*Symbolic and Social Constraints on the Development of Children's Artistic Style* Chris J. Boyatzis, Malcolm W. Watson, 2001-01-26 This issue presents original research that illuminates symbolic and social processes at work in the artistic development of children spanning the toddler years to early adolescence Through longitudinal case studies consensual assessment and prospective and retrospective designs the authors analyze children s artwork for symbolic sequences and development as well as the impact of social and cultural context on the children s artistic development A great deal of emphasis is placed on whether or not children have discernable artistic styles what criteria and methods can be used to define and judge these styles and if and how a child s style changes over childhood and adolescence Authors also discuss the interplay of endogenous skill and social support as well as the nature of style continuity and discontinuity in development This issue will serve as an invaluable resource to art development researchers and scholars involved in many other developmental domains This is the 90th issue of the quarterly journal *New Directions for Child and Adolescent Development*

**The Pictorial World of the Child** Maureen Cox, 2005-11-17 This lavishly illustrated book gives a comprehensive and scholarly account of children s understanding and appreciation of art and their developing ability to produce their own pictures It discusses the main influences on children s picture making and considers the intriguing question does children s art follow the same pattern of development as the history of art As well as discussing the artistic development of typically developing children the book also includes a discussion of children with intellectual disabilities and those with a talent for art some of whom are children with autism

*Art and Human Development* Constance Milbrath, Cynthia Lightfoot, 2013-05-13 This interdisciplinary volume explores art its development and its role in the construction of knowledge Presenting theory and research on artistic development as a cultural and creative endeavor contributors examine the origins of human art during the Paleolithic cultural revolution as part of a modern cultural transformation in the growth of a creative artist and in developing children Target chapters expressing the disciplinary perspectives of psychology archaeology communications education and the performing arts are followed by commentaries from internationally acclaimed scholars of human development Part 1 explores how cultures harness and exploit the arts to give expression to values social practices and traditions This section traces the

emergence of new art forms that arose during social unrest including the symbolization of spiritual beliefs expressed on the walls of Paleolithic caves and the racial identity and cultural values expressed in the media of the hip hop generation Part 2 examines the journeys of a composer and a group of students to highlight the process of becoming an artist and the role education plays in its development The book concludes with a focus on the development of aesthetic appreciation and artistic activity in childhood and adolescence including for example how a child's developing theory of mind affects appreciation for the arts and how developing empathy and emotional regulation contribute to the cognitive and affective underpinnings of acting in adolescence As a whole contributors explore the developmental sociocultural and evolutionary processes that make the creation and experience of art possible Intended for researchers and advanced students in both human development and the arts this book will also serve as a textbook for advanced courses on psychology and the arts and or special topics courses in cognitive and or human development

**In A Younger Voice** Cindy Dell Clark, 2011 Adults were once children yet a generational gap can present itself when grown ups seek to know children's lives in research In A Younger Voice discloses how qualitative research tailored to be child centered can shrink the gap of generational unintelligibility The volume invites and instructs researchers who want to explore children's vantage points as social actors Its suggested tool kit draws from both academic and applied research based on the author's lifelong career as a child centered qualitative researcher World round research in knowing children has grown recently in anthropology sociology geography economics cultural psychology and a host of applied fields This book draws widely from the trending child centered research movement taking stock of methods for fulfilling its aims In A Younger Voice provides mature researchers with a kid savvy guide to learning effectively about from and with children The highlighted methods are steadfastly child attuned thinking smaller in order to free children to participate with empowerment From fieldwork and observation to focus groups and depth interviews to the use of photography artwork and metaphors viable methods are discussed with an old hand's acumen for making the procedures practical with children in the field Whether an investigator is at the beginning of a project designing from scratch procedures to involve and reveal the young or at the final stages conducting interpretations and analysis true to children's meanings In A Younger Voice gives know how for a challenging area of inquiry Playfully interviewing children as young as five years old as well as empowering teenagers to tell it like it is are tasks revealed to be both doable and essential For adults seeking to overcome generational cultural myopia these methods are invaluable

Sabbagh, 2007-03-30 An important part of cognitive development is coming to think in culturally normative ways Children

learn the right names for objects proper functions for tools appropriate ways to categorize and the rules for games In each of these cases what makes a given practice normative is not naturally given There is not necessarily any objectively better or worse way to do any of these things Instead what makes them correct is that people agree on how they should be done and each of these practices therefore has an important conventional basis The chapters in this volume highlight the fact that successful participation in practices of language cognition and play depends on children s ability to acquire representations that other members of their social worlds share Each of these domains poses problems of identifying normative standards and achieving coordination across agents This volume brings together scholars from diverse areas in cognitive development to consider the psychological mechanisms supporting the use and acquisition of conventional knowledge This is the 115th volume of the quarterly report series New Directions for Child and Adolescent Development     Social Exchange in Development William G. Graziano, 2002-04-02 In every human culture relationships are predicated on giving and receiving commodities both tangible food and money and intangible love and respect Social exchange theories describing relationships in such terms encompass a diverse array of perspectives such as interdependence equity investment contingent responsiveness and social coordination This volume addresses the developmental origins and implications of social exchange processes Despite the widespread acceptance of social exchange theories by social psychologists and their subsequent application to adult social relationships social exchange has received little attention from scholars of social development To bridge the gap the volume editors engaged seven distinguished scholars to address the social exchange divide between social psychology and developmental psychology The result is a collection about relationships and their development Specific chapters describe the development of social exchange norms and behaviors in terms of friend and family relationships morality dynamical systems evolution and gender These descriptions of how social exchange processes shape and are shaped by development present a valuable addition to the science of close relationships This is the 95th issue of the Jossey Bass series New Directions for Child and Adolescent Development i
