Creativity in Small Groups A. Paul Hare, 1982 A study of how small groups of people can combine for maximum creativity. Hare's approach is to treat creativity as a kind of problem solving and to look at the general characteristics of small groups. The first part of the book introduces four theoretical perspectives for understanding group activity. Part Two is written for the theorist who wishes to have a framework for understanding group structure and dynamics. Part Three compares individual and group problem solving, highlighting the differences in patterns of interaction associated with the size of the group. A review for researchers, theorists and those more actively involved in groups, this book draws on Hare's extensive research and practical experience. **The German Journal of Psychology**, 1994 **Methoden der Textanalyse** Stefan Titscher, Ruth Wodak, Michael Meyer, Eva Vetter, 2013-07-02 Dieses Lehrbuch verwirklicht zwei Ziele. Einerseits bietet es eine Einführung in die Vorgehensweise zur wissenschaftlichen Analyse von gesprochenen oder geschriebenen Texten. Andererseits werden insgesamt 15 Methoden und Verfahren aus der Linguistik und der Soziologie dargestellt und diskutiert. Die Darstellung erfolgt nach einer einheitlichen Gliederung und ermöglicht damit einen direkten Vergleich. Umfangreiche kommentierte Literaturverweise erleichtern den vertieften Zugang zur Thematik. Damit schafft dieses Werk den derzeit umfassendsten Überblick über sozialwissenschaftliche Methoden der Textanalyse. *The Symlog Practitioner* Richard Polley, A.
