Talking About Particulars:

Things, Facts and Events, 2022-04-19 The volume deals with ontological and semantical issues concerning things facts and events Ontology tells us about what there is whereas semantics provides answers to how we refer to what there is Basic ontological categories are commonly accepted along with basic linguistic types and linguistic types are accepted as basic if and because they refer to acknowledged ontological categories In that sense both disciplines are concerned with structure the structure of the world and the structure of our language An extended introduction overviews the topic as a whole presenting in detail its history and the main contemporary approaches and discussions More than 20 contributions by internationally acknowledged scholars make the volume a comprehensive study of some very fundamental philosophical entities

Mental Causation Anthony Dardis, 2008 Two thousand years ago Lucretius said that everything is atoms in the void it s physics all the way down Contemporary physicalism agrees But if that s so how can we how can our thoughts emotions our values make anything happen in the physical world This conceptual knot the mental causation problem is the core of the mind body problem closely connected to the problems of free will consciousness and intentionality Anthony Dardis shows how to unravel the knot He traces its early appearance in the history of philosophical inquiry specifically in the work of Plato Aristotle Descartes and T H Huxley He then develops a metaphysical framework for a theory of causation laws of nature and the causal relevance of properties Using this framework Dardis explains how macro or higher level properties can be causally relevant in the same way that microphysical properties are causally relevant by their relationship with the laws of nature Smelling an orange choosing the orange rather than the cheesecake reaching for the one on the left instead of the one on the right mental properties such as these take their place alongside the physical motor of the world in making things happen

Beyond Behaviorism Vicki L. Lee, 2016-07-15 Originally published in 1988 this title explores and contrasts means and ends psychology with conventional psychology that of stimuli and response The author develops this comparison by exploring the general nature of psychological phenomena and clarifying many persistent doubts about psychology She contrasts conventional psychology stimuli and responses involving reductionistic organocentric and mechanistic metatheory with alternative psychology means and ends that is autonomous contextual and evolutionary

Talking about Troubles in Conversation Gail Jefferson, 2015 In groundbreaking research Gail Jefferson explores in fine detail the interactional complexities of talking about troubles not in any professional or therapeutic setting but in their ordinary conversations with family and friends

Metaphysics Michael J. Loux, 2001 Metaphysics Contemporary Readings is a comprehensive anthology that draws together leading philosophers writing on the major themes in Metaphysics Chapter sections cover Universals Particulars Modality and Possible Worlds Causation Time and Realism and Anti Realism The readings are designed to complement Michael Loux s Metaphysics A Contemporary Introduction 2nd Edition

Talk about Beliefs Mark Crimmins, 1992 Talk About Beliefs presents a new account of beliefs and of practices of reporting them that yields solutions

to foundational problems in the philosophies of language and mind Crimmins connects issues in mental representation with semantic issues in language for talking about cognition to provide a theoretically fruitful account of belief and belief reports that is logically consistent with intuitive judgments of such notorious problems as Frege's puzzles about substitution and cognitive significance Quine's puzzle about *de re* Castaneda and Perry's puzzle about indexical beliefs and other more complicated variations Crimmins's account relies on and to some extent vindicates the traditions of representationalism in the philosophy of mind and of structured propositional semantics In reporting a person's beliefs Crimmins argues we systematically make claims not only about the propositional content of the beliefs but also about cognitive representations He elaborates and defends this proposal by providing a careful assessment of pragmatic and semantic contributions to the claims expressed in belief reports Crimmins's thesis forms a promising framework within which to approach issues in the philosophy of mind such as tacit belief do you believe that pencils do not eat criteria for having concepts do blind persons have the concept of red and restrictions of acquaintance on objects of thought can you believe something about the first person born in the next century

A World of States of Affairs D. M. Armstrong, 1997-03-06 Offers a comprehensive system of analytical metaphysics argued from a distinctive philosophical perspective

A New Translation of Some Part of Swedenborg's Theological Works. [By George Harrison.] Emanuel Swedenborg, 1859

