Symbolisme Et Invention Formelle Dans Les Premiers Ecrits D'André Gide:

Symbolisme et invention formelle dans les premiers écrits d'André Gide Christian Angelet, 1982 *André Gide* Alan Sheridan, 1999 Sheridan presents a literary biography of one of the most important writers of the 20th century an intimate portrait of the reluctantly public man whose work was deeply and inextricably entangled with his life 35 halftones

Aller(s)-Retour(s) Loïc Guyon, Andrew Watts, 2014-03-17 If the eighteenth century was the age of reason and enlightenment the nineteenth century was undeniably the age of movement This tumultuous period in French history bore witness to the rise and fall of countless political movements from revolutions and coups d'état to popular protests and the first workers strikes It was an age of economic movements as France embraced the new world of finance and banking and underwent its own industrial revolution Social mobility increased as a dynamic commercial bourgeoisie began to challenge the system of aristocratic privilege that neither the 1789 Revolution nor the Napoleonic Empire had dismantled entirely The era was one of artistic ferment as Romanticism gave way to Realism Naturalism Impressionism and Symbolism Intellectual and philosophical movements from Liberalism to Saint Simonianism sought both to reconcile the country with its past and construct the framework for a progressive more harmonious future Through seventeen thematic essays *Aller s Retour s* seeks to understand nineteenth century France as a society in perpetual motion Recognising the instability that is key to the very concept of movement this volume explores how the intellectual shifts and cross currents of the nineteenth century responded to and impacted upon each other Finally it asks why questions of motion and movement dominated this period as every sphere of French life confronted its own extremes of progress and renewal stagnancy and regression *Le roman symboliste* Valérie Michelet Jacquod, 2008 Valerie Michelet Jacquod analyzes the paradoxical nature of the Symbolist novels that appeared between 1887 and 1895 These works were often criticized or rejected because of their contradictory place between the fictional realism of novels and Symbolism's rejection of narrative in favor of language Artists such as Dujardin Gide Gourmont and Schwob chose to transform these contradictions into a literary subject illustrating the extreme consciousness of Symbolism and discussing the idealism autonomy of language and other foundations of symbolic poetry The novel of extreme consciousness was in fact a major link in the renewal of a genre that paradoxically never ceased to think about its limits French text **French XX Bibliography** Douglas W. Alden, 1985-12 **French Xx Bibliography 36** French Institute-Alliance Française de New York, Modern Language Association of America. French VII. Modernités du suranné Valéry Hugotte, Jean-Christophe Valtat, Bernadette Bertrandias, 2006 André Gide dans le labyrinthe de la mythotextualité Pamela Antonia Genova, 1995 Le mythe a toujours tenu une place privilégiée dans l'oeuvre d'André Gide En dépit de sa formation protestante ou peut-être justement cause d'elle Gide revient constamment aux figures héroïques de l'Antiquité pour animer ses préoccupations esthétiques et morales A travers l'étude de quatre textes indicatifs du corpus

mythologique de l'auteur *Le Traité du Narcisse* Le Prométhée mal enchaîné OEdipe et Thésée ce livre examine la façon dont le discours gideien encadre par un référent ancien arrive à affirmer et se définir dans toute sa modernité La question est de savoir comment Gide reformule transforme et métamorphose la matière mythique pour en tirer un nouveau sens pour y ajouter sa propre voix Pour répondre cette question Genova labore la notion de mythotextualité un principe théorique qui comprend deux éléments principaux La mythologie et l'intertextualité La mythotextualité est un domaine d'activité textuelle travers lequel l'écrivain entreprend une réécriture créatrice et ludique des récits mythologiques Genova démontre que Gide utilise des figures intertextuelles telles que le déplacement l'enchevêtrement la notion du double et la mise en abyme et aussi qu'il développe dans chacun de ces quatre textes un discours personnel où il traite d'un problème intime qu'il a essayé de résoudre toute sa vie Les récits mythologiques de Gide se nourrissent d'une contradiction fondamentale un va-et-vient entre une sensualité vorace et une moralité tyrannique entre la jouissance et l'ascétisme enfin entre le paganisme et le christianisme Cela constitue la problématique gideienne À travers une manipulation progressivement plus développée des procédés textuels modernistes Gide perfectionne son discours conflit secret de plus en plus de liberté In the work of the French writer André Gide ancient Greek mythology plays an extraordinarily decisive role In spite of his Protestant formation or perhaps precisely because of it Gide returned often to the heroic figures of antiquity to animate his aesthetic and moral ideas Through the study of four important texts constructed around mythological figures *Le Traité du Narcisse* *Le Prométhée mal enchaîné* *OEdipe* and *Thésée* Pamela Genova explores the ways in which the Gidean discourse framed within an ancient referent succeeded at affirming itself and defining itself in all its original modernity This study poses the question of how Gide reformulated transformed and metamorphosized mythic material to draw out new meaning and to add to his own voice To examine and appreciate Gide's mythic work Genova elaborates the notion of mythotextuality and intertextuality Mythotextuality is a realm of textual activity in which the writer constructs a personalized rewriting of ancient mythic narratives Genova demonstrates how Gide used myth to explore a private dilemma that he struggled to resolve throughout his life Through a progressively more developed manipulation of modern textual processes Gide perfected his mythotextual discourse while he allowed his inner conflict more and more freedom Written in French this study is recommended for students and scholars of French and comparative literature

Isis, Narcisse, Psyché entre lumières et romantisme Pascale Auraix-Jonchière, Catherine Volpilhac-Auger, Université de Clermont-Ferrand II. Centre de recherches révolutionnaires et romantiques, 2000 L'émersion de ces trois figures dans la littérature du XVIII^e et du XIX^e siècle permet de s'interroger sur les enjeux et significations d'un syntagme commun le regard interdit si important qu'il emprunte pour s'exprimer les voies obliques du mythe Car c'est un drame ontologique pour le moi dans ses rapports lui-même comme autrui drame de réécriture aussi dans sa quête de sens
