**Politics of Forests** Jakob Donner-Amnell, 2017-03-02 Bringing together case studies from Canada the Nordic countries and Russia this book is the first to provide a comparative examination of the current transformations in the forest industry regimes and the challenges they make for the communities dependent on this industry Questioning how globalization has influenced forest regimes the book focuses on individual forest companies and argues that they are the main motors of the industry s internationalization often without taking due consideration of the complex interrelations between society the environment and forest trade During the current phase of globalization the sphere of material production within the forest industry has increasingly been modified by more speculative signals from the market Both the growing role of investor interests as well as the broader societal demands for greening the production chain have forced managers to be more sensitive to the performance profile and image of their companies In conclusion the book highlights instances of processes working towards homogenization and diversity and suggests that while Anglo American management practice is increasingly important across the northern forest regions it is also meeting with resistance due to historical and political conditions

*Environmental History in the Making* Estelita Vaz,Cristina Joanaz de Melo,Lígia M. Costa Pinto,2016-10-13 This book is the product of the 2nd World Conference on Environmental History held in Guimarães Portugal in 2014 It gathers works by authors from the five continents addressing concerns raised by past events so as to provide information to help manage the present and the future It reveals how our cultural background and examples of past territorial intervention can help to combat political and cultural limitations through the common language of environmental benefits without disguising harmful past human interventions Considering that political ideologies such as socialism and

capitalism as well as religion fail to offer global paradigms for common ground an environmentally positive discourse instead of an ecological determinism might serve as an umbrella common language to overcome blocking factors real or invented and avoid repeating ecological loss Therefore agency environmental speech and historical research are urgently needed in order to sustain environmental paradigms and overcome political cultural and economic interests in the public arena This book intertwines reflections on our bonds with landscapes processes of natural and scientific transfer across the globe the changing of ecosystems the way in which scientific knowledge has historically both accelerated destruction and allowed a better distribution of vital resources or as it in today's world can offer alternatives that avoid harming those same vital natural resources water soil and air In addition it shows the relevance of cultural factors both in the taming of nature in favor of human comfort and in the role of the environment matters in the forging of cultural identities which cannot be detached from technical intervention in the world In short the book firstly studies the past approaching it as a data set of how the environment has shaped culture secondly seeks to understand the present and thirdly assesses future perspectives what to keep what to change and what to dream anew considering that conventional solutions have not sufficed to protect life on our planet

**Sustaining the Forests of the Pacific Coast** Debra Salazar, Donald K. Alper, 2011-11-01 Forests define the Pacific Coast in many ways Culturally they are part of the traditions of the First Nations economically they have sustained an industry that has created settlements and wealth throughout the area In the last twenty years the forests have become the subject of increasing conflict as economic interests clash with changing social and political values The war in the woods has escalated hardening battle lines and polarizing forest politics In this thoughtful collection of essays edited by Debra J Salazar and Donald K Alper forest policy in the U S Pacific Northwest and British Columbia is examined in a binational context While US and Canadian forest policy and forest management approaches differ the two countries face similar challenges and conflicts Contributors discuss the evolution of forest exploitation the response of timber companies to U S federal environmental regulations sovereignty for First Nations communities and the reshaping of the political economy of forests by global forces on both sides of the border Groups usually ignored in the forest policy debate such as First Nations peoples workers in the emerging non forest economy and citizen activists are also given voice in this fascinating compilation The contributors to *Sustaining the Forests of the Pacific Coast* offer new perspectives that recognize the complexity of the issues and the diversity of interests in

forest politics A valuable contribution to the ongoing debate over forest policy on both sides of the Canada U S border these essays analyze the challenges facing forest policy makers and open the discussion up to those whose voices have not been heard before     Leisure and the Politics of the Environment Louise Mansfield,Belinda Wheaton,2023-04-14 Within leisure studies there is a growing awareness and intensifying conscience about the potential environmental threat posed by the continued and unmanaged economic growth and development of sport tourism and leisure This collection brings together explicit discussions from a range of fields including environmental geography consumer research sociology and politics of the increasing relevance and complexities of environmental politics in leisure studies It provides a snapshot into the wide ranging debates on the politics of the environment and leisure sport tourism and serves as a starting point for further dialogue between leisure studies scholars and those in other disciplines where many of environmental debates have been advanced The volume will be of great value to scholars and practitioners in the areas of leisure studies conservation and local politics This book was published as a special issue of Leisure Studies     *In Search of Sustainability* Benjamin Cashore,2011-11-01 In recent years the forests of British Columbia have become a battleground for sustainable resource development The conflicts are ever present usually pitting environmentalists against the forest industry and forestry workers and communities In an effort to broker peace in the woods British Columbia s NDP government launched a number of promising new forest policy initiatives in the 1990s In Search of Sustainability brings together a group of political scientists to examine this extraordinary burst of policy activism Focusing on how much change has occurred and why the authors examine seven components of BC forest policy land use forest practices tenure Aboriginal issues timber supply pricing and jobs     **Tracking the Great Bear** Justin Page,2014-01-01 Encompassing millions of hectares of globally rare coastal rainforest the Great Bear Rainforest in coastal British Columbia is home to ancient trees rich runs of salmon and abundant species The area also supports small human communities particularly First Nations Once slated for clearcut logging large areas were protected in 2006 by the signing of one of the world s most innovative conservation agreements This book provides a detailed account of the complex and contested process that resulted in the establishment of the GBR It also shows how environmentalists deployment of a powerful actor network saved the area from status quo industrial forestry while still respecting First Nations right to economic development     Property, Territory, Globalization William D. Coleman,2011-05-10 In a world of flux and globalization when old territories are dissolving and new nations and political unions are coming together who controls ideas information and creativity Who patrols the new frontiers This volume opens a window to the dark side of globalization and the struggles for autonomy it has generated The chapters focus on property regimes in crisis as sites where globalization autonomy and the political economy of international capitalism intersect Sites of friction indigenous land claims BC forest disputes conflicts between farmers and the patent owners of genetically modified seeds demonstrate not only how property laws and intellectual property rights are supporting the expansion of private

property regimes but also how local activists are using a politics of place to resist these forces The work of Palestinian poets whose attachment to the land is explored in a powerful Coda at the end of the book shows that a politics of place can help local actors build new bases of autonomy to withstand the forces of globalization      *The Politics of Ontario* Cheryl N. Collier, Jonathan Malloy, 2016-12-07 Ontario is the most populous of Canada's provinces contains the country's largest city and continues to be the centre of finance IT and media It is also experiencing significant changes and upheavals *The Politics of Ontario* is the first comprehensive book on Ontario's politics government and public policy since Graham White's *The Government and Politics of Ontario* in 1997 Although *The Politics of Ontario* follows in the same tradition it departs in several ways While not losing sight of the enduring themes of Ontario politics and political culture it reflects the fact that Ontario is no longer Canada's primary economic engine Instead of emphasizing the continuity and gradual evolution of Ontario politics it focuses on change disruption and the uncertainty of the political and policy environment through explorations of fiscal and economic policy the environment labour multiculturalism and the complexities of urbanization with particular attention given to greater Toronto The book is divided into four parts Settings Institutions Politics and Policy It contains 28 charts tables and graphs and features contributions by virtually all of the leading scholars in the field including an introductory chapter by Graham White
