prisons as these ideas are made concrete at moments of British colonialism It also considers alternatives to viewing islands as objects of possession in the archipelagic visions of island theorists and writers It compares the European understandings of the first and last of the new worlds the Caribbean archipelago and the Australian island continent to calibrate the different ways these disparate geographies unified and fractured the concept of the planetary globe In particular it examines the role of the island in this process specifically its capacity to figure a graspable globe in the mind The book draws on the colonial archive and ranges across Australian literature from the first novel written and published in Australia by a convict on the island of Tasmania to both the ancient dreaming and the burgeoning literature of Aboriginal and Torres Strait Islanders in the twenty first century It discusses Australian literature in an international context drawing on the long traditions of literary islands across a range of cultures The book s approach is theoretical and engages with contemporary philosophy which uses the island and the archipelago as a key metaphor It is also historicist and includes considerable original historical research

**Lines Drawn upon the Water** Karl S. Hele, 2008-09-30 The First Nations who have lived in the Great Lakes watershed have been strongly influenced by the imposition of colonial and national boundaries there The essays in Lines Drawn upon the Water examine the impact of the Canadian American border on communities with reference to national efforts to enforce the boundary and the determination of local groups to pursue their interests and define themselves Although both governments regard the border as clearly defined local communities continue to contest the artificial divisions imposed by the international boundary and define spatial and human relationships in the borderlands in their own terms The debate is often cast in terms of Canada's failure to recognize the 1794 Jay Treaty's confirmation of Native rights to transport goods into Canada but ultimately the issue concerns the larger struggle of First Nations to force recognition of their people's rights to move freely across the border in search of economic and social independence

**The Subordinate Substitute** Peter Carnley, 2024-01-10 In this book Peter Carnley examines the logical connection between the doctrine of the Trinity and the doctrine of redemption In the companion volume to this Arius on Carillon Avenue contemporary expressions of belief in the eternal functional subordination of the Son to the Father were carefully discussed and found wanting when measured against the norms of orthodox trinitarian belief This book examines the repercussions of this defective trinitarian subordinationism in relation to recent attempts to defend the penal substitutionary theory of the Atonement which in turn is also found to fall short of trinitarian norms As an alternative a less theoretical and speculative incorporative or participative theology of redemption is proposed
