White, 2013-06-13 This is the first book dedicated to Australian youth gangs exploring the subtleties and nuances of street life for young men and their quest for social respect The key focus is on group violence and the ways in which the gang provides a forum for the expression of this violence      **W.J. MacKay and the NSW Police, 1910-1948** Richard Evans, 2022-08-29 This book tells the fascinating story of William John MacKay a man who dominated policing in New South Wales for three decades until his death in 1948 MacKay was fearless brilliant and ruthless He was responsible for beating up striking unionists but he also smashed the semi fascist New Guard when it was a threat to democracy He reformed and modernized the New South Wales Police Force and he framed innocent men for capital crimes He cracked down on organized crime and corruption and he was himself corrupt Dogged by scandal he was the subject of no fewer than seven royal commissions The story of W J MacKay is also the story of policing in Australia from the 1920s through to the corruption riddled period after the Second World War This gripping history explores the messy complexities of police power and sheds new light on a fascinating period in Australian police history      *Sydney's Century* Peter Spearritt, 2000 In this lively portrait of Sydney s development Peter Spearritt traces a century in the life of the city from the celebrations of the Federation of Australia in 1901 to the 2000 Olympic Games He describes the extra ordinary growth of the city and its sprawling suburbs and the transition from a port and a manufacturing center to an international financial hub      *The Cambridge Handbook of Australian Criminology* Adam Graycar, Peter Grabosky, 2002-06-20 As a unique work of reference *The Cambridge Handbook of Australian Criminology* covers the broad range of contemporary and historical subjects of criminology combining statistical and narrative analyses The book provides the most up to date figures and facts traces historical trends in Australian crime and criminal justice and comprehensively covers the key contemporary issues in Australian criminology Including valuable crime statistics compiled by the Australian Bureau of Statistics this book is the complete companion to Australian criminology the single most important resource for Australian criminology and criminal justice      **Crime, Shame and Reintegration** John Braithwaite, 1989-03-23 *Crime Shame and Reintegration* is a contribution to general criminological

theory Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing Shaming can be counterproductive making crime problems worse But when shaming is done within a cultural context of respect for the offender it can be an extraordinarily powerful efficient and just form of social control Braithwaite identifies the social conditions for such successful shaming If his theory is right radically different criminal justice policies are needed a shift away from punitive social control toward greater emphasis on moralizing social control This book will be of interest not only to criminologists and sociologists but to those in law public administration and politics who are concerned with social policy and social issues

Crime Over Time Robyn Lincoln, 2010-08-11

Crime Over Time features original contributions from some of Australia's most respected criminologists and historians. The book marries these two disciplines to offer a unique examination of crime and deviance over more than 200 years of Anglo-Australian history. This innovative compilation explores the intriguing ways in which Australian crime has evolved and the pioneering ways criminal justice agencies have dealt with offenders. The topics investigated range from colonial bushranging to terrorist attacks along with emerging forms of criminal activity such as cybercrime. The book also highlights the social construction of crime by using case studies including the way that homosexual activity was policed in earlier times. The collection provides an engaging and thorough examination of the historical factors that have shaped crime and punishment and its contemporary context.

Criminal Justice and Regulation Revisited Lennon Y.C. Chang, Russell Brewer, 2018-05-08

This volume brings together leading researchers to celebrate the significant contributions of Peter Grabosky to the field of Criminology and in particular his work developing and adapting regulatory theory to the study of policing and security. Over the past three decades his path-breaking theoretical and empirical research has contributed to a burgeoning literature on the myriad ways regulatory systems drive state and non-state interactions in an effort to control crime. This collection of essays showcases Grabosky's pioneering treatment of key regulatory concepts as they relate to such interactions and illustrate how his work has been instrumental in shaping contemporary scholarship and practice around the governance of security.

Revisiting the work of a key figure in the field, this book will be of interest to criminologists, sociologists, socio-legal studies, and those engaged with security and policy studies.

**Contrasts in Punishment** John Pratt, Anna Eriksson, 2014-06-03

Why do some modern societies punish their offenders differently to others? Why are some more punitive and others more tolerant in their approach to offending and how can these differences be explained? Based on extensive historical analysis and fieldwork in the penal systems of England, Australia and New Zealand on the one hand and Finland, Norway and Sweden on the other, this book seeks to answer these questions. The book argues that the penal differences that currently exist between these two clusters of societies emanate from their early nineteenth-century social arrangements when the Anglophone societies were dominated by exclusionary value systems that contrasted with the more inclusionary values of the Nordic countries. The development of their penal programmes over this two-hundred-year period, including the much earlier demise of the death penalty in the Nordic countries and significant differences between the respective prison rates and prison conditions of the two clusters, reflects the continuing influence of these values. Indeed, in the early 21st century, these differences have become even more pronounced. John Pratt and Anna Eriksson offer a unique contribution to this topic of growing importance: comparative research in the history and sociology of punishment. This book will be of interest to those studying criminology, sociology, punishment, prison and penal policy, as well as professionals working in prisons or in the area of penal policy across the six societies that feature in the book.

Political Corruption in Australia Peter John Perry, 2017-10-05
