Handbook of Research on Ethical Challenges in Higher Education Leadership and Administration Wang, Viktor, 2020-04-03 Higher education institutions are more so than other organizations deeply complex and they present a unique challenge to their leaders and administrators The unique complexities of higher education call for governance founded on thoughtful consideration of leadership practices theory and styles that reflect the values of the institution and its mission Embedded in a rapidly changing society the future of higher education leadership and administration is necessarily dynamic and demands a strong ethical core to guide research knowledge production and organizational behavior *The Handbook of Research on Ethical Challenges in Higher Education Leadership and Administration* is a cutting edge research publication that examines leadership ethics that higher education institutions must employ to be proactive visionary and ethically sound The publication covers the importance of leadership ethics in higher education as well as the foundation for developing frameworks in which to ground the presence of leadership

ethics in higher education Featuring a wide range of topics such as distance education free speech and leadership this book is ideal for librarians academicians administrators researchers education professionals policymakers and students Public Policy Jonathan Boston, Andrew Bradstock, David L. Eng, 2010-10-01 Ethics is a vigorously contested field There are many competing moral frameworks and different views about how normative considerations should inform the art and craft of governmental policy making What is not in dispute however is that ethics matters The ethical framework adopted by policy analysts and decision makers not only shapes how policy problems are defined framed and analysed but also influences which ethical principles and values are taken into account and their weighting As a result ethics can have a profound impact both on the character of the policy process and the choices made by decision makers PUBLIC POLICY WHY ETHICS MATTERS brings together original contributions from leading scholars and practitioners with expertise in various academic disciplines including economics philosophy physics political science public policy and theology The volume addresses three main issues first the ethical considerations that should inform the conduct of public officials and the task of policy analysis second the ethics of climate change and third ethics and economic policy While the contributors have varying views on these important issues they share a common conviction that the ethical dimensions of public policy need to be better understood and given proper attention in the policy making process *Indigenous Celebrity* Jennifer Adese, Robert Alexander Innes, 2021-04-09 *Indigenous Celebrity* speaks to the possibilities challenges and consequences of popular forms of recognition critically recasting the lens through which we understand Indigenous people's entanglements with celebrity It presents a wide range of essays that explore the theoretical material social cultural and political impacts of celebrity on and for Indigenous people It questions and critiques the whitestream concept of celebrity and the very juxtaposition of Indigenous and celebrity and casts a critical lens on celebrity culture's impact on Indigenous people Indigenous people who willingly engage with celebrity culture or are drawn up into it enter into a complex terrain of social relations informed by layered dimensions of colonialism racism sexism homophobia transphobia and classism Yet this reductive framing of celebrity does not account for the ways that Indigenous people's own worldviews inform Indigenous engagement with celebrity culture or rather popular social and cultural forms of recognition *Indigenous Celebrity* reorients conversations on Indigenous celebrity towards understanding how Indigenous people draw from nation specific processes of respect and recognition while at the same time navigating external assumptions and expectations This collection examines the relationship of Indigenous people to the concept of celebrity in past present and ongoing contexts identifying commonalities tensions and possibilities
