Professional Journal of the United States Army ,1992 Air University Library Index to Military Periodicals ,1992 Airpower Journal ,1998 *Military Review* ,1993 **Parameters** ,1992 True Faith And Allegiance James H. Toner,2014-04-23 James H Toner is professor of international relations and military ethics at the U S Air War College and author of *Morals Under the Gun* *Israel, the Church, and Millenarianism* Steven D. Aguzzi,2017-07-28 Since the calls of the Second Vatican Council Roman Catholic theologians have sought to overcome an overarching problem facing Jewish Christian relations the concept of supersessionism the idea that God has revoked the spiritual and historical promises made to the Jewish people in favour of granting those same privileges to a predominantly Gentile Church Israel the Church and Millenarianism breaks new ground by applying an ancient principle to

the problem of Israel's replacement the early Church's promotion of millennialism Utilizing the best in Patristic research Aguzzi argues that these earliest Christian traditions made room for the future of Israel because Christ's reign in the Church was viewed as provisional to his historical reign on earth Israel's role in salvation history was and is not yet complete Aguzzi's research also opens the door for a greater Catholic understanding of the millennial principle not shying away from its validity and relevance for understanding the importance of safeguarding Jewish particularity while concluding that the Synagogue and the Church are indeed on a parallel trajectory what will their Israel's acceptance be but life from the dead Romans 11:15 Ultimately the divine will is fulfilled through both Christian and Jewish means in history while each community is dependent in different ways upon the unfolding of God's future and the coming Parousia of Christ

The Sword and the Cross James H. Toner, 1992-01-30 The Sword and the Cross is a study of the relationships that exist between politics and ethics Its intention is to point out that moral convictions conceived and implemented without political wisdom can be bankrupt and that geopolitical strategy formulated and effected without ethical character can be disastrous Toner contends that politics and ethics are different sides of the same coin Therefore commanders that is leaders in politics and government in diplomacy and in the military must develop both strategic sense and ethical intuition A study of the relationship between the sacred and the profane this book promotes an understanding of the ways in which power and purpose can and must be complementary This study concludes that violence and conflict are part of human existence and that full and final redemption from our struggles is the gift of grace and not of human artifice At the same time we have the burden and the glory of doing all we can to achieve our own safety and happiness which requires political and military prudence The reconciliation of faith or conscience with power or command is the task of leaders who are informed by civic virtue In turn civic virtue is the product of wise education rooted in serious study of what ought to be as well as of what is but ethically impoverished modern education too rarely asks questions about visions of the Good Because these conclusions are rooted in a controversial religious and philosophical tradition they will generally challenge the accepted views in the field