Philosophy of Time Sean Enda Power, 2021-05-26 As a growing area of research the philosophy of time is increasingly relevant to different areas of philosophy and even other disciplines This book describes and evaluates the most important debates in philosophy of time under several subject areas metaphysics epistemology physics philosophy of language philosophy of mind cognitive science rationality and art Questions this book investigates include the following Can we know what time really is Is time possible especially given modern physics Must there be time because we cannot think without it What do we experience of time How might philosophy of time be relevant to understanding the mind/body relationship or evidence in cognitive science Can the philosophy of time help us understand biases toward the future and the fear of death How is time relevant to art and is art relevant to philosophical debates about time Finally what exactly could time travel be And could time travel satisfy emotions such as nostalgia and regret Through asking such questions and showing how they might be best answered the book demonstrates the importance philosophy of time has in contemporary thought Each of the book's ten chapters begins with a helpful introduction and ends with study questions and an annotated list of further reading This and a comprehensive bibliography at the end of the book prepare the reader to go further in their study of the philosophy of time

Eckhart Tolle's Hall of Mirrors Steven Heymans, 2024-11-01 Tolle's project is one of empowering humans to detach from the many externalities that people typically identify themselves by histories bodies desires beliefs work emotions roles which are thought to be the sources of personal affliction To detach from them allows one to enjoy a more truthful and untroubled life The true self that Tolle promotes is a self that is stripped of the externalities people identify with so that they might enter a

spiritual realm that is transcendent and anxiety free One of the criticisms of Tolle in this book is that the spiritual wisdom he promotes makes people less human and more spiritual angelic and godly But that world the world of spirits angels and gods is not where people belong says classics scholar Martha Nussbaum Humans are mortals and their mortality brings with it limitations and constraints within which they must operate But operating within such limitations which include time temporality and death does not mean people are without resources in the human project to live and flourish Humanness has allowed people to develop an array of skills that have become their birthright rationality resourcefulness emotional intelligence cooperation and storytelling among others This book argues that Tolle s project of transcending leads to an impoverishment of humanity in contrast it calls for an understanding and embrace of humanness that allows people to flourish within the limits imposed upon them within their material and bodily conditions

Facts, Words and Beliefs
Timothy L.S. Sprigge, 2022-04-29 First published in 1970 Facts Words and Beliefs is concerned primarily with formulating the following question and suggesting the right way of answering it how can a few stray images or muttered words running through our mind constitute our envisagement of situation perhaps remote in time and place from our present position From a practical point of view the moments when we envisage the nature of some situation which we believe to exist may not be of any great importance It would seem that our belief in the existence of such situations lies in some sort of adjustment of our behaviour to them which will be useful if the situations really exist from the point of view of survival and comfort The author suggests that these moments of conscious envisagement of such absent situations may be rather a sign of such successful adjustment than a factor in bringing it about hence of no practical value in themselves However if knowledge has any sort of intrinsic value it must surely lie in those moments when one does consciously envisage some aspects of the world more or less as it really is and to try to understand the nature of these moments is to try to understand all that is of intrinsic value in knowledge This book is a must read for scholars and researchers of philosophy

Interviews/Entrevistas Gloria E. Anzaldua, 2020-04-28 Gloria E Anzaldua best known for her books Borderlands La Frontera and This Bridge Called My Back is one of the foremost feminist thinkers and activists of our time As one of the first openly lesbian Chicana writers Anzaldua has played a major role in redefining queer female and Chicana identities and in developing inclusionary movements for social justice In this memoir like collection Anzaldua s powerful voice speaks clearly and passionately She recounts her life explains many aspects of her thought and explores the intersections between her writings and postcolonial theory Each selection deepens our understanding of an important cultural theorist s lifework The interviews contain clear explanations of Anzaldua s original concept of the Borderlands and mestizaje and her subsequent revisions of these ideas her use of the term New Tribalism as a disruptive category that redefines previous ethnocentric forms of nationalism and what Anzaldua calls conocimientos alternate ways of knowing that synthesize reflection with action to create knowledge systems that challenge the status quo Highly personal and always rich in insight these interviews arranged and introduced by AnaLouise Keating

will not only serve as an accessible introduction to Anzaldá's groundbreaking body of work but will also be of significant interest to those already well versed in her thinking. For readers engaged in postcoloniality, feminist theory, ethnic studies, or queer identity, *Interviews* (Entrevistas) will be a key contemporary document.

