Swords Against Carthage Friedrich Donauer,1932 Swords Against Carthage Friedrich Donauer,1932 **Swords and Cinema** Jeremiah McCall,2015-01-14 A dive into the authenticity of battle scenes in epic films set in the Greco Roman world from Stanley Kubrick s Spartacus to Ridley Scott s Gladiator The battles and sieges of the Classical world have been a rich source of inspiration to film makers since the beginning of cinema and the sixties and seventies saw the golden age of the swords and sandals epic with films such as Spartacus Ridley Scott s Gladiator led a modern revival that has continued with the release of films like 300 The Eagle and Centurion and HBO s mini series Rome While Hollywood interpretations of Classical battle continue to spark interest in ancient warfare to casual viewers and serious enthusiasts alike they also spark a host of questions about authenticity What does Hollywood get right and wrong about weapons organization tactics and the experience of combat Did the Spartans really fight clad only in their underpants and did the Persians have mysterious silver masked assassins in their armies This original book discusses the merits of battle scenes in selected movies and along the way gives the reader an interesting overview of ancient battle It should appeal to the serious student of ancient warfare movie buffs and everyone in between Jeremiah McCall impresses us with detail on the motion pictures relevant to ancient history an honest and informative style UNRV com The author has managed to produce a readable informative and credible perspective His work is entertaining and his conclusions have an authoritative feel to them Enjoy FIRE Project **A Short History of Carthage** Charles Rollin,2018-03-10 Sicily would naturally be the place in which Carthage would first seek to establish a foreign dominion At its nearest point it was not more than fifty miles distant its soil was fertile its climate temperate it was rich in several valuable articles of commerce We have seen that in the treaty which was made with Rome about the end of the sixth century B C the Carthaginians claimed part of the island as their own It is probable that this part was then less than it had been For more than two hundred years the Greeks had been spreading their settlements over the country and the Greeks were the great rivals of the Phoenicians If they were not as keen traders and trade was certainly held in less estimation in Athens and even in Corinth than it was in Tyre and Carthage they were as bold and skillful as sailors and far more ready than their rivals to fight for what they had got or for what they wanted The earliest Greek colony in Sicily was Naxos on the east coast founded by settlers from Euboea in 735 Other Greek cities sought room for their surplus population in the same field and some of the colonies founded fresh settlements of their own The latest of them was Agrigentum on the south coast which owed its origin to Gela itself a colony of Cretans and Rhodians As the Greeks thus spread westward the Carthaginians retired before them till their dominions were probably reduced to little more than a few trading ports on the western coast of the island As long indeed as they could trade with the new comers they seemed to be satisfied They kept up for the most part friendly relations with their rivals allowing even the right of intermarriage to some at least of their cities

globally locally and historically This book will be of strong interest to students and scholars of International Relations
