Finishing the Mysteries of Gods and Symbols Seven Star Hand,2010-09-17 Here is comprehensive proof that the symbolism of many ancient texts canons and concepts is an advanced and extremely ancient spiritual and philosophical technology that predates all extant religions and mystery schools Consequently here is proof beyond disproof that all three so called Faiths of Abraham are purposeful deceptions Accordingly related esoterica mystery schools and the New Age are rife with error caused by undue reliance upon the assertions of these religions and their leaders Throughout this book I present verifiable proof that ancient sages and prophets opposed religion and wisely never trusted religious leaders As comprehensive validation of this they redundantly encoded stunning proof of why throughout pivotal symbolic narratives and related concepts The ancient sages and prophets hid vital secrets from religious leaders throughout the previous several millennia When these decoded details are compared to the history words and deeds of these religions and their leaders they finally prove the truth about many long hidden things These religions have always purposely imposed ignorance based on the deceptive recasting of earlier symbolic concepts and narratives that also expertly encoded the keys to ancient wisdom as redundant proofs of the truth Arrogant religious leaders while hypocritically lecturing others about morality have long overlooked that the ancient sages and prophets were painfully aware of their then current and future misdeeds and

deceptions and patiently and expertly prepared for them Vast is the antiquity and universality of the Zodiac. Helena Petrovna Blavatsky, 2022-05-17 The antiquity and universality of the Zodiac can be traced back to the earliest Theogonies It was not the Greeks who invented the Zodiac for the simple reason that they did not yet exist as a nation thirty seven centuries B C The dodecahedron is a perfect number and one among many signs of the Zodiac that the Sun visits in twelve months It was in honour of that sign that Moses divided his nation into twelve symbolical tribes Berosus predicted future events by the Zodiac and the time fixed by him for the conflagration of the world and another for a deluge comes at every renewal of the cycle of the sidereal year of 25 868 years The Hindus date their Kali Yuga from the great periodical conjunction of the planets at 3 100 before the birth of Christ Diogenes La rtius carried back the astronomical calculations of the Egyptians to 48 683 years before Alexander the Great The cycle of Initiation was a reproduction in miniature of that great series of Cosmic changes to which astronomers have given the name of tropical or sidereal year Just as at the close of the cycle of the sidereal year 25 868 mortal years the heavenly bodies return to the same relative positions as they occupied at its outset so at the close of the cycle of Initiation the inner man may regain the pristine state of divine purity and knowledge from which he set out on his cycle of terrestrial incarnations The connection of the twelve Jewish patriarchs with the Zodiac is a tacit divine recognition of the chosen people of God whose finger has purposely traced in heaven from the beginning of creation the numbers of these patriarchs Even the banners of these tribes are claimed to have exhibited the same symbols as those of the zodiacal signs In the universe of differentiated matter everything is mathematically co ordinated and mutually related in its units Replace God with of Karma and he will become an Eastern axiom Why see in the Pisces a direct reference to Jesus one of several world reformers when that constellation shines as a symbol of all past present and future Spiritual Saviours who dispense light and dispel mental darkness The Jews had evidently and undeniably borrowed their chronology from the Chaldeans along with their gods Of the 432 000 years of the Chaldean divine Dynasties they made 4 320 lunar years from the world s creation to the Christian era as to the Babylonian and Egyptian Gods they transformed them as quietly and modestly into Patriarchs The Zodiac existed hundreds of million of years before the Christian era Each planetary conjunction is a climacteric year of humanity All Sun gods had been mystically connected with the constellation of Taurus which was called the great city of God and mother of revelations and the interpreter of the divine voice The ansated Egyptian cross or Tau the Jaina cross or Svastika and the Christian cross have all the same meaning No peoples or nations except the Christians gave the significance to the Dragon that is given to it now The Serpent was the symbol of Wisdom and the Taurus sacred in every Cosmogony the symbol of physical or terrestrial generation It was from the Hindu systems of astronomy that the Egyptians the Greeks the Romans and even the Jews derived their knowledge It is the antiquity of the nations of the East which has erected their scientific fame For patience accumulated knowledge and prolonged experience produced wisdom Time itself was their teacher they knew the motions of the heavenly bodies during these intervals because they had seen

them and the duration of the Hindu people on earth is the cause of the fidelity of its records and the accuracy of its calculations The descent and re ascent of the human soul cannot be disconnected from the Zodiacal signs and it feels more natural to believe in the mysterious sympathy between the metaphysical soul and the bright constellations and in the influence of the latter on the former than in the absurd notion that the creators of Heaven and Earth have placed in Heaven the types of twelve vicious Jews In esoteric philosophy Patriarchs are the progenitors of the human race the Mind born Sons of Brahm They are the nursery and fountainhead of human beings This is the occult meaning of the Biblical Patriarchs of their genealogy and of their descendants dividing among themselves the earth First 7 are mentioned then 10 21 and so on The Jewish Patriarchs were pastors not priests **Book of Black Magic and Pacts** Arthur Edward Waite,1996-09

Symbols of Sacred Science René Guénon,2004 In Symbols of Sacred Science Guénon a master of precise even mathematical metaphysical exposition reveals himself as a consummate exegete of myth and symbolism as well superior in many ways to Mircea Eliade and comparable perhaps only to his respected friend Ananda K Coomaraswamy This extraordinary text unveils the cosmological meanings of root symbols organized under such general headings as The Center of the World Cyclic Manifestation Symbolic Weapons Axial Symbolism and the Symbolism of Passage The Symbolism of Building and The Symbolism of the Heart Far more than a simple catalogue of myths and symbols from many traditions Symbols of the Sacred Science lays the foundation for a universal esoteric symbology In this work Guénon demonstrates the fundamental unity across all cultures and ages of the images with which the Absolute clothes itself in its cosmic self revelation