Badge of Honor: Texas Heroes Collection One (Books 1-4)

Susan Stoker, 2019-04-01

Justice for Mackenzie Daxton Chambers a member of the oldest and most distinguished law enforcement agency in the state of Texas never understood why people killed. But this new case where someone was kidnapping and burying women alive is a whole new level of depravity. As a Texas Ranger, it's his job to keep San Antonio safe, but the killer always seems to be one step ahead of him. Meeting Mackenzie and finding out just how perfect she is for him wasn't part of Dax's plan, but he'll be damned if he's going to walk away from the most interesting and fun woman he's met in a long time. Unfortunately, anyone Dax cares about is suddenly in danger. It'll take every ounce of knowledge he's gained from years in law enforcement to keep Mack alive.

Justice for Mickie For Cruz Livingston becoming an FBI agent is a lifelong dream. Guarding the streets of San Antonio, a calling. His latest assignment: infiltrating the Red Brothers Motorcycle Club, which will help stem the flow of illegal drugs brought into the city by the violent gang. He expects the job to be dangerous. He doesn't expect to meet the woman of his dreams while undercover. Mickie Kaiser is refreshingly sweet, but her sister is intimately involved with the RBMC's president. Cruz can't afford to come clean about his double life without putting his operation in danger, but as violence creeps ever closer to Mickie, his priority becomes crystal clear. Cruz will do anything to keep Mickie alive, even if it means losing her love.

Justice for Corrie Blind since birth, Corrie Madison relies on her other sharpened senses in her job as a chiropractor. Never did she imagine she'd have to depend on them to identify a killer. But when a man enters her practice, murdering everyone in his path, Corrie is the only witness, putting her directly in the killer's crosshairs. Officer Quint Axton wasn't looking for love or even a relationship until he meets Corrie. She's everything he wants if he can keep her alive long enough to explore their mutual attraction. The threats on Corrie's life are escalating. Surely a blind person is helpless against a ruthless killer. Hardly. Corrie is about to prove that disabled does not equal defenseless.

Justice for Laine Reluctantly taking her best friend's place at a photo shoot, realtor Laine Parker expects to assist the photographer for the day, not drool over the volunteer model, Westin King. The Texas Ranger and real-life cowboy is hot on hot, sexy from the tips of his boots to the top of his Stetson. Despite her visceral reaction to the man, the last thing Laine expects is a whirlwind romance, but that's exactly what she gets. Wes has been around the block enough to know what he wants, and he wants Laine. He wastes no time showing her how he feels, but he may never get the chance to tell her. Laine has disappeared, and it will take every connection Wes has and a little help from a mangy stray to get her back in his arms.

Properties Douglas Edwards, 2014-05-12 The world is populated with many different objects to which we often attribute properties we say for example that grass is green that the earth is spherical that humans are animals and that murder is wrong We also take it that these properties are things in their own right there is something in which being green or spherical or an animal or wrong consists and that certain scientific or normative projects are engaged in uncovering the essences of such properties In light of this an important question arises what kind of things should we take properties themselves to be In Properties Douglas Edwards gives an engaging accessible and up to date introduction to the many theories of properties available Edwards charts the central positions in the debate over properties including the views that properties are universals that properties are constructed from tropes and that properties are classes of objects and assesses the benefits and disadvantages of each Attempts to deny the existence of properties are also considered along with pluralist proposals which aim to accommodate the different kinds of properties that

are found in various philosophical debates Properties is the ideal introduction to this topic and will be an invaluable resource for scholars and students wishing to learn more about the important roles that properties have played and continue to play in contemporary philosophy

An Identity Theory of Truth J. Dodd, 2016-04-30 This book argues that correspondence theories of truth fail because the relation which holds between a true thought and a fact is that of identity not correspondence According to Julian Dodd facts are not complexes of worldly entities they are as Frege believed true thoughts The supposed truthmaker is nothing but the truthbearer The author christens this response to correspondence theories the modest identity theory which he goes on to distinguish from those identity theories propounded at some time or other by Russell Moore Bradley John McDowell and Jennifer Hornsby It is acknowledged that the modest identity theory provides neither a definition of truth nor an account of what truth consists in The modest identity theory's role is by contrast that of diagnosing the failure of correspondence theories and thereby preparing the ground for a proper deflation of the concept of truth a deflation defended in the latter part of the book

