Musical Mirror, 1928 *De Bekker's Music and Musicians* Leander Jan De Bekker, 1916 *Heinrich Schenker's Conception of Harmony* Robert Wesley Wason, Matthew Brown, 2020 The first detailed study of Schenker's pathbreaking 1906 treatise showing how it reflected 2500 years of thinking about harmony and presented a vigorous reaction to Austro Germanic music theory ca 1900 What makes the compositions of Handel Bach Haydn Mozart Beethoven Schubert Schumann Chopin and Brahms stand out as great works of art Heinrich Schenker 1868 1935 set out to answer this question in a series of treatises beginning with a strikingly original work with the deceptive title *Harmonielehre* roughly *Treatise on Harmony* 1906 Whereas other treatises of the period associated harmony with the abstract principles governing chords and chord progressions Schenker's treated it as the conceptual glue that allowed the individual elements of a work melodies motives chords counterpoint etc to work together locally and globally Yet

this book though renowned and much cited has never been studied systematically and in close detail Heinrich Schenker's Conception of Harmony approaches Schenker's 1906 treatise as a synthesis of ancient ideas and very new ones It translates for the first time two preparatory essays for Harmonielehre and describes his later views of harmony and the ways in which they influenced and also were ignored by the 1954 edition and translation entitled simply Harmony Though problematic Harmony was the first published translation of a major work by Schenker inaugurating the study of his writings in postwar America and Britain where they continue to be highly influential The Musical Times & Singing-class Circular ,1910
