Excerpt from *Syllabus of Lectures on the History of Education With Selected Bibliographies and Suggested Readings* This book is a revision of a Syllabus of Lectures used during the past three years with a class in the History of Education In revising it for printing I have made such changes in arrangement and such additions and omissions as an experience of three years has seemed to indicate as desirable It is hoped that in this new form the Syllabus and appended bibliographies will prove useful as a practical guide to teachers librarians and individual students The Syllabus is based on a combination of the lecture and library methods with occasional class discussions and reports Instead of confining students to a few text books the aim has been to give them breadth of view by familiarizing them with the literature of the subject and to provide some training in methods of independent work An attempt has been made to study the history of education as a phase of the history of civilization Accordingly a close connection has been maintained between the history of the civilization of a people and the ideas on and progress of education among them Significant political events changes in religious ideas the attitude of the leaders toward the great problems the progress of scientific discovery and invention and the rise and progress of the scientific method and national spirit have been considered as a back ground for the study of the history of educational theories and practice An attempt has also been made to separate what was mere theory from what was actual practice what was particular or local from what was general to give some coherence to that confusing period between the Protestant Revolt and the nineteenth century to set the work of the theorists and the reformers in a proper relation to one another and to the times in which they lived and to point out how far they have influenced the present and finally to sketch the great organizing movements of the nineteenth century taking Germany France and England as types Only the slightest outline of the history of education in America is given just enough to show the relation of the European development to our own this subject being dealt with in another course About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Syllabus of Lectures On the History of Education Ellwood Patterson Cubberley, 2023-07-18 This is a syllabus written for students and teachers of educational history It provides a thorough overview of the development of educational thought and practice in the United States and Europe from classical times to the beginning of the 20th century Along with historical background information it includes extensive

bibliographies that can be used for advanced study Cubberley's authoritative work is essential to those looking to build a solid foundation in education history This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
