Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public. Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture, usually leaving for what is perceived as a better life. Not only does this diaspora change the country of adoption but also the country of origin. Many large nations in the world have absorbed and continue to absorb large numbers of immigrants. The foreseeable future will see a continuation of large-scale immigration as many countries experience civil war and secessionist pressures. Currently, there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures and provides an overview of important topics in the world's diasporas. The encyclopedia consists of two volumes covering three main sections: *Diaspora Overviews* covers over 20 ethnic groups that have experienced voluntary or forced immigration. These essays discuss the history behind the social, economic, and political reasons for leaving the original countries and the cultures in the new places. *Topics* discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures, including the arts they bring, the struggles they face, and some of the cities that are in the forefront of receiving immigrant cultures. *Diaspora Communities* include over 60 portraits of specific diaspora communities. Each portrait follows a standard outline to facilitate comparisons. The *Encyclopedia of Diasporas* can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures, topics, and communities. It will prove of great value to researchers and students, curriculum developers, teachers, and government officials. It brings together the disciplines of anthropology, social studies, political studies, international studies, and immigrant and immigration studies.

The Foundation of Choice of Law Sagi Peeri, 2018-03-30 This book focuses on the subject of choice of law as a whole and provides an analysis of its various rules, principles, doctrines, and concepts. It offers a conceptual account of choice of law, called choice equality foundation (CEF), which aims to flesh out the normative basis of the subject. It provides a justification of the nature and limits of such popular principles as party autonomy, most significant relationship, and closest connection. It also discusses such topics as the actual operation of public policy doctrine in domestic courts and the relation between the notion of international human rights and international commercial dealings and makes some suggestions about the ability of traditional rules to cope with the advancing challenges of the digital age.

[Coming Home to the Third Reich](#) Grant W. Grams, 2021-09-14 During the 1930s, Germany's industrialization, rearmament, and economic plans taxed the existing manpower, forcing the country to explore new ways of acquiring Aryan German labor. Eventually, the Third Reich implemented a return migration program which used various recruitment strategies to entice Germans from Canada and the United States.

to migrate home It initially used the Atlantic Ocean to transport German speakers but after the outbreak of World War II German civilians were brought from the Americas to East Asia and then to Germany via the Trans Siberian Railway through the Soviet Union Germany's attack on the Soviet Union in June 1941 ended this overland route but some Germans were moved on Nazi ships from East Asia to the Third Reich until the end of 1942 This book investigates why Germans who had already established themselves in overseas countries chose to migrate back to an oppressive and authoritarian country It sheds light on some aspects of the Third Reich's administration goals and achievements associated with return migration while also telling the individual stories of returnees

Mennonite Women in Canada Marlene Epp, 2008 Marlene Epp explores women's roles as prescribed and as lived within the contexts of immigration and settlement household and family church and organizational life work and education and in response to social trends and events She questions how Mennonites dictate women's place within the church family and community and how women collectively and individually actually behave Epp found that in virtually all aspects of women's lives there exists a contradiction between behavioural ideals and practicalities She also found that their responses to dictates about their proper place ranged from acceptance to rebellion and almost always unsettled a clear delineation of their roles Using diaries oral histories church histories genealogies and memoirs Epp has painstakingly pieced together a rich and fascinating story of Canadian Mennonite women that deserves to be read by women and men everywhere

From the Inside Out Royden Loewen, 1999-10-12 Historian Royden Loewen has brought together selections from diaries kept by 21 Mennonites in Canada between 1863 and 1929 some translated from German for the first time By skillfully comparing and contrasting a wide cross section of lives Loewen shows how these diaries often turn the hidden contours of household and community inside out The writers featured were ordinary rural people young women and grandmothers rural preachers and landless householders They include a teenaged boy who immigrated from Russia to Manitoba in 1875 as well as a successful merchant a traveling evangelist and a devout conservative church elder An elderly grandfather recounted the daily circuit of his children's homes while 19 year old Marie Schoeder wrote of her literary aspirations her secret hope that some day she would write things that have a real worth things that are worth printing and things that other folks would love to read and pay for From the Inside Out also contrasts diaries from two distinct Mennonite communities in Canada The Swiss American Mennonites in Waterloo County Ontario faced rapid urbanization while the Dutch Russian Mennonites in southern Manitoba maintained their more rural environment The diaries mirror their writers preoccupations with work and weather but they also reveal a community's social structure and round of activities such as weddings funerals and worship services In the process of diary keeping the writers sought to make sense of a dynamic and often unpredictable world Reading what they chose to record is to learn much about their culture Their writings provide glimpses of their lives their collective mindset and their history as a people
