deeper understanding of philosophical and mystical religion and it was afterwards republished in volume form of which edition this is a new issue It has attracted very considerable attention and deserved it it has even been translated into French under the auspices of the late Countess of Caithness for the pages of L Aurore These few words of bibliography are not unnecessary because they establish the fact that there has been some little sentiment of interest working within a restricted circle as one may hope towards a more general diffusion and knowledge of a document which is at once suggestive from the literary standpoint and profoundly moving from other and higher considerations It encourages me to think that many persons who know and appreciate it now or may come under its influence in the future will learn with pleasure the little that I can tell them of its author the Councillor Eckartshausen and of certain other books not of his writing which as I think connect therewith and the study of which may help us to understand its message Perhaps the most interesting thing that I can say at the beginning concerning Eckartshausen is that he connects with that group of Theosophists of which Lavater was so important a figure the Baron Kirchberger an accomplished and interesting recorder and Louis Claude de Saint Martin a correspondent in France and a certain source of leading In his letters to Saint Martin Kirchberger says that Eckartshausen with whom he was in frequent communication was a man of immense reading and wonderful fertility he regarded him in other respects as an extraordinary personage whatever way providence may have led him It would appear that at this period namely in 1795 Eckartshausen was looking for and obtaining his chief light from the mystical study of numbers but was also to use the veiled and cautious language of the correspondence in enjoyment of more direct favours Saint Martin confesses on his own part that he was more interested in Eckartshausen than he could express Kirchberger must have held him in even higher estimation and undertook a journey to the Swiss frontier actually for the purpose of receiving from him the personal communication of the Lost Word but the illness of the proposed communicator frustrated this project The point is important because it establishes the pretensions of Eckartshausen As to the Councillor of Berne so to us he comes speaking with authority and whatever may be our opinion as to the kind of sacramentalism or economy which was conveyed in a proposal to communicate the incommunicable name there are some of us who know at least within certain limits that the little book which I am here introducing is not one of vain pretension Saint Martin acknowledges that part of the numerical system of Eckartshausen was in astonishing agreement with things that he had learned long ago in his own school of initiation that of Martines de Pasqually Altogether the French mystic had formed the best opinion possible of his German brother and his Swiss correspondent further tells us that Eckartshausen although a courtier walked in the narrow way of the inner life In a letter to Kirchberger dated March 19th 1795 Eckartshausen bears witness to his own personal experience and instructions received from above his consciousness of a higher presence the answers which he had received and the visions with the steps by which he had advanced even to the attainment of what he terms the Law in its fullness I have thought it well to give these data derived from private correspondence the publication of which was never designed or expected at the time because they

constitute a sketch of Eckartshausen taken to some extent unawares when there could be the least reason to suppose that he was adopting an attitude. Let us now compare the very strong claim which they incorporate with that of *The Cloud upon the Sanctuary* itself and the little analysis which I shall give here will I think be otherwise serviceable to readers as a summary of the chief purport of the work. It is possible by seeking inwardly to approach the essential wisdom and this wisdom is Jesus Christ who is also the essence of love within us. The truth of this statement can be experimentally proved by any one the condition of the experience being the awakening within us of a spiritual faculty cognizing spiritual objects as objectively and naturally as the outward senses perceive natural phenomenon. This organ is the intuitive sense of the transcendental world and its awakening which is the highest object of religion takes place in three stages: a morally by the way of inspiration b intellectually by the way of illumination c spiritually by the way of revelation. The awakening of this organ is the lifting of the cloud from the sanctuary enabling our hearts to become receptive of God even in this world. The knowledge of these mysteries has been always preserved by an advanced school illuminated inwardly by the Saviour and continued from the beginning of things to the present time. This community is the Invisible Celestial Church founded immediately after the Fall and receiving a first hand revelation for the raising of humanity. But the weakness of men as they multiplied necessitated an external society namely the Outward Church which in the course of time became separated from the Inner Church also through human weakness. The external church was originally consecrated in Abraham but received its highest perfection in the mystery of Jesus Christ. The Interior Church is invisible and yet governs all it is perpetuated in silence but in real activity and united the science of the temple of the ancient alliance with the spirit of the Saviour or of the interior alliance. This community of light is the reunion of all those capable of receiving light and is known as the Communion of Saints. It possesses its school its chair its doctor and a rule for students with forms and objects of study and in short a method by which they study together with degrees for successive development to higher altitudes. We must not however regard it as a secret society meeting at certain times choosing its elders and members and united by special objects for even the chief does not invariably know all the members and those who are ripe are joined to the general members when they thought least likely and at a point of which they knew nothing. The society forms a theocratic republic which one day will be the Regent Mother of the whole world. Its members are exactly acquainted with the innermost of religions and of the Holy Mysteries but these treasures are concealed in so simple a manner that they baffle unqualified research.

The Cloud Upon the Sanctuary:
Esoteric Classics Arthur Edward Waite, Karl Eckartshausen, 2020-01-10 Karl von Eckhartshausen was an 18th century German mystic. *The Cloud upon the Sanctuary* is Christian mysticism veiled in hermetic code and often considered a classic among Rosicrucians and Theosophists. Eckhartshausen was briefly a member of Adam Weishaupt's Bavarian Illuminati but left for spiritual reasons. In this work he cryptically mentions a society of the Elect that has existed from the very beginning of time as the invisible celestial Church. He predicted that it is the society whose members form a theocratic republic which one

day will be the Regent Mother of the whole World This book would later become a strong influence on the 19th century members of the Hermetic Order of the Golden Dawn Arthur Edward Waite offers an informative historical introduction
