**Switzerland at the Polls** Howard Rae Penniman, 1983      *The Cross and the Ballot* Ellen Lovell Evans, 1999-06-01 The Cross and the Ballot describes the origins development and present status of Catholic political parties in Germany Austria Switzerland Belgium and The Netherlands Its comparative perspective contributes significantly to the current debate over Germany's Sonderweg that is whether or not German history has taken a special path or unique direction from others The emergence of a separate political representation for German Catholics was not a deviation from the usual European spectrum but on the contrary was strikingly similar to events in the other four countries Both the similarities and some notable differences serve to illuminate important aspects of German history      **Party Elites in Divided Societies** Kris Deschouwer, Kurt Richard Luther, 2004-01-14 Working from the basis of Arend Lijphart's 1968 work on divided societies the authors go on to look at such cultures and subcultures thirty years on bringing in new evidence and analysis to bear on the issue They also examine the essential role of party politics within and between these D framing comparisons with a number of countries from Belgium to Israel      *Referendums Around the World* David Butler, Austin Ranney, 1994 Updated edition of Referendums c1978      *Origins of Liberal Dominance* Andrew C. Gould, 2010-06-02 How did liberal movements reshape the modern world Origins of Liberal Dominance offers a revealing account of how states churches and parties joined together in France Belgium Switzerland and Germany to produce fundamentally new forms of organization that have shaped contemporary politics Modern political life emerged when liberal movements sought to establish elections constitutions free markets and religious liberty Yet liberalism even at its height faced strong and often successful opposition from conservatives What explains why liberals overcame their opponents in some countries but not in others This book compares successful and unsuccessful attempts to build liberal political parties and establish liberal regimes in France Belgium Switzerland and Germany from 1815 to World War I Andrew Gould argues that relations between states and churches set powerful conditions on any attempt at liberalization Liberal movements that enhanced religious authority while reforming the state won clerical support and successfully built liberal institutions of government Furthermore liberal movements that organized peasant backing around religious issues founded or sustained mass movements to support liberal regimes Origins of Liberal Dominance offers striking new insights into the emergence of modern states and regimes It will be of interest to political

scientists sociologists comparative historians and those interested in comparative politics regime change and state building democratization religion and politics and European politics Andrew C Gould is Assistant Professor of Government and Kellogg Institute Fellow University of Notre Dame     Before Norms Robert W. Jackman, Ross Alan Miller, 2009-12-21 The potato famines of the nineteenth century were long attributed to Irish indolence The Stalinist system was blamed on a Russian proclivity for autocracy Muslim men have been accused of an inclination to terrorism Is political behavior really the result of cultural upbringing or does the vast range of human political action stem more from institutional and structural constraints This important new book carefully examines the role of institutions and civic culture in the establishment of political norms Jackman and Miller methodically refute the Weberian cultural theory of politics and build in its place a persuasive case for the ways in which institutions shape the political behavior of ordinary citizens Their rigorous examination of grassroots electoral participation reveals no evidence for even a residual effect of cultural values on political behavior but instead provides consistent support for the institutional view Before Norms speaks to urgent debates among political scientists and sociologists over the origins of individual political behavior Robert W Jackman is Professor of Political Science at the University of California Davis Ross A Miller is Associate Professor of Political Science at Santa Clara University
