The Magic Horns ,1974-01-01      *South-African Folk-Tales* James A. Honey,2017-05-17 The Bushmen seem to trace back to the earliest Egyptian days when dwarfs were pictured on the tombs of the kings and were a distinct race From then until now it has been their pride to say that before men were men they were or to put it clearer before Africa was inhabited by other races they were there As represented by some of these stories of the Bushmen what races have not then had their influence on the folklore According to Stow they were a wandering primitive race of small men painters and sculptors hunters and herdsman and withal a race showing traces of wonderful reasoning and adaptability with a keen sense of justice and a store of pride Mythological some of their stories are but whether this is due to the influence of the Hottentots a later race it is difficult to say And lastly there are the Kaffirs spread over the whole of South Africa domineering but backward The varied influences which may have affected these stories before they reached us show what enormous possibilities there are for error in tracing the origin of the animal tales here presented      African Folktales Paul Radin,2015-03-08 A representative collection of eighty one myths and folktales chosen from the oral tradition of the peoples of Africa south of the Sahara Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
