About Religion Mark C. Taylor, 1999-07 Religion Mark C Taylor maintains is most interesting where it is least obvious From global financial networks to the casinos of Las Vegas from images flickering on computer terminals to steel sculpture material culture bears unexpected traces of the divine In a world where the economies of faith are obscure yet pervasive Taylor shows that approaching religion directly is less instructive than thinking about it Traveling from high culture to pop culture and back again *About Religion* approaches cyberspace and Las Vegas through Hegel and Kant and reads Melville's *The Confidence Man* through the film *Wall Street* As astonishing juxtapositions and associations proliferate formerly uncharted territories of virtual culture disclose theological vestiges showing that faith in contemporary culture is as unavoidable as it is elusive The most accessible presentation of Taylor's revolutionary ideas to date *About Religion* gives us a dazzling and disturbing vision of life at the end of the old and beginning of the new millennium

Beauty and Holiness James Alfred Martin, Jr., 2014-07-14 In this broad historical and critical overview based on a lifetime of scholarship James Alfred Martin Jr examines the development of the concepts of beauty and holiness as employed in theories of aesthetics and of religion The injunction in the Book of Psalms to worship the Lord in the beauty of holiness addressed a tradition that has comprehended holiness primarily in terms of ethical righteousness a conception that has strongly influenced Western understandings of religion As the author points out however the Greek forbears of Western thought as well as many Eastern traditions were and are more broadly concerned with the pursuit of beauty truth and goodness as ideals of human excellence that is with the holiness of beauty In this work Martin describes a philosophical

stance that should prove to be most productive for the dialogue between aesthetics and religion Beginning with the treatment of beauty and holiness in Hebrew Greek and classical Christian thought the author traces the emergence of modern theories of aesthetics and religion in the Enlightenment He then outlines the role of aesthetics in the theories of religion proposed by Otto Eliade van der Leeuw and Tillich in the cultural anthropology of Geertz and in the thought of Santayana Dewey Whitehead Heidegger and Wittgenstein In a global context Martin explores the relation of aesthetic theory to religious thought in the traditions of India China and Japan and concludes with reflections on the viability of modern aesthetic and religious theory in the light of contemporary cultural and methodological pluralism Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
