women available in the same format in which many companions to Western literature do An important book for all public and college level libraries A Selected Bibliography--Sub-Saharan Africa ,1991 **Gender and Agricultural Development**

Helen Kreider Henderson,1995-09 Agricultural planning and development are crucial to human survival but they usually proceed without any consideration of the importance of gender issues at the production level Although women have long been prime movers in agriculture their contribution to the world s food supply has been largely ignored and consequently their stake in development has been undermined This book is both a resource guide and a review of major issues in gender and agriculture which demonstrates that recognizing the contribution of women to agricultural production is a necessary step in development planning It presents relevant information and research literature regarding women s roles in agriculture in a consolidated and accessible format offering insights into how the inclusion or exclusion of appropriate information at the planning stage can have an impact during implementation It also provides guidelines for locating information on gender related agricultural issues and incorporating it into development planning research and training The literature reviewed not only calls attention to the work women do in order to improve their access to technology and training but also challenges existing development paradigms The issues discussed present women s experiences and local knowledge and allude to gender and class inequities that farming women face Each chapter is intended to help the reader address major gender issues in a specific subject in order to access relevant information and thereby better design and implement appropriate agricultural planning and policies By synthesizing twenty years of international research Gender and Agricultural Development provides an effective tool for development practitioners to use in training programs or surveys in order to ensure the appropriate collection of gender disaggregated data and for educators to integrate gender issues into courses dealing with social aspects of agricultural systems Its findings are presented in such a way as to allow them to be easily incorporated into innovative planning for more sustainable and equitable agricultural policies Gender and Social Movements Bahati M. Kuumba,2001-09-05 Do men and women experience participation in social movements differently Are gender roles reproduced or undermined during a struggle for liberation In this brief text examining gender roles in social movements M Bahati Kuumba shows how liberation struggles are viewed through women s eyes and how gender affects women s mobilization strategies and outcomes in social movement organizations Using two well known examples the American civil rights movement and the South African national liberation movement Kuumba documents the circumscribed roles of women the unheralded role of movement leaders such as Ella Baker and Frances Baard and how gender affected movement activities and results Gender and Social Movements is the ideal text to introduce a sophisticated view of race and gender into social movement courses Revolutionary Struggles and Girls' Education Thera Mjaaland,2021-07-27

Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in

sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975-91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense

Moving Beyond Boundaries (Vol. 2) Carole Boyce-Davies, Molaria Ogundipe-Leslie, 1995-04 v 1 International dimensions of Black women s writing v 2 Black women s diasporas

Adapting Gender and Development to Local Religious Contexts Romina Istratii, 2020-10-01 This book provides a critical and decolonial analysis of gender and development theory and practice in religious societies through the presentation of a detailed ethnographic study of conjugal violence in Ethiopia Responding to recent consensus that gender mainstreaming approaches have failed to produce their intended structural changes Romina Istratii explains that gender and development analytical and theoretical frameworks are often constructed through western Euro centric lenses ill equipped to understand gender related realities and human behaviour in non western religious contexts and knowledge systems Instead Istratii argues for an approach to gender sensitive research and practice which is embedded in insiders conceptual understandings as a basis to theorise about gender assess the possible gendered underpinnings of local issues and design appropriate alleviation strategies Drawing on a detailed study of conjugal abuse realities and attitudes in two villages and the city of Aksum in Northern Ethiopia she demonstrates how religious knowledge can be engaged in the design and implementation of remedial interventions This book carefully evidences the importance of integrating religious traditions and spirituality in current discussions of sustainable development in Africa and speaks to researchers and practitioners of gender religion and development in Africa scholars of non western Christianities and Ethiopian studies and domestic violence researchers and practitioners
