Donlan, 2009 Many people believe in the Power of Positive Thinking but no one had succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences To explain the connection Joseph Donlan presented highly plausible theories in two preceding books Each of these books presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical This final book in the series also supports these premises however it does so at a higher more condensed level so that readers with no background in science can gain enough information to appreciate the divergent worlds of physics and metaphysics and gain a view of nature that undeniably links mind to matter *Source* Joseph Jaworski, 2012-02-06 As he did

in his classic *Synchronicity* Joseph Jaworski once again takes us on a mind expanding journey this time to the very heart of creativity and deep knowing Institutions of all sorts are facing profound change today with complexity increasing at a speed and intensity we've never experienced before Jaworski came to realize that traditional analytical leadership approaches are inadequate for dealing creatively with this complexity To effectively face these challenges leaders need to access the Source from which truly profound innovation flows Many people including Jaworski himself have experienced a connection with this Source often when called upon to respond in times of crisis moments of extreme spontaneity and intuitive insight Actions simply flow through them seemingly without any sort of conscious intervention But these experiences are chance occurrences ordinarily we don't know how to access the Source and we even have a blind spot as to its very existence In an extraordinarily wide ranging intellectual odyssey Jaworski relates his fascinating experiences with quantum physicists cognitive scientists indigenous leaders and spiritual thinkers all focused on getting to the heart of the Source Ultimately he develops four guiding principles that encompass the nature of the Source and what we need to do to stay in dynamic dialogue with it Using the combination of narrative and reflection that made *Synchronicity* so compelling Jaworski has written a book that illuminates the essential nature not only of visionary leadership but also of relationships consciousness and ultimately reality itself
