centuries the modern era Women Priests, Symbolic Violence, and Symbolic Resistance Sharon Jagger, 2025-02-26 This book explores from a feminist sociological viewpoint the ways gender is constructed in the priesthood in the Church of England and the political emotional and spiritual resources generated by women priests in their resistance praxis against a discriminating structure Despite the increasing numbers of women being ordained the Church continues to structurally support and legitimise the view that the priesthood should be exclusively male and women priests still experience gender discrimination and or differentiation Drawing on Bourdieu's notion of symbolic violence the book aims to fill a gap in the research literature by showing how women priests do not necessarily misrecognise or collude in their domination but engage in hidden resistances and subversions Based on empirical research the study reveals that whilst there are barriers to protesting and complaining in conventional ways there are also significant resistances in how women priests perform their role The themes addressed are relevant for sociologists of religion and scholars of gender and women's studies as well as those with an interest in theology and Christian ministry Myths and Symbols in Indian Art and Civilization Heinrich Robert Zimmer, 1990 This book interprets for the Western mind the key motifs of India a legends myth and folklore taken directly from the sanskrit and illustrated with seventy plates of Indian art It is primarily an introduction to image thinking and picture reading in Indian art and thought and it seeks to make the profound Hindu and Buddhist intuitions of the riddles of life and death recognizable not merely as Oriental but as universal elements
