Sylloge Of Coins Of British Realm:

A Viking Market Kingdom in Ireland and Britain Tom Horne, 2021-12-30 Viking Age trade network theory silver economies kingdom formation and the Scandinavian raiding and settlement of Ireland and Britain are all popular subjects. However few have looked for possible connections between these phenomena something this book suggests were closely related. By allying Blomkvist's network kingdoms with Sindb's nodal market networks it is argued that the political and economic character of Viking Age Britain and Ireland my Insular Scandinavia is best understood if Dublin and J r v k are seen as being established as nodes of a market based network kingdom. Based on a dataset relating to the then developing bullion economies of the central and eastern Scandinavian worlds and southern Scandinavia in particular it is argued that war band leaders from or familiar with Danish markets like Hedeby and Kaupang transposed to Insular Scandinavia the concept of polities based on establishment of markets and the protection of routeways between them. Using this book readers can think of interlinked Dublin and Great Army elites creating an Insular version of a Danish style nodal market kingdom based on commerce and silver currencies. A Viking Market Kingdom in Ireland and Britain will help specialist researchers and students of Viking archaeology make connections between southern Scandinavia and the market economy of the U mair descendants of varr operating out of the twin nodes of Dublin and J r v k via the initial establishment of Hiberno Scandinavian longphuirt and the related winter camps of the Viking Great Army. *American Indians in British Art, 1700-1840* Stephanie Pratt, 2013-02-11 Ask anyone the world over to identify a figure in buckskins with a feather bonnet and the answer will be Indian. Many works of art produced by non Native artists have reflected such a limited viewpoint. In *American Indians in British Art 1700-1840* Stephanie Pratt explores for the first time an artistic tradition that avoided simplification and that instead portrayed Native peoples in a surprisingly complex light. During the eighteenth century the British allied themselves with Indian tribes to counter the American colonial rebellion. In response British artists produced a large volume of work focusing on American Indians. Although these works depicted their subjects as either noble or ignoble savages they also represented Indians as active participants in contemporary society. Pratt places artistic works in historical context and traces a movement away from abstraction where Indians were symbols rather than actual people to representational art which portrayed Indians as actors on the colonial stage. But Pratt also argues that to view these images as mere illustrations of historical events or individuals would be reductive. As works of art they contain formal characteristics and ideological content that diminish their documentary value. *The Numismatist*, 1973 Vols 24-52 include the proceedings of the A N A convention 1911-39. *A New History of the Royal Mint* C. E. Challis, 1992-11-19 This major study traces the development of English minting from the seventh century to the twentieth century. **Women Medievalists and the Academy, Volume 2** Jane Chance, 2018-05-22 Long overlooked in standard reference works pioneering women medievalists finally receive their due in *Women Medievalists and the Academy*. This comprehensive edited volume brings to life a diverse collection of inspiring

figures through memoirs biographical essays and interviews Covering many different nationalities and academic disciplines including literature philology history archaeology art history theology or religious studies and philosophy each essay delves into one woman's life intellectual contributions and efforts to succeed in a male dominated field Together these extraordinary personal histories constitute a new standard reference that speaks to a growing interest in women's roles in the development of scholarship and the academy The collection begins in the eighteenth century with Elizabeth Elstob and continues to the present and includes among more than seventy profiles such important figures as Anna Jameson Lina Eckenstein Georgiana Goddard King Eileen Power Dorothy L Sayers Dorothy Whitelock Susan Mosher Stuard Marcia Colish and Caroline Walker Bynum among others

The Anglo-Saxon Elite Renato Rodrigues da Silva, 2025-10-01

In all of the literature on Anglo Saxon England rarely has the question of social class been confronted head on The Anglo Saxon Elite Northumbrian Society in the Long Eighth Century draws upon recent research into topics such as religious practice emotions daily life and intellectual culture to investigate how the aristocracy of Northumbria maintained social dominance over wider society Moreover this monograph suggests that the crisis that brought an end to Northumbria as an independent kingdom was the product of the social contradictions produced by the ruling class as social domination developed over time The analysis is divided into three broad parts production circulation and consumption both as a nod to Marxist historiography and
