**Swordsmen and Supermen**, 1972      **Samurai and Supermen** Bill Maltarich, 2005 Focusing on the ideological contradictions inherent in the German alliance with Japan during World War II this book analyses German discourse about Japan from the distinct yet intricately connected standpoints of the German Japanese historical relationship the scientific and pseudo scientific presentation of Japan in Germany and German fictional depictions of Japan The volume examines the historical relationship between Germany and Japan in the light of their alliance It also traces the origins and development of the image of Japan in Nazi Germany Through non fiction texts the points of emphasis friction and outright contradiction are discovered between Nazi ideology and an alliance with Japan as they were discussed both publicly and privately in Germany at the time Finally by examining fictional depictions of Japan and the Japanese under the Nazis the work reveals the means by which fiction addressed these ideological issues and incorporated the historical and non fictional arguments of its contemporaries This book looks carefully at its connection to other historical political racial and ideological thought of the time      *The Neverending Hunt* Paul Herman, 2008-09-08 Prepared by renowned Howard scholar Paul Herman with the assistance of Glenn Lord this is the first new bibliography of Robert E Howard since 1976 This massive volume contains more than twice as much information as the preceding biblio The Last Celt Robert E Howard is considered the Godfather of Sword and Sorcery and the creator of the international icon Conan the Cimmerian yet wrote successfully in numerous genres The Neverending Hunt lists every story poem letter and publication in which a Howard work has appeared It s more than you might think      **The Treasure of Atlantis** Joseph Allan Dunn, An orchid hunter s discovery is the catalyst that leads an expedition into the interior of South America to the lost remnant of ancient Atlantis      *Science Fiction and Fantasy Literature, Vol 1* R. Harvey Gardiner, 2013-12-18 In this account of the naval aspect of Hernando Cort s s invasion of the Aztec Empire C Harvey Gardiner has added another dimension to the drama of Spanish conquest of the New World and to Cort s himself as a military strategist The use of ships in the climactic moment of the Spanish Aztec clash which brought about the fall of Tenochtitl n and consequently of all of Mexico though discussed briefly in former English language accounts of the struggle had never before been detailed and brought into a perspective that reveals its true significance Gardiner on the basis of previously unexploited sixteenth century source

materials has written a historical revision that is as colorful as it is authoritative Four centuries before the term was coined Cort s in the key years of 1520 1521 used the technique of total war He was able to do so victoriously primarily because of his courage in taking a gamble and his brilliance in tactical planning but these qualities might well have signified nothing without the fortunate presence in his forces of a master shipwright Martin L pez As the exciting story unrolls Cort s L pez and the many other participants in the venture of creating and using a navy in the midst of the New World mountains and forests are seen as real personalities not embalmed historical stereotypes and the indigenous defenders are revealed as complex human beings facing huge odds Much of the tale is told in the actual words of the protagonists Gardiner has probed letters court records and other contemporary documents He has also compared this naval feat of the Spaniards with other maritime events from ancient times to the present Naval Power in the Conquest of Mexico as a book was itself the result of an interesting combination of circumstances C Harvey Gardiner as teacher scholar and writer had long been interested in Latin American history generally and Mexican history in particular During World War II from 1942 to 1946 he served with the U S Navy As he relates One day in early autumn 1945 while loafing on the bow of a naval vessel knifing its way southward in the Pacific a few degrees north of the Equator my thoughts turned to the naval side of the just ended conflict and in time the question emerged I wonder how the little ships and the little men will fare in the eventual record Then because I was eager to return to my civilian life of pursuit of Latin American themes the concomitant question came I wonder what little fighting ships and minor men of early Latin America have been consigned to the oblivion of historical neglect As I began later to rummage my way from Columbus toward modern times I seized upon the Mexican Conquest as the prime period with pay dirt for the researcher in quest of the answer to that latter question
