Widdowson, 2015-02-20

This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province. The intention was to collect as broad a spectrum of traditional material as possible and *Folktales of Newfoundland* is notable not only for the number and quality of its narratives but also for the format in which they are presented. A special transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator's language. In addition, Newfoundland has preserved many aspects of English and Irish folk tradition, some of which are no longer active in the countries of their origin. Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland, the researchers set out to discover if this was in fact the case.

Women and Politics around the World Joyce Gelb, Marian Lief Palley, 2009-03-30 A unique two volume examination of the progress women have made in achieving political equality. *Women and Politics around the World* addresses both transnational and gender related issues as well as specific conditions in more than 20 countries. *Women and Politics around the World: A Comparative History and Survey* is an exploration of the role of women in political systems worldwide as well as an examination of how government actions in various countries have an impact on the lives of the female population. *Women and Politics around the World* divides its coverage into two volumes. The first looks at such crucial issues facing women today as health policy, civil rights and education, comparing conditions around the world. The second volume profiles 22 different countries representing a broad range of governments, economies and cultures. Each profile looks at the history and current state of women's political and economic participation in a particular country and includes an in depth look at a representative policy. The result is a resource unlike any other one that gives students, researchers and other interested readers a fresh new way of investigating a truly global issue.

Mozambique's Samora Machel Allen F. Isaacman, Barbara S. Isaacman, 2020-09-08 The precipitous rise and controversial fall of a formidable African leader. Samora Machel 1933-1986 the son of small town farmers led his people through a war against their Portuguese colonists and became the first president of the People's Republic of Mozambique. Machel's military successes against a colonial regime backed by South Africa, Rhodesia, the United States and its NATO allies enhanced his reputation as a revolutionary hero to the oppressed people of Southern Africa. In 1986 during the country's civil war Machel died in a plane crash under circumstances that remain uncertain. Allen and Barbara Isaacman lived through many of these changes in Mozambique and bring personal recollections together with archival research and interviews with others who knew Machel or participated in events of the revolutionary or post revolutionary years.

Southern Africa, 1980 **Deadly Developments** Stephen and Downs Reyna, 2005-08-04 Ten anthropologists trace the machinations of war and the effects of violence in capitalist states from their formation to the present. This collection, the newest volume in the *War and Society* series, questions the foundations of classical social theory while investigating local and international conflict through the critical and cross cultural lens of social theory, history and anthropology. The essays combine to challenge the notion developed by social theorists such as Comte

Spencer Durkheim and Engels that war will diminish with the formation and the perpetuation of a capitalist economy and industry The development of capitalist states and the nefarious and violent processes which must occur to reproduce capitalism are rarely realized and then infrequently analyzed Many western and ethnocentric scholarly representations of war succeed in hiding the deadly developments that occur as a result of capitalist state formation and relations **Bulletin of the Atomic Scientists** ,1998-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Foreign Assistance Legislation for Fiscal Years 1980-81** United States.