What We Talk About When We Talk About Cities (And Love) Andy Merrifield, 2018-11-01 In often dreamlike peregrinations around his home towns of Liverpool London and New York Andy Merrifield reflects on what cities mean to us and how they shape the way we think As he wanders Merrifield's reveries circle questions Can we talk about cities in the absolute discovering their essence beneath the particulars Is it possible truly to love or hate a city to experience it carnally or viscerally Might we find true love in the city Merrifield does find love in the city with his future wife whom he takes on a date to see his hero Spalding Gray's It's a Slippery Slope at London's South Bank and soon after moves in with to a tiny place in Bloomsbury where they celebrate the brilliance of new romance by painting the walls turquoise and gold And for the fellow urbanist Marshall Berman another working class boy who went up to Oxford Berman takes Merrifield under his wing and shows him the thrills available in Dostoevsky and Marx over cups of coffee in ordinary cafes on New York City's Upper West Side The mood music to these love affairs is provided by a rich repertoire of intellectuals from Jane Jacobs to Mike Davis from Louis Malle to Walter Benjamin John Lennon a pupil like Merrifield at Quarry Bank school in Liverpool enters the story so too the novelist and critic John Berger And providing tonality throughout is the stripped down razor honed talk about love in the stories of Raymond Carver Andy Merrifield is the author of ten books including works on urbanism and social theory such as The New Urban Question and Magical Marxism biographies of Henri Lefebvre Guy Debord and John Berger a popular travelogue The Wisdom of Donkeys and a manifesto for liberated living The Amateur His journalism has appeared in the Nation Harper's Adbusters New Left Review Dissent the Brooklyn Rail and Radical Philosophy

They Ain't Proper M.B. Guel, 2023-05-01 1880s The Wild West An easy solitary life on the outskirts of Ghosthallow is all Lou Ramirez wants They want to buy some house plans build a home and live their quiet life far from townsfolk's prying eyes But somehow instead of house plans a housewife is delivered to their door Clementine Castellanos desperately needs a way out from under her family debt and it seems as though selling her services as a wife is the only way

to do it Expecting a rough harsh man to be her new husband Clementine is pleasantly surprised to instead be dropped off at the ranch of an equally surprised Lou Lou would rather Clementine leave them to their lonely existence but Clementine is too charmed by the quiet and mysterious rancher to give up She may have come into Lou s life easily but she certainly isn t planning to leave that way Undeterred by Lou s prickly demeanor Clementine is determined to get her reluctant spouse to open up to her When the past comes back to haunt the pair the fight for their independence and their love may become more deadly than either of them ever expected

Process, Action, and Experience Rowland Stout, 2018-02-23 There has been a philosophical upheaval recently in our understanding of the metaphysics of the mind The philosophy of mind and action has traditionally treated its subject matter as consisting of states and events and completely ignored the category of ongoing process So the mental things that happen experiences and actions have been taken to be completed events and not ongoing processes But events by their very nature as completed wholes are never present to the agent or subject only ongoing processes can be present to a subject in the way required for conscious experience and practical self knowledge This suggests that a proper understanding of processes is required to understand subjective experience and agency This volume explores the possibility and advantages of taking processes to be the subject matter of the philosophy of mind and action The central defining feature of the process argument is its use of the progressive as opposed to perfective aspect But beyond this philosophers working on the metaphysics of processes do not agree The contributors to this volume take up this argument in the metaphysics of processes Are processes continuants Are they particulars at all or should we rather be thinking of process activity as a kind of stuff Process Action and Experience considers whether practical reasoning and practical self knowledge require thinking of action in process terms and it considers arguments for the processive nature of conscious experience

On Schopenhauer's Fourfold Root of the Principle of Sufficient Reason White, 2021-09-20 Dr White s book is the first to be written on Schopenhauer s important foundation work On the Fourfold Root of the Principle of Sufficient Reason It presents the arguments and analyses of Schopenhauer s work in systematic form and assesses the worth of those arguments and analyses with particular emphasis on their positive merits Schopenhauer divides the phenomenal world into four classes of object discussing each of these in turn and the chapters of White s book generally follow that order But the book also contains a chapter of introduction showing how the Fourfold Root fits into Schopenhauer s general scheme of philosophical

thought and an appendix outlining the historical background to Schopenhauer's views. Given that it is the only work of its kind, White's book will be of use and interest to all students and it is written in such a way that it should be intelligible to the beginner in Schopenhauer as well as helpful to the more established student.
