Sweetness And Light Thequeen Anne Movement1860 1900:

Sweetness and Light Mark Girouard,1977 Queen Anne was more than a style of architecture its influence can be traced in furniture pictures and decorations of the period in children s books such as Kate Greenaway s and in the revival of the old fashioned garden In this book Mark Girouard describes the Queen Anne movement in all its manifestations tracing its origin in the 1860s the spread of its subsequent vogue from London to the provinces and from England to America and its fall from grace in the 1890s when it was taken up the architects of pubs and waterside villas In doing so he does more than chart the style for the first time he also throws light on an important segment of English life in the last decades of the nineteenth century Back cover

secondary sources and a signed critical essay Adolf Loos Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos masterful astylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck s Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect **The Edwardian House** Helen C. Long, 1993 Illustrates how Edwardian houses were built how they were used and what they meant at the time *The Cosmopolitan Interior* Judy Neiswander, 2008 Judith Neiswander explains that during these years liberal values individuality cosmopolitanism scientific rationalism the progressive role of the elite and the emancipation of women informed advice about the desirable appearance of the home In the period preceding the First World War these values changed dramatically advice on decoration became more nationalistic in tone and a new goal was set for the interior to raise the British child by the British hearth Neiswander traces this evolving discourse within the context of current writing on interior decoration writing that it is much more detached from social and political issues of the day BOOK JACKET **The Victorians and the Eighteenth Century** Francis O'Gorman, Katherine Turner, 2017-07-05 Disrupting the common assumption that the Victorians regarded their eighteenth century predecessors with little interest or with disdain the essays in *The Victorians and the Eighteenth Century* propose a re examination of these relationships Together they expose some of the significant and complex ways in which key aspects and texts of the eighteenth century were situated read and transacted within the post Romantic nineteenth century Individual essays examine the influence of the work of Pope and the eighteenth century novelists such as Johnson Chatterton and Rousseau on a range of Victorian writers and cultural productions including Dickens Eliot Oliphant Ruskin historical fiction late Victorian art criticism The English Men of Letters series and the Oxford English Dictionary The contributors challenge long held views about Victorian uses of the past and offer new insights into how the literature and culture of the eighteenth century helped shape the culture and identity of the nineteenth This collection of essays by an impressive array of scholars with a Preface by David Fairer represents a unique approach to this area of literary history and offers new perspectives on the nature and methodology of periodization While it is obviously of great interest to students of eighteenth century and Victorian literature

it will also appeal to readers more broadly concerned with questions of literary influence periodization and historiography

The Fall and Rise of the Stately Home Peter Mandler, 1997-01-01 Challenging the prevailing view of a modern English culture besotted with its history and aristocracy Mandler portrays instead a continuously changing society where both intellectual and popular attitudes have only recently turned to admiration At the Temple of Art Colleen Denney, 2000 In the hands of an innovative team consisting of Sir Coutts Lindsay his wife Blanche Lindsay and two managers Charles Halle and Joseph Comyns Carr the gallery developed a reputation as a leading exhibition space for British and Continental artists during the late Victorian period What factors contributed to its rise to prominence on the London exhibition circuit How did it maintain that respected place in light of the diversification of showcases during this period Central to this book is a close examination of the paintings which were shown at the gallery during its fourteen year run how they were received by the critics and which movements were represented Jacket *Britain* Hubert Pragnell, 2002 Designed to encourage exploration this pocket sized guidebook to British architecture provides a delightful primer on building styles It s packed with informative charming drawings presents an outline of how different movements developed and places each building in its cultural and historical context The buildings that receive specific attention are Burghley House and Castle Howard

Tudoresque Andrew Ballantyne, Andrew Law, 2012-01-01 With its distinctive gables and arches Tudor style architecture is recognized around the world as a symbol of British culture it represents the idea of home to British citizens in the United Kingdom and abroad Some love it others hate it but the Tudoresque is still being built to give a house an old fashioned air or to create a sense of exotica Yet few people know anything about how Tudor Revival buildings came to be To fill this gap is *Tudoresque* an insightful book that explores the origin of the style tracing its roots to the antiquarian enthusiasms of the eighteenth century It looks at the Tudoresque cottage style which later influenced 1930s architecture and the Tudor style manor house particularly favored in the nineteenth century While the style has been discouraged since the 1920s and is especially reviled by modernists it continues to be a popular choice particularly when the architect doesn t have the upper hand The authors here show how the style is the mainstream of twentieth century British architecture and explore how it has travelled abroad From Tudor Village in Queens to Stan Hywet Hall in Akron to Malaysia Shanghai and Singapore Tudor Revival has found a comfortable home across the globe These black and white gabled buildings are important not so much because they are great architecture but because they are everywhere Illustrated with images from more than 200 years of the Tudor Revival and including examples from Britain America India and East Asia this knowledgeable and entertaining book will be an indispensable guide to the one of the world s most iconic architectural styles Valuing Historic Environments Lianne Gibson, John Pendlebury, 2016-02-17 This volume brings together an interdisciplinary team of leading scholars to discuss frameworks of value in relation to the preservation of historic environments Starting from the premise that heritage values are culturally and historically constructed the book examines the effects of pluralist frameworks of value on how

preservation is conceived It questions the social and economic consequences of constructions of value and how to balance a responsive democratic conception of heritage with the pressure to deliver on social and economic objectives It also describes the practicalities of managing the uncertainty and fluidity of the widely varying conceptions of heritage *Dressed As in a Painting* Kimberly Wahl,2013 In *Dressed as in a Painting* Kimberly Wahl provides a lucid exploration of the interrelations between fashion art and Aestheticism during the latter half of the nineteenth century Although artistic forms of dress have been the subject of short studies before no book has focused exclusively on Aesthetic dress and its various expressions in the visual cultures of Victorian Britain More important no book has attempted to investigate the gap between the material facts of artistic clothing as it was embodied on the wearer and its presence as an idealized sartorial trope in the visual and textual print culture of the period

Our Rural Selves Claudia Mitchell, April Mandrona, 2019-04-26 Life in the countryside often perceived as either idyllic or depleted has long been misrepresented Challenging the stereotypes and myths that surround the idea of rurality *Our Rural Selves* interrogates and represents individual and collective memories of childhood in rural landscapes and small towns Drawing on visual artifacts whose origins range from the early twentieth century to today such as photographs films objects picture books and digital games contributors offer readings of childhood that are geographically ethnically and culturally diverse They examine the memories of Indigenous children the experiences of back to the land youth and boom or bust childhoods within the petroleum farming and fishing industries Illustrating often neglected and overlooked aspects of adolescence this collection suggests new ways of studying social connectedness and collective futures Innovative and revealing in its use of visual studies autoethnography and memory work *Our Rural Selves* explores representation imagination and what it means to grow up rural in Canada

Ideal homes, 1918-39 Deborah Sugg Ryan, 2018-03-06 This book explores the aspirations and tastes of new suburban communities in interwar England for domestic architecture and design that was both modern and nostalgic in a period where homeownership became the norm It investigates the ways in which new suburban class and gender identities were forged through the architecture design and decoration of the home in choices such as ebony elephants placed on mantelpieces and modern Easiwork dressers in kitchens Ultimately it argues that a specifically suburban modernism emerged which looked backwards to the past whilst looking forward to the future Thus the inter war ideal home was both a retreat from the outside world and a site of change and experimentation The book also examines how the interwar home is lived in today It will appeal to academics and students in design social and cultural history as well as a wider readership curious about interwar homes
