scholars and researchers *Religion and Popular Culture in America* Bruce David Forbes, Jeffrey H. Mahan, 2005-11-17 The connection between American popular culture and religion is the subject of this multifaceted and innovative collection In fourteen lively essays whose topics range from the divine feminine in *The Da Vinci Code* to Madonna's *Like a Prayer* and from the world of sports to the ways in which cyberculture has influenced traditional religions this book offers fascinating insights into what popular culture reveals about the nature of American religion today Revised throughout this new edition features three new essays including a fascinating look at the role of women in apocalyptic fiction such as the *Left Behind* series and editor Bruce David Forbes has written a new introduction In addition to the new textual material each chapter concludes with a set of suggested discussion questions *In Black and White* Kenneth L Shropshire, 1996-08-01 Confronts the pressing problems surrounding race and diversity in the front offices of the American sports industry From the years of the Negro Leagues in baseball up to today when college basketball programs entice and then fail to educate young Black men sports in America have long served as a barometer of the country's racial climate Just as Black employees are often barred from the upper echelons of corporate America they are underrepresented in the front offices of the sports industry as well In this compact volume Kenneth L Shropshire confronts prominent racial myths head on offering both a history of and solutions for the most pressing problems currently plaguing sports Despite the fact that Black athletes represent a huge majority of the American sports industry the majority of ownership stake in professional basketball baseball and football teams is still held by white owners And yet when confronted with programs intended to diversify their front offices many teams resort to the familiar refrain of merit based excuses there simply aren't enough qualified Black candidates or they don't know how to network These hollow excuses not only stigmatize and exclude Black employees but directly contradict the important value Black candidates can bring to these roles In the insular world of sports where former players often move up to become coaches managers executives and owners Black candidates are eminently qualified After decades of active involvement with their sport they often bring to the table experiences more relevant to the Black players on their teams As a central aspect of American life the sports industry has a responsibility to be a leader in the fight for racial equality a responsibility that has not yet been met In *Black and White* takes the industry to task revealing claims of colorblindness and reverse racism as self-serving deflection and scrutinizing professional and collegiate sports sports agents and owners alike No mere critique however the volume looks optimistically forward outlining strategies that will drive the sports industry toward greater racial equality and help it lead the way for racial justice efforts throughout America **The Cooperstown Symposium on Baseball and American Culture, 1998** Thomas L. Altherr, 2002-06-03 This is an anthology of 20 papers that were presented at the Tenth Cooperstown Symposium on Baseball and American Culture held in June 1998 and co-sponsored by the State University of New York at Oneonta and the National Baseball Hall of Fame and Museum Commencing with a perceptive speech by keynote speaker G Edward White this Symposium examined such topics as whether a city can support
