry Smyth treads new ground by examining the processes through which the children's memory practices came to be rooted in the POW experiences of their fathers By following a life course approach and a psychosocial methodology the book demonstrates how memory and trauma were worked into the social and cultural lives of individual children and explores how the relationship between their inner psychic worlds and subsequent memory practices unfolded against a challenging and morally ambivalent geopolitical background The book invites readers to engage with the author in a journey of exploration and self-reflection with elements of auto-ethnography adding richness to the text Enlivened by interview extracts case study material and ethnographic observations this work opens up fresh and ambitious perspectives on the personal legacies of war

**Citizens as Soldiers** Jerry Cooper, 2005-06-01 Unlike most histories of the National Guard Jerry Cooper's *Citizens as Soldiers: A History of the North Dakota National Guard* examines the Guard not merely in its wartime context or in terms of military actions in which it has engaged but also as an integral element in the growth and development of community in the American West From the Guard's early incarnations as social clubs or lodges where members dressed in uniform paraded and held dances through its gritty service in the Philippines and beyond Cooper shows how membership in the Guard and later in the Air National Guard helped forge bonds of local regional and national identity

**Lethality in Combat** Doctor Tom Lewis, 2012-02-01 *Lethality in Combat* shines a blazing light on the three most controversial aspects of military combat the necessity of killing the taking or not of prisoners and the targeting of civilians This book argues that when a nation-state sends its soldiers to fight the state must accept the full implications of this uncomfortable as they may be Drawing on seven conflicts the Boer War World Wars I and II and the wars in Korea Vietnam the Falklands and Iraq the author considers these ethical issues

*Historical Dictionary of Burma (Myanmar)* Donald M.

Seekins,2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma s president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country s pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people s security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country s religious minorities especially Muslims Today Burma s prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma s over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through achronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture

**Japanese Pan-Asianism and the Philippines from the Late Nineteenth Century to the End of World War II** Sven Matthiessen,2015-10-20 In Japanese Pan Asianism and the Philippines from the Late 19th Century to the End of World War II Going to the Philippines Is Like Coming Home Sven Matthiessen examines the development of Japanese Pan Asianism and the perception of the Philippines within this ideology Due to the archipelago s previous colonisation by Spain and the US the Philippines was a special case among the Japanese occupied territories during the war Matthiessen convincingly proves that the widespread pro Americanism among the Philippine population made it impossible for Japanese administrators to implement a pan Asianist ideology that centred on a return to Asian values The expectation among some Japanese Pan Asianists that going to the Philippines was like coming home was never fulfilled
